

Reform In Great Britain And Germany 1750 1850

T. C. W. Blanning, Peter Wende

Reform In Great Britain And Germany 1750 1850:

Reform in Great Britain and Germany, 1750-1850 T. C. W. Blanning, Peter Wende, 1999 In the study of late eighteenth century Europe the concept of reform has been neglected compared to the attention lavished on its more glamorous relation revolution Yet it was reform not revolution which characterized the experience of both Great Britain and Germany from 1750 to 1850 This volume takes a comparative approach to shed new light on old problems The Oxford Handbook of Modern British Political History, 1800-2000 David Brown, Robert Crowcroft, Gordon Pentland, 2018-03-29 The two centuries after 1800 witnessed a series of sweeping changes in the way in which Britain was governed the duties of the state and its role in the wider world Powerful processes from the development of democracy the changing nature of the social contract war and economic dislocation have challenged and at times threatened to overwhelm both governors and governed Such shifts have also presented challenges to the historians who have researched and written about Britain's past politics This Handbook shows the ways in which political historians have responded to these challenges providing a snapshot of a field which has long been at the forefront of conceptual and methodological innovation within historical studies It comprises thirty three thematic essays by leading and emerging scholars in the field Collectively these essays assess and rethink the nature of modern British political history itself and suggest avenues and questions for future research The Oxford Handbook of Modern British Political History thus provides a unique resource for those who wish to understand Britain's political past and a thought provoking long view for those interested in current political challenges The Diocesan Revival in the Church of England c.1800-1870 Arthur Burns, 1999-07-15 This book provides the first account of an important but neglected aspect of the history of the nineteenth century Church of England the reform of its diocesan structures It illustrates how one of the most important institutions of Victorian England responded at a regional level to the pastoral challenge of a rapidly changing society Providing a new perspective on the impact of both the Oxford Movement and the Ecclesiastical Commission on the Church The Diocesan Revival in the Church of England shows that an appreciation of the dynamics of diocesan reform has implications for our understanding of secular as well as ecclesiastical reform in the early nineteenth century *A History of Modern Britain* Ellis Wasson, 2016-01-26 Now available in a fully revised and updated second edition A History of Modern Britain 1714 to the Present provides a comprehensive survey of the social political economic and cultural history of Great Britain from the Hanoverian succession to the present day Places Britain in a global context charting the rise and fall of the British empire and the influence of imperialism on the social economic and political developments of the home country Includes revised sections on imperialism and the industrial revolution that have been updated to reflect recent scholarship a more reflective view on New Labour since its demise and an all new section on the performance of the Conservative Lib Dem coalition that came into office in 2010 Features illustrations maps an up to date bibliography a full list of Prime Ministers a genealogy of the royal family and a comprehensive glossary explaining uniquely British terms acronyms and famous figures

Spans topics as diverse as the slave trade the novels of Charles Dickens the Irish Potato Famine the legalization of homosexuality coalmines in South Wales Antarctic exploration and the invention of the computer Includes extensive reference to historiography *Materials of the Mind* James Poskett, 2019-05-10 This is not only the first global history of nineteenth century science but the first global history of phrenology Phrenology was the most popular mental science of the Victorian age From American senators to Indian social reformers this new mental science found supporters around the globe *Materials of the Mind* tells the story of how phrenology changed the world and how the world changed phrenology This is a story of skulls from the Arctic plaster casts from Haiti books from Bengal and letters from the Pacific Drawing on far flung museum and archival collections and addressing sources in six different languages *Materials of the Mind* is an impressively innovative account of science in the nineteenth century as part of global history It shows how the circulation of material culture underpinned the emergence of a new materialist philosophy of the mind while also demonstrating how a global approach to history can help us reassess issues such as race technology and politics today *Languages of Reform in the Eighteenth Century* Susan Richter, Thomas Maissen, Manuela Albertone, 2019-10-18 Societies perceive Reform or Reforms as substantial changes and significant breaks which must be well justified The Enlightenment brought forth the idea that the future was uncertain and could be shaped by human beings This gave the concept of reform a new character and new fields of application Those who sought support for their plans and actions needed to reflect develop new arguments and offer new reasons to address an anonymous public This book aims to compile these changes under the heuristic term of languages of reform It analyzes the structures of communication regarding reforms in the 18th century through a wide variety of topics

