Religion And The Enlightenment From Descartes To Kant:

Religion and the Enlightenment James M. Byrne, 1997-01-01 This volume offers an overview of the Enlightenment's revolution of Western theology. It explains the era's ideas within the framework of religion, politics, and society and shows how they impacted that society. *New Testament Theology and its Quest for Relevance* Thomas R. Hatina, 2013-03-14 New Testament theology raises many questions not only within its own boundaries but also in relation to other fields such as history, literary criticism, sociology, psychology, history, politics, philosophy, and religious studies. But the overarching question concerns the relevance of two thousand year old writings in today's world. How does one establish what is and is not relevant in the New Testament? How does one communicate the ancient ideas presented in an alien language, alien time, and alien culture to a contemporary audience? This book is intended to serve as a methodological introduction to the field of New Testament theology aimed at a range of readers: undergraduate and Seminary students, clergy, and laypersons interested in the relevance of scripture. It is a guide which aims to help readers understand how practitioners of New Testament theology have wrestled with the relationship between historical reconstruction of the New Testament and its interpretation in the modern world. *Dictionary of Christianity and Science* Zondervan, 2017-04-25 The definitive reference work on science and Christian belief. How does Christian theology relate to scientific inquiry? What are the competing philosophies of science and do they work with a Christian faith based on the Bible? No reference work has covered this terrain sufficiently until now. Featuring entries from over 140 international contributors, the *Dictionary of Christianity and Science* is a deeply researched, peer-reviewed, fair-minded work that illuminates the intersection of science and Christian belief. In one volume, you get reliable summaries and critical analyses of over 450 relevant concepts, theories, terms, movements, individuals, and debates. You will find answers to your toughest questions about faith and science from the existence of Adam and Eve to the age of the earth, evolution, and string theory. **FEATURES INCLUDE** Over 450 entries that will help you think through some of today's most challenging scientific topics including climate change, evolution, bioethics, and much more. Essays from over 140 leading international scholars including Francis Beckwith, Michael Behe, Darrell Bock, William Lane Craig, Hugh Ross, Craig Keener, Davis Young, John Walton, and many more. Multiple view essays on controversial topics allow you to understand and compare differing Christian viewpoints. Learn about flesh and blood figures who have shaped the interaction of science and religion. Augustine, Aquinas, Bacon, Darwin, and Stephen Hawking are just the beginning. Fully cross-referenced entries include references and recommendations for further reading. Advance Praise: Every Christian studying science will want a copy within arm's reach. Scot McKnight, Northern Seminary. This is an invaluable resource that belongs in every Christian's library. I will be keeping my copy close by when I'm writing. Lee Strobel, Elizabeth and John Gibson, chair of apologetics, Houston Baptist University. Sparkles with passion, controversy, and diverse perspectives. Karl Giberson, professor of science and religion, Stonehill College. An impressive resource that presents a broad range of topics from a broad tent of evangelical scholars.

Michael R Licona Houston Baptist University I am certain that this dictionary will serve the church for many years in leading many to demonstrate that modern science can glorify our Creator and honor his creation Denis O Lamoureux University of Alberta Dictionary is too humble a label for what this is I anticipate that this will offer valuable guidance for Christian faithfulness C John Collins Covenant Theological Seminary Get answers to the difficult questions surround faith and science Adam and Eve the Age of the Earth Climate Change Evolution Fossil Record Genesis Flood Miracles Cosmology Big Bang theory Bioethics Darwinism Death Extraterrestrial Life Multiverse String theory and much much more **A Companion to the Philosophy of Education** Randall Curren, 2008-04-15 A Companion to the Philosophy of Education is a comprehensive guide to philosophical thinking about education Offers a state of the art account of current and controversial issues in education including issues pertaining to multiculturalism special education sex education and academic freedom Written by an international team of leading experts who are directly engaged with these profound and complex educational problems Serves as an indispensable guide to the field of philosophy of education **Contemporary Theology: An Introduction, Revised Edition** Kirk R. MacGregor, 2020-07-28 Accessible and comprehensive Contemporary Theology An Introduction by professor and author Kirk R MacGregor provides a chronological survey of the major thinkers and schools of thought in modern theology in a manner that is both approachable and intriguing Unique among introductions to contemporary theology MacGregor includes Evangelical perspectives alongside mainline and liberal developments The influence of philosophy and the recent Christian philosophical renaissance on theology Global contributions Recent developments in exegetical theology The implications of theological shifts on ethics and church life Contemporary Theology An Introduction is noteworthy for making complex thought understandable and for tracing the landscape of modern theology in a well organized and easy to follow manner *Andrews University Seminary Studies* Andrews University. Seventh-Day Adventist Theological Seminary, 1998 *Rorty, Buber and the Revival of Social Hope* Akiba Jeremiah Lerner, 2007 Stepping Stones To Other Religions: A Christian Theology of Inter-religious Dialogue Dermot A. Lane, **The Integral Philosophy of Aurobindo** Brainerd Prince, 2017-01-20 Sri Aurobindo was an Indian nationalist philosopher yogi guru and poet This book is an enquiry into the integral philosophy of Aurobindo and its contemporary relevance It offers a reading of Aurobindo s key texts by bringing them into conversation with religious studies and the hermeneutical traditions The central argument is that Aurobindo s integral philosophy is best understood as a hermeneutical philosophy of religion Such an understanding of Aurobindo s philosophy offering both substantive and methodological insights for the academic study of religion subdivides into three interrelated aims The first is to demonstrate that the power of the Aurobindonian vision lies in its self conception as a traditional hermeneutical enquiry into religion the second to draw substantive insights from Aurobindo s enquiry to envision a way beyond the impasse within the current religious secular debate in the academic study of religion Working out of the condition of secularism the dominant secularists demand the abandonment of the category religion and the

dismantling of the academic discipline of religious studies Aurobindo's integral work on religion arising out of the Vedānta tradition critiques the condition of secularity that undergirds the religious/secular debate Finally informed by the hermeneutical tradition and building on the methodological insights from Aurobindo's integral method the book explores a hermeneutical approach for the study of religion which is dialogical in nature This book will be of interest to academics studying Religious Studies Philosophy of Religion Continental Hermeneutics Modern India Modern Hinduism as well as South Asian Studies

