Refugees In Hungary:

The Admission and Integration of Refugees in Europe Sebastian Meyer, Salvatore Fabio Nicolosi, Giacomo Solano, 2025-03-31 The Admission and Integration of Refugees in Europe argues for a more interconnected understanding of laws and policies for the admission and integration of refugees and asylum seekers in the European Union Admission and integration normally refer to different phases of the migratory process but this demonstrates that they are inherently interconnected Certain legal statuses conferred in admission procedures are directly relevant for the integration prospects of migrants and the success or failure to integrate has potential repercussions for residence rights although refugees are in that respect better protected than other immigrants Legal pluralism further complicates the European context as admission is often seen as under European Union jurisdiction and integration as a Member State consideration However the book argues that this legal pluralism in fact helps us to better explain how interaction between admission and integration takes place across laws and legal orders Combining broad conceptual and constitutional analysis with closer readings of specific policies and country specific case studies this book demonstrates the potential for specific admission policies to either promote or hinder integration This book will be an important contribution to debates on European asylum and refugee law human rights and migrant integration policy

Refugee Protection Crises and Transit Europe Julija Sardelić, 2025-10-01 This open access book presents a socio legal analysis of immediate responses to large scale refugee displacement in Europe after the 1951 Refugee Convention came into force focusing on the countries to which refugees initially fled or through which they passed namely Austria and initially Yugoslavia followed by several of the former Yugoslav countries First it investigates the immediate responses to refugee movements following the suppression of the 1956 Hungarian Revolution by Soviet troops Second it examines the responses to individuals seeking asylum after being displaced during the post Yugoslav wars of the 1990s Third it analyses the responses of the same countries to refugees fleeing Global South countries predominantly Syria Iraq and Afghanistan in 2015 and 2016 Finally it explores how these countries responded to the mass displacement of refugees from Ukraine The book argues that these countries have positioned themselves as transit or temporary protection countries in order to avoid assuming long term responsibility for a larger number of refugees As a consequence they granted various forms of temporary legal status to refugees that differed from the refugee status defined in the 1951 Refugee Convention These legal statuses were hierarchical in terms of the rights attached to them and racialized with the fewest rights granted to refugees from the Global South and other negatively racialized groups The book traces the usage of self serving politics of diversity and

selective memory to legitimise why refugees could not be protected long term in these countries and also why there were such differences in treatment of refugees

Hungary in World War II Deborah S. Cornelius, 2011-04-01

The story of Hungary s participation in World War II is part of a much larger narrative one that has never before been fully recounted for a non Hungarian readership As told by Deborah Cornelius it is a fascinating tale of rise and fall of hopes dashed and dreams in tatters Using previously untapped sources and interviews she conducted for this book Cornelius provides a clear account of Hungary s attempt to regain the

glory of the Hungarian Kingdom by joining forces with Nazi Germany a decision that today seems doomed to fail from the start For scholars and history buffs alike Hungary in World War II is a riveting read Cornelius begins her study with the Treaty of Trianon which in 1920 spelled out the terms of defeat for the former kingdom The new country of Hungary lost more than 70 percent of the kingdom's territory saw its population reduced by nearly the same percentage and was stripped of five of its ten most populous cities As Cornelius makes vividly clear nearly all of the actions of Hungarian leaders during the succeeding decades can be traced back to this incalculable defeat In the early years of World War II Hungary enjoyed boom times and the dream of restoring the Hungarian Kingdom began to rise again Caught in the middle as the war engulfed Europe Hungary was drawn into an alliance with Nazi Germany When the Germans appeared to give Hungary much of its pre World War I territory Hungarians began to delude themselves into believing they had won their long sought objective Instead the final year of the world war brought widespread destruction and a genocidal war against Hungarian Jews Caught between two warring behemoths the country became a battleground for German and Soviet forces In the wake of the war Hungary suffered further devastation under Soviet occupation and forty five years of communist rule The author first became interested in Hungary in 1957 and has visited the country numerous times beginning in the 1970s Over the years she has talked with many Hungarians both scholars and everyday people Hungary in World War II draws skillfully on these personal tales to narrate events before during and after World War II It provides a comprehensive and highly readable history of Hungarian participation in the war along with an explanation of Hungarian motivation the attempt of a defeated nation to relive its former triumphs

Refugee Crisis Frances Trix, 2018-11-29 Since 2014 more than 60 million people have been displaced from their homes
 across the Middle East and Africa The European Refugee Crisis as it has come to be known is now the largest such crisis
 since the aftermath of World War II How have local communities reacted to the influx of asylum seekers And what can we
 learn from their responses Frances Trix here offers a wide ranging ethnographical and anthropological study of local
 individual responses to refugees from Macedonia to Germany Based on extensive interviews and field work in Europe Trix
 focuses for the first time on the ways that refugees have been welcomed or not as the case may be by various individuals and
 communities Her work ranges from Macedonians who established an NGO and lobbied to allow the refugees to use the train
 to the police charged with border management from a German organic food store owner who by her actions set the positive
 tone in her village a retired IT manager who coordinates refugee volunteers for his entire town to the district work
 organisation director who deems refugees unsuitable for multiple reasons The material is measured throughout against Trix s
 anthropological experience as well as reference to the historical and political contexts in which events are unfolding This
 book is essential reading for all those working on the refugee crisis and the prospects both local and global for the future
