The Reformation of the Twelfth Century Giles Constable, 1996 A study of the changes in religious thought and institutions c 1180 c 1280 **Reform and Renewal in the Middle Ages and the Renaissance** ,2022-04-19 Reform is one of the most significant themes spiritual and intellectual of the Middle Ages and it has both institutional and individual dimensions The Reformation crisis led to further variations on this crucial theme This volume examines the theme of Reform from a variety of viewpoints while covering more than four centuries Some contributions look at Apocalyptic dimensions in writings on reform Another focuses on the influence of Gerhart Ladner on the study of reforming themes and reform movements These articles will be useful for the study of intellectual history ecclesiastical history the history of spirituality and the study of Apocalypticism Contributors include Gregory S Beirich Christopher M Bellitto Gerald Christianson Thomas C Giangreco William V Hudon Lawrence F Hundersmarck Thomas M Izbicki Daniel Marcel La Corte Thomas E Morrissey Francis Oakley Joseph F O Callaghan Gilbert Ouy Robert Somerville Phillip H Stump and Morimichi Watanabe Publications by Louis B Pascoe S J Jean Gerson Principles of Church Reform ISBN 978 90 04 03645 1 Out of print Church and Reform Bishops Theologians and Canon Lawyers in the Thought of Pierre d Ailly 1351 1420 ISBN 978 90 04 14062 2 **A Companion to the Great Western Schism (1378-1417)** ,2009-09-30 The division of the Church or Schism that took place between 1378 and 1417 had no precedent in Christianity No conclave since the twelfth century had acted as had those in April and September 1378 electing two concurrent popes This crisis was neither an issue of the authority claimed by the pope and the Holy Roman Emperor nor an issue of authority and liturgy The Great Western Schism was unique because it forced upon Christianity a rethinking of the traditional medieval mental frame It raised question of personality authority human fallibility ecclesiastical jurisdiction and taxation and in the end responsibility in holding power and authority This collection presents the broadest range of experiences center and periphery clerical and lay male and female Christian and Muslim Theology including exegesis of Scripture diplomacy French literature reform art and finance all receive attention **Reassessing Reform** Christopher M. Bartoe,2023-07-21 When we approach such men as St Bernard of Clairvaux and John Calvin we are approaching two men who were not only significant figures of their time but figures standing on opposite shorelines of the influence and impact of Scholasticism as well as a tumultuous decline in orthodoxy Despite this reality what is most compelling about these two men is the continuity of their developed thought even though they were worlds apart separated by time This continuity is most assuredly grounded in their historical sources and more importantly their faithful handling of God s word That continuity although not point for point was rather for the significant part of the structure and content sum and substance of the twofold knowledge of God and self For both of these men this doctrine was fundamental permeating the whole of their world and life philosophy Bernard and Calvin clearly saw the implications of this twofold knowledge These implications manifest in the realm of various doctrines and the network of their system of thought This book seeks to explore those various components of their twofold knowledge of God and self as well as the implications in the realm of experiential Christianity Reforming the Church before Modernity Christopher M. Bellitto,2016-04-08 Reforming the Church before Modernity considers the question of ecclesial reform from late antiquity to the 17th century and tackles this complex question from primarily cultural perspectives rather than the more usual institutional approaches The common themes are social change centres and peripheries of change monasticism and intellectuals and their relationship to reform This innovative approach opens up the question of how religious reform took place and challenges existing ecclesiological models that remains too focussed on structures in a manner artificial for pre modern Europe Several chapters specifically take issue with the problem of what constitutes reform reformations and historians notions of the periodization of reform while in others the relationship between personal transformation and its broader social political or ecclesial context emerges as a significant dynamic Presenting essays from a distinguished international cast of scholars the book makes an important contribution to the debates over ecclesiology and religious reform stimulated by the anniversary of Vatican II *Ordo et Sanctitas: The Franciscan Spiritual Journey in Theology and Hagiography* ,2017-06-01 This volume Ordo et Sanctitas The Franciscan Spiritual Journey in Theology and Hagiography which celebrates the life and legacy of J A Wayne Hellmann is comprised of articles written by colleagues former students and associates The authors were invited to contribute their own articles within three broad categories corresponding with the areas in which Wayne has made a longstanding scholarly contribution Franciscan