Britain and Germany in Europe, 1949-1990 Jeremy Noakes, Peter Wende, Jonathan Wright, 2002 Anglo German relations since 1945 have been generally cordial but subject to bouts of acute tension This volume by leading historians from both countries examines major political issues and broader contacts between the two societies It suggests that British perceptions have remained coloured by fears of German dominance aggravated by the success of the Federal Republic and the relative decline of Britain in the post war period **History** Peter Claus, John Marriott, 2023-07-07 This book provides an accessible introduction to a wide range of concerns that have preoccupied historians over time Global in scope it explores historical perspectives not only from historiography itself but from related areas such as literature sociology geography and anthropology which have entered into productive dialogues with history Clearly written and accessible this third edition is fully revised with an updated structure and new areas of historical enquiry and themes added including the history of emotions video history and global pandemics In all of this the authors have attempted to think beyond the boundaries of the West and consider varied approaches to history They do so by engaging with theoretical perspectives and methodologies that have provided the foundation for good historical practice The authors analyse how historians can improve their skills by learning about the discipline of historiography that is how historians go about the task of exploring the past and determining

where the line separating history from other disciplines such as sociology or geography runs History An Introduction to Theory and Method 3ed is an essential resource for students of historical theory and method working at both an introductory and more advanced level

Ten Years of German Unification Jörn Leonhard, Lothar Funk, 2002-04-30 In May 2000 scholars of history law politics and economics gathered in London to compare their various methodological and empirical perspectives on the 1989 90 collapse of the Germanies into a unity and the aftermath of the event from the perspective of a decade on Their 14 studies cover histo

The Reformist Ideas of Samuel Johnson Stefka Ritchie, 2017-03-07 This book explores what remains an under studied aspect of Samuel Johnson s profile as a person and writer namely his attitude to social improvement The interpretive framework provided here is cross disciplinary and applies perspectives from social and cultural history legal history architectural history and of course English literature This allows Johnson s writings to be read against the peculiarities of their historical milieu and reveals Johnson in a new light as an advocate of social improvement for human betterment Considering the multiplicity of narrative modes that have been employed the book points to the blurred boundaries and overlapping between history testimony and fiction and argues that a future biography of Samuel Johnson has to recognise that throughout his life he valued the utilitarian aspect of his manifesto as a writer to impart a more charitable attitude in the pursuit of a more caring society

Collaboration and Resistance in Napoleonic Europe M. Rowe, 2003-03-03 In this fascinating study Michael Rowe focuses on state formation in Napoleonic Europe It brings together the research findings of specialists in the histories of Europe s constituent nations and states during a momentous period in their development Thematically focused and integrated within a comparative framework the individual contributions explore areas as diverse as Britain France Germany Hungary Italy Poland Spain and Russia What impact did Napoleon have on these nations and how did they respond to his challenge

Constitutionalism, Legitimacy, and Power Kelly L. Grotke, Markus Josef Prutsch, 2014 If one counts the production of constitutional documents alone the nineteenth century can lay claim to being a constitutional age one in which the generation and reception of constitutional texts served as a centre of gravity around which law and politics consistently revolved This volume critically re examines the role of constitutionalism in that period in order to counter established teleological narratives that imply a consistent development from absolutism towards inclusive participatory democracy

Kings, Nobles and Commoners Jeremy Black, 2004-09-24 Jeremy Black s revisionist history shows that both thrusting bourgeois Protestant states like the Netherlands and Britain prospered and in Britain s case became a global power The reactionary Catholic states like Austria and France at various times remained stable until the deluge of the French Revolution Absolutism was no myth but absolutist states still had to rule with consent Black weaves these themes into a rich and coherent tapestry to give a clear and authoritative picture of the complexities of the early modern period

Victorian Political Culture Angus Hawkins, 2015 Victorian Britain is often described as an age of dawning democracy and as an exemplar of the modern Liberal state yet a hereditary monarchy a hereditary House of Lords

and an established Anglican Church survived as influential aspects of national public life with traditional elites assuming redefined roles After 1832 constitutional notions of mixed government gradually gave way to the orthodoxy of parliamentary government shaping the function and nature of political parties in Westminster and the constituencies as well as the relations between them Following the 1867-8 Reform Acts national political parties began to replace the premises of parliamentary government The subsequent emergence of a mass male electorate in the 1880s and 1890s prompted politicians to adopt new language and methods by which to appeal to voters while enduring public values associated with morality community and evocations of the past continued to shape Britain's distinctive political culture This gave a particularly conservative trajectory to the nation's entry into the twentieth century This study of British political culture from the late eighteenth to the early twentieth century examines the public values that informed perceptions of the constitution electoral activity party partisanship and political organization Its exploration of Victorian views of status power and authority as revealed in political language speeches and writing as well as theology literature and science shows how the development of moral communities rooted in readings of the past enabled politicians to manage far reaching change This presents a new overarching perspective on the constitutional and political transformations of the Victorian age

