Rogers, Kelly DeVries, John France, 2014-06-19 Highlights the range and richness of scholarship on medieval warfare military institutions and cultures of conflict that characterize the field History 95 2010 The latest collection of the most up to date research on matters of medieval military history contains a remarkable geographical range extending from Spain and Britain to the southern steppe lands by way of Scandinavia Byzantium and the Crusader States At one end of the timescale is a study of population in the later Roman Empire and at the other the Hundred Years War touching on every century in between Topics include the hardware of war the social origins of soldiers considerations of individual battles and words for weapons in Old Norse literature Contributors Bernard S Bachrach Gary Baker Michael Ehrlich Nicholas A Gribit Nicolaos S Kanellopoulos Mollie M Madden Kenneth J McMullen Craig M Nakashian Mamuka Tsurtssumia Andrew L J Villalon Medieval Weapons Robert D. Smith, Kelly DeVries, 2007-04-20 This fascinating reference covers the weapons and armor used by warriors from the 4th to the 15th century and discusses how and why they changed over time In the Middle Ages the lack of standardized weapons meant that one warrior's arms were often quite different from another's even when they were fighting on the same side And with few major technological advances in that period the evolution of those weapons over the centuries was incremental But evolve they ultimately did bringing arms armor and siege weapons to the threshold of the modern era From the fall of the Roman Empire to the beginnings of the Renaissance **Medieval Weapons An Illustrated History of Their Impact** covers the inexorable transformation from warrior in the mail shirt to fully armored knight from the days of spears and swords to the large scale adoption of the handgun **Medieval Weapons** covers this fascinating expanse of centuries in chapters devoted to the early medieval Carolingian Crusade and late medieval periods Within each period the book details how weapons and armor were developed what weapons were used for different types of battles and how weapons and armor both influenced and were influenced by changing tactics in battles and sieges **The Carolingian World** Marios Costambeys, Matthew Innes, Simon MacLean, 2011-05-12 A comprehensive and accessible survey of the great Carolingian empire which dominated western Europe in the eighth and ninth centuries **Encountering Islam on the First Crusade** Nicholas Morton, 2016-07-14 The First Crusade 1095-9 has often been characterised as a head to head confrontation between the forces of Christianity and Islam For many it is the campaign that created a lasting rupture between these two faiths Nevertheless is such a characterisation borne out by the sources Engagingly written and supported by a wealth of evidence **Encountering Islam on the First Crusade** offers a major reinterpretation of the crusaders attitudes towards the Arabic and Turkic peoples they encountered on their journey to Jerusalem Nicholas Morton considers how they interpreted the new peoples civilizations and

landscapes they encountered sights for which their former lives in Western Christendom had provided little preparation Morton offers a varied picture of cross cultural relations depicting the Near East as an arena in which multiple protagonists were pitted against each other Some were fighting for supremacy others for their religion and many simply for survival

Spencer, 2019 *Emotions in a Crusading Context* is the first book length study of the emotional rhetoric of crusading It investigates the ways in which a number of emotions and affective displays primarily fear anger and weeping were understood represented and utilised in twelfth and thirteenth century western narratives of the crusades making use of a broad range of comparative material to gauge the distinctiveness of those texts crusader letters papal encyclicals model sermons chansons de geste lyrics and an array of theological and philosophical treatises In addition to charting continuities and changes over time in the emotional landscape of crusading this study identifies the underlying influences which shaped how medieval authors represented and used emotions analyzes the passions crusade participants were expected to embrace and reject and assesses

whether the idea of crusading created a profoundly new set of attitudes towards emotions Emotions in a Crusading Context calls on scholars of the crusades to reject the traditional methodological approach of taking the emotional descriptions embedded within historical narratives as straightforward reflections of protagonists lived feelings and in so doing challenges the long historiographical tradition of reconstructing participants beliefs and experiences from these texts Within the history of emotions Stephen J Spencer demonstrates that despite the ongoing drive to develop new methodologies for studying the emotional standards of the past typified by experiments in neurohistory the social constructionist or cultural historical approach still has much to offer the historian of medieval emotions
