Regional Security in South Asia Sridhar K. Khatri, 1987 **Regionalism and Regional Security in South Asia** Zahid Shahab Ahmed, 2016-04-08 Zahid Shahab Ahmed evaluates the progress of the South Asian Association for Regional Cooperation SAARC This study goes beyond economic integration to present a detailed appraisal of cooperation under the overarching themes of economic cooperation environmental security human welfare and cooperation in security matters According to the author SAARC is making progress in addressing the myriad of issues on its agenda The transition from agreements to actions and frequent interactions among the member states has boosted confidence The progress of SAARC is more evident in the less controversial areas of human security such as poverty alleviation health and safety human resources development and higher education Notwithstanding enthusiastic commitments reflected in agreements and action plans there is a gulf between rhetoric and implementation most notably in sensitive areas relating to traditional security In the light of the findings of this study the author proposes that greater cooperation in common human security areas has a potential to pave the way for a cooperation on issues of a contentious nature particularly terrorism **Regional Security in South Asia** Nancy Jetly, 1999 Contributed articles presented at an international seminar in 1996 **Cross-border Population Movements and Regional Security in South Asia** Partha Sarathy Ghosh, 1997 **Demography and National Security** Myron Weiner, Sharon Stanton Russell, 2001-08 Political scientists demographers legal scholars and historians have come together in this volume under the direction of the late Myron Weiner one of the leading scholars in this field to address three of the major sets of questions in the field of political demography How changes in demographic variables population size growth distribution and composition influence threats real or perceived to a country's political stability and security how governments respond to demographic trends and how governments attempt to change demographic variables in order to enhance national security *Environmental Change and Regional Security in Southeast Asia* Stephen Colnon Lonergan, Steve Lonergan, 1994 **Pakistan's National Security Approach and Post-Cold War Security** Arshad Ali, 2021-03-31 This book analyzes the paradox that despite being a national security state Pakistan has become even more insecure in the post Cold War era It provides an in depth analysis of Pakistan's foreign and security policies and their implications for the overall state and society The book identifies the immediate security challenges to Pakistan and charts the distinctive evolution of Pakistan's national security state in which the military elite became the dominant actor in the political sphere of government during and after the Cold War period By examining the national security state militarization democracy and security proxy wars and the hyper military industrial complex the author illustrates how the vanguard role of the military created considerable structural sociopolitical economic and security problems in Pakistan Furthermore the author argues that the mismatch between Pakistan's national security stance and the transformed security

environment has been facilitated and sustained by the embedded interests of the country's military industrial complex. A critical evaluation of the role of the military in the political affairs of the government and how it has created structural problems for Pakistan this book will be of interest to academics in the field of South Asian Politics and Security South Asian Foreign and Security Policy International Relations Asian Security and Cold War Studies

Identity and Marginality in India Anwesha Ghosh, 2018-12-07 Decades of conflict and war have forced millions of men, women and children to flee from their homes and seek refuge in other parts of the country or in foreign lands. Afghanistan is one such country. This book is a study of the displaced Afghan migrant population in India, in particular the persecuted Sikhs and Hindus who are religious minorities in Afghanistan and make up a majority of Afghan migrants in India. It explores the relationship between acculturation and identity development. By focusing on the interactions between the Afghan immigrant population and the Indian society, the author analyses how the community negotiates identity and marginality in a country that does not recognize them as refugees. The author explains how the Afghan migrant population manages and negotiates various identities bestowed upon them by the societies in their home and host countries in their day to day existence in India. An important study of acculturation and adaptation issues of migrant groups in the setting of a developing country, this book will be of interest to academics in the field of refugee and migration studies, ethnography of ethnic identity and Middle East and South Asian Studies

Globalization and the National Security State Norrin M. Ripsman, T.V. Paul, 2010-03-18 In the past two decades many have posited a correlation between the spread of globalization and the decline of the nation state. In the realm of national security, advocates of the globalization thesis have argued that states' power has diminished relative to transnational governmental institutions, NGOs and transnational capitalism. Initially they pointed to declines in both global military spending, which has risen dramatically in recent years, and interstate war. But are these trends really indicative of the decline of nation state's role as a guarantor of national security? In *Globalization and the National Security State*, T.V. Paul and Norrin M. Ripsman test the proposition against the available evidence and find that the globalization school has largely gotten it wrong. The decline in interstate warfare can largely be attributed to the end of the Cold War, not globalization. Moreover, great powers, the US, China and Russia, continue to pursue traditional nation state strategies. Regional security arrangements like the EU and ASEAN have not achieved much, and weak states, the ones most impacted by the turmoil generated by globalization, are far more traditional in their approaches to national security, preferring to rely on their own resources rather than those of regional and transnational institutions. This is a bold argument and Paul and Ripsman amass a considerable amount of evidence for their claims. It cuts against a major movement in international relations scholarship and is sure to generate controversy.

Building a People-Oriented Security Community the ASEAN way Alan Collins, 2013-05-07 ASEAN has declared its intention to create a security community in Southeast Asia that is people orientated This book evaluates ASEAN

s progress and in doing so examines three matters of concern. The book firstly looks at the importance of constitutive norms to the workings of security communities by identifying ASEAN's constitutive norms and the extent to which they act as a help or hindrance in establishing a security community. It then moves on to how ASEAN has interpreted people orientated as empowering civil society organisations to be community stakeholders. The book discusses the uncertainty between how ASEAN envisages their role and the role they themselves expect to have. Civil society actors are seeking to influence what sort of community evolves and their ability to interact with the state elite is evaluated to determine what interpretation of people oriented is likely to emerge. Thirdly in order to make progress ASEAN has sought to achieve cooperation among its member states in functional areas. The book examines this interest in functional cooperation through case studies on human rights, HIV/AIDS and disaster management. By discussing the notion of ASEAN being people orientated and how it engages with the people, the book provides important insights into what type of community ASEAN is building as well as furthering our understanding on security communities more broadly.