The Evangelical Counter-Enlightenment William R. Everdell, 2021-05-21 This contribution to the global history of ideas uses biographical profiles of 18th century contemporaries to find what Salafist and Sufi Islam Evangelical Protestant and Jansenist Catholic Christianity and Hasidic Judaism have in common Such figures include Muhammad Ibn Abd al Wahab Count Nikolaus Zinzendorf Jonathan Edwards John Wesley Jean Jacques Rousseau and Israel Ba'al Shem Tov The book is a unique and comprehensive study of the conflicted relationship between the evangelical movements in all three Abrahamic religions and the ideas of the Enlightenment and Counter Enlightenment Centered on the 18th century the book reaches back to the third century for precedents and context and forward to the 21st for the legacy of these movements This text appeals to students and researchers in many fields including Philosophy and Religion their histories and World History while also appealing to the interested lay reader

The Forging of the Modern State Eric J. Evans, 2014-06-06 In this hugely ambitious history of Britain Eric Evans surveys every aspect of the period in which the country was transformed into the world's first industrial power This was an era of revolutionary change unparalleled in Britain yet one in which transformation was achieved without political revolution The unique combination of transition and revolution is a major theme in the book which ranges across the embryonic empire the Church education health finance and rural and urban life Evans gives particular attention to the Great Reform Act of 1832 The Third Edition includes an entirely new introductory chapter and is illustrated for the first time

Moses Hirschel and Enlightenment Breslau David Heywood Jones, 2020-10-16 Breslau has been almost entirely forgotten in the Anglophone sphere as a place of Enlightenment Moreover in the context of the Jewish Enlightenment Breslau has never been discussed as a place of intercultural exchange between German speaking Jewish Protestant and Catholic

intellectuals An intellectual biography of Moses Hirschel offers an excellent case study to investigate the complex reciprocal relationship between Jewish and non Jewish enlighteners in a prosperous and influential Central European city at the turn of the 18th century

The Eighteenth Century T. C. W. Blanning, 2000 The complete Short Oxford History of Europe series editor Professor T C W Blanning will cover the history of Europe from Classical Greece to the present in eleven volumes In each experts write to their strengths tackling the key issues including society economy religion politics and culture head on in chapters that will be at once wide ranging surveys and searching analyses Each book is specifically designed with the non specialist reader in mind but the authority of the contributors and the vigour of the interpretations will make them necessary and challenging reading for fellow academics across a range of disciplines The word which best summarizes the wonderful variety of human experience in the eighteenth century is expansion The size of armies literacy rates state intervention the acreage of overseas empires productivity or just the number of Europeans on the planet were all significantly higher in 1800 than in 1700 It is the century which forms the hinge between the old world and the new for by its end change was not only detectable it was also seen to be irreversible In this book six experts analyse concisely and incisively the major developments in politics society the economy religion and culture warfare and international relations and in Europe s relations with the world overseas

Memory and Modern British Politics Matthew Roberts, 2023-12-14 This edited collection explores absence presence and remembrance in British political culture and memory studies Comprehensive in its scope it covers the entire modern period bringing together the 19th and 20th centuries as well as Britain Ireland and the Atlantic World As the first comparative and in depth study to explore the central and contested place of memory and the invention of tradition in modern British politics chapters include memorialisation statue mania anniversaries and on the wider impact and invoking of dead generations In doing so this book provides a new exciting and accessible way of engaging with the history of British political culture

Rediscovering Republicanism John Nantz, 2021-10-19 When well designed institutions function properly people thrive Few institutions have been more ingeniously designed than the U S federal government via the Constitution in 1787 This auspicious beginning more than two centuries ago helps explain why the U S remains a magnet for opportunity seekers students entrepreneurs dissidents and persecuted believers Yet for decades now America s federal government has been underperforming Social Security and Medicare face looming insolvency The federal government s war on poverty has failed to end poverty and arguably made it worse In 2012 the United States Postal Service lost more money than the nation spent on the State Department and Amtrak has lost money every year since being created in 1971 How can an enduring institution so thoughtfully crafted now produce such poor results The federal government has grown so much because it serves a new and different vision American Progressivism American Progressives believed that democratically elected public minded federal politicians and employees could use federal programs to solve the nation s greatest problems in a way no other American institution could This idea justified the federal government s massive expansion today the federal

government runs over 1 500 programs and employs over 5% of the U S workforce Yet federal results do not match Progressive expectations Three key problems windfall politics the government surcharge and complexity failure overlooked by American Progressives explain the federal government s consistent failures American Progressive s rosy eyed view of human nature and political institutions have not been borne out by the evidence In an era of substantial political fermentation and debate rediscovering and re applying American Republicanism represents the best path forward for the United States The federal government should retain many necessary responsibilities but turn over those where it has failed for social welfare federally provided services and retirement savings among others to the country s state governments civil society and individual citizens respectively

Reviewing **Reform In Great Britain And Germany 1750 1850**: Unlocking the Spellbinding Force of Linguistics
