Reform Our Study:

Reform Our Study Zedong Mao, 1955 **Reforming Our Universities** David Horowitz, 2010-08-31 For far too long our colleges and universities have been allowed to ignore their chartered responsibilities to educate rather than indoctrinate. Instead of providing a forum for the free exchange of ideas they intimidate students into ideological submission to leftist professors rather than pursuing meaningful research they proselytize for radical causes. Here author David Horowitz tells the story of his ongoing campaign for an Academic Bill of Rights to protect students who refuse to conform to radical orthodoxies. Horowitz means to recall higher education to its better self to become as it once was a place where students and teachers were not afraid to question opinions, create their own and engage in Socratic dialogue. From publisher description *The Struggle to Reform Our Colleges* Derek Bok, 2017-08-28 Why efforts to improve American higher educational attainment haven't worked and where to go from here. During the first decade of this century many commentators predicted that American higher education was about to undergo major changes that would be brought about under the stimulus of online learning and other technological advances. Toward the end of the decade the president of the United States declared that America would regain its historic lead in the education of its workforce within the next ten years through a huge increase in the number of students earning quality college degrees. Several years have elapsed since these pronouncements were made yet the rate of progress has increased very little if at all in the number of college graduates or the nature and quality of the education they receive. In *The Struggle to Reform Our Colleges* Derek Bok seeks to explain why so little change has occurred by analyzing the response of America's colleges, the influence of students, employers, foundations, accrediting organizations and government officials and the impact of market forces and technological innovation. In the last part of the book Bok identifies a number of initiatives that could improve the performance of colleges and universities. The final chapter examines the process of change itself and describes the strategy best calculated to quicken the pace of reform and enable colleges to meet the challenges that confront them **Education Reform** United States. General Accounting Office, 1989 Results of a multistate study of a variety of education reforms on academic achievement, dropout rates and enrollment patterns of educationally disadvantaged secondary school students *Replacing the Federal Income Tax* United States. Congress. House. Committee on Ways and Means, 1996 [104-2 Hearing: Replacing The Federal Income Tax, Serial No. 104-51, April 24, 1996-May 1, 1996](#) United States. Congress. House. Committee on Ways and Means, 1996 [Replacing the Federal Income Tax: Impact on small business of replacing the federal income tax, April 24, 1996; Impact on state and local governments and tax-exempt entities of replacing the federal income tax, May 1, 1996](#) United States. Congress. House. Committee on Ways and Means, 1995 **Selected Works of Mao Tse-Tung** Mao Tse-Tung, 2014-05-18 Selected Works of Mao Tse Tung Volume III focuses on the views of Mao Tse Tung on communism, revolution, fascism, national unity and patriotism. The volume first ponders on the proposition of Mao Tse Tung to reform the method and system of study within the

Communist Party of China the compromise between Japan and the United States at the expense of China and the establishment of an Eastern Munich against communism and against the Soviet Union The publication also takes a look at Mao Tse Tung s position against fascism including the war against Japan and driving the Japanese imperialists out of China The book examines questions regarding methods of leadership economic and financial problems in the anti Japanese war reduction of rent and the need for comrades to do economic work The text also elaborates on the coalition government Topics include the fundamental demands of the Chinese people international and domestic situation and policy of the Chinese Communist Party The volume is a dependable source of data for readers interested in the philosophy of Mao Tse Tung on communism fascism revolution and patriotism Chinese Thought as Global Theory Leigh Jenco,2016-05-12 With a particular focus on Chinese thought this volume explores how and under what conditions so called non Western traditions of thought can structure generally applicable social and political theory Reversing the usual comparison between local Chinese application and universal theory the work demonstrates how Chinese experiences and ideas offer systematic insight into shared social and political dilemmas Contributors discuss how medieval Chinese understandings of causal heterogeneity can relieve impasses within contemporary historiography how current economic and social conditions in China respond proactively to the future configuration of world markets and how hybrid modes of cross cultural engagement offer new foundations for the enterprise of learning from cultural others Each chapter works from Chinese perspectives to theorize the location of knowledge its conditions of production and the modes through which its content or adequacy is legitimated challenged and sustained Rather than reproducing Eurocentric knowledge production in Chinese form the mobilization of Chinese thought as a generally applicable body of theory actually breaks down clear boundaries between Chinese and non Chinese thought *Collections of United States Joint Publications Research Service Translations in the Social Sciences Emanating from Communist China* United States. Joint Publications Research Service,1962 **Building Sustainable Peace** Arnim Langer,Graham K. Brown,2016-06-16 Countries emerging from civil war or protracted violence often face the daunting challenge of rebuilding their economy while simultaneously creating the political and social conditions for a stable peace The implicit assumption in the international community that rapid political democratisation along with economic liberalisation holds the key to sustainable peace is belied by the experiences of countries such as Iraq and Afghanistan Often the challenges of post conflict reconstruction revolve around the timing and sequencing of different reform that may have contradictory implications Drawing on a range of thematic studies and empirical cases this book examines how post conflict reconstruction policies can be better sequenced in order to promote sustainable peace The book provides evidence that many reforms that are often thought to be imperative in post conflict societies may be better considered as long term objectives and that the immediate imperative for such societies should be people centred policies **The Politics of the Public Encounter** Peter Hupe,2022-11-25 On the ground floor of government citizens interact with teachers medical staff police

officers and other professionals in public service It is during these encounters that laws public policies and professional guidelines gain further substance and form In this insightful book Peter Hupe brings together expert contributions from scholars across the globe to study the social mechanisms behind these public encounters *Moulding the Medium* Patricia Stranahan,2016-09-16 Introduces to researchers the content of the Chinese Communist Party s first official newspaper the Liberation daily and examines its role in the acceptance and implementation of the party s goals during its span from May 1941 to March 1947 Includes chronological and topical outlines of the paper Europe Managing the Crisis Walter Kickert,Tiina Randma-Liiv,2015-06-05 Studies of the recent financial crisis have been largely dominated by economists but the similarities and differences between European countries response reflect both economic and political perspectives which have resulted in considerable differences in their decisions Drawing on uniquely comprehensive research data this book presents an in depth comparative analysis of how 14 European governments tackled the challenge of fiscal consolidation and analyses the political decision making behind these measures By exploring national responses not just in fiscal terms but also from a political perspective it reveals that decision making has been driven by political factors with profound effects on public administration and management This ground breaking book fills an important gap in the research literature for scholars of public management public administration and policy and will be a benchmark for future work on the global economic crisis Daily Report, Foreign Radio Broadcasts United States.