The First Crusade Edward Peters, 2011-06-03 The First Crusade received its name and shape late To its contemporaries the event was a journey and the men who took part in it pilgrims Only later were those participants dubbed Crusaders those signed with the Cross In fact many developments with regard to the First Crusade like the bestowing of the cross and the elaboration of Crusaders privileges did not occur until the late twelfth century almost one hundred years after the event itself In a greatly expanded second edition Edward Peters brings together the primary texts that document eleventh century reform ecclesiology the appearance of new social groups and their attitudes the institutional and literary evidence dealing with Holy War and pilgrimage and most important the firsthand experiences by men who participated in the events of 1095 1099 Peters supplements his previous work by including a considerable number of texts not available at the time of the original publication The new material which constitutes nearly one third of the book consists chiefly of materials from non Christian sources especially translations of documents written in Hebrew and Arabic In addition Peters has extensively revised and expanded the Introduction to address the most important issues of recent scholarship

Everett Ferguson, 2013-11-26 Church History Volume One offers a unique contextual view of how the Christian church spread and grew from its development in the days of Jesus to the years leading up to the Reformation Looking closely at the integral link between the history of the world and that of the church Church History paints a portrait of God's people within its setting of times cultures and events that both influenced and were influenced by the church FEATURES Maps charts and illustrations spanning the time from the first through the thirteenth centuries Overviews of the Roman Greek and Jewish worlds and how they developed or declined Insights into the church's relationship to the Roman Empire with glimpses into pagan attitudes toward Christians Explanations of the role of art architecture literature and philosophy both sacred and secular in the Church Details on the major theological controversies of the periods Each chapter also contains callout passages from Scripture to assist in understanding the narrative of the Church even to the present day as part of the greater narrative of the Bible

AUTHOR'S PERSPECTIVE Scholar and writer Everett Ferguson wrote this history of the church from the perspective that such a history is the story of the greatest movement and community the world has known It's a human story of a divinely called people who wanted to live by a divine revelation It's a story of how they succeeded and how they failed or fell short of their calling From the Apostle Paul to the apologists and martyrs of the second century to Martin Luther the historical figures detailed are people who have struggled with the meaning of the greatest event in history the coming of the Son of God and with their role in that event and in the lives of God's people

Balaam's Ass: Vernacular Theology Before the English Reformation Nicholas Watson, 2022-06-21 For over seven hundred years bodies of writing in vernacular languages served an indispensable role in the religious and intellectual culture of medieval Christian England yet the character and extent of their importance have been insufficiently recognized A longstanding identification of medieval western European Christianity with the Latin language and a lack of awareness about the sheer variety and quantity of vernacular religious writing from the English Middle Ages have hampered our understanding of the period exercising a tenacious hold on much scholarship Bringing together work across a range of disciplines including literary study Christian theology social history and the history of institutions Balaam's Ass attempts the first comprehensive overview of religious writing in early England's three most important vernacular languages Old English Insular French and Middle English between the ninth and sixteenth centuries Nicholas Watson argues not only that these texts comprise the oldest continuous tradition of European vernacular writing but that they are essential to our understanding of how Christianity shaped and informed the lives of individuals communities and polities in the Middle Ages This first of three volumes lays out the long post-Reformation history of the false claim that the medieval Catholic Church was hostile to the vernacular It analyzes the

complicated idea of the vernacular a medieval innovation instantiated in a huge body of surviving vernacular religious texts Finally it focuses on the first long generation of these writings in Old English and early Middle English