Faith in the Age of Reason Jonathan Hill, 2004 It was the best of times it was the worst of times it was the age of wisdom it was the age of foolishness So begins Charles Dickens's *A Tale of Two Cities* And without doubt the Age of Reason the Enlightenment was a period unlike any other In many respects it was during this time that the modern world was forged It was a time when worldviews clashed and new ways of seeing and understanding emerged And it was in the arena of religion above all that this clash took place Our modern ideas of religion our modern ideas of science and our perspectives on the interaction between religion and science were developed as the Enlightenment gathered momentum and encountered opposition In this volume part of the IVP Histories series Jonathan Hill examines the Age of Reason spanning the seventeenth and eighteenth centuries He begins by describing how the Middle Ages came to an end with the Renaissance and the Reformation setting the scene for the Enlightenment He then takes you on a fascinating tour of the central themes and characters of this turbulent period Themes covered include the churches the new science the new philosophy the question of authority politics and society God humanity and the world the reaction and the legacy Key figures you'll encounter include Samuel Johnson Galileo Newton Descartes Hume Voltaire Pascal Locke Diderot Rousseau and Kant Packed with centuries worth of fascinating prose and beautiful four color art yet small enough to fit in your pocket *Faith in the Age of Reason* offers a wonderfully rich and enjoyable exploration of one of the great periods of human history **Kant, Hume, and the**

Interruption of Dogmatic Slumber Abraham Anderson, 2020-02-24 Kant once famously declared in the *Prolegomena* that it was the objection of David Hume that first many years ago interrupted my dogmatic slumber Abraham Anderson here offers an interpretation of this utterance arguing that Hume roused Kant not as has often been thought by challenging the principle that every event has a cause which governs experience but rather by attacking the principle of sufficient reason the basis of both rationalist metaphysics and the cosmological proof of the existence of God This suggestion Anderson proposes allows us to reconcile Kant's declaration with his later assertion that it was the Antinomy of pure reason the clash of opposing theses that first woke him from dogmatic slumber For the Antinomy suspends the dogmatic principle of sufficient reason in doing so Anderson proposes it is extending Hume's attack on that principle This reading of Kant also explains why Kant speaks of the objection of David Hume after mentioning Hume's attack on metaphysics The objection that Kant has in mind Anderson argues is a challenge to metaphysics rather than to the foundations of empirical knowledge Consequently Anderson's analysis issues a new view of Hume himself as primarily interested not in the foundations of experience but in the problem of metaphysics and theology It thereby positions Kant and Hume as champions of the Enlightenment in its struggle with superstition Shedding new light on the connection between two of the most influential figures in the history of philosophy this volume will appeal not only to scholars of Kant Hume and early modern philosophy but to philosophers and students interested in the history of philosophy and metaphysics generally *Between Dancing and Writing* Kimerer L.

LaMothe, 2004 This book provides philosophical grounds for an emerging area of scholarship the study of religion and dance

In the first part LaMothe investigates why scholars in religious studies have tended to overlook dance or rhythmic bodily movement in favor of textual expressions of religious life In close readings of Descartes Kant Schleiermacher Hegel and Kierkegaard LaMothe traces this attitude to formative moments of the field in which philosophers relied upon the practice of writing to mediate between the study of religion on the one hand and theology on the other In the second part LaMothe revives the work of theologian phenomenologist and historian of religion Gerardus van der Leeuw for help in interpreting how dancing can serve as a medium of religious experience and expression In so doing LaMothe opens new perspectives on the role of bodily being in religious life and on the place of theology in the study of religion

One Story of Academia Moussa Traoré, 2010 One Story of Academia Race Lines and the Rhetoric of Distinction through the Académie française explores how the word race was historically linked to kings and feudal lords as a sign of elite social distinction and how the Académie française has embodied that type of distinction in France since its establishment in 1635 Meant to be an undeclared scholarly mysterious companion to the French monarchy the Académie created a powerful attraction for the highest classes inspiring critics of different stripes considered to be the highest expression of Frenchness it excluded different groups based on class gender race ethnicity religion ideology and nationality The self proclaimed heir to ancient Greek and Roman scholarship the Académie also claims to represent Europe the West and even Humanity However as an academic institution it has experienced dialectical arguments between traditional feudal elitism and scholarly elitism as both sought to define French culture in the seventeenth and eighteenth centuries Trustees of taste and promoters of purity the Académiciens and their strong supporters followed the troubled evolution of the word race and of social distinction Borrowing from inter European ethnic issues and nationalism subscribers to the growing racial distinction had the features of the colonized analyzed with the French and by extension European and Western sense of social distinction in mind Consequently the colonized ended up at the lowest end of the social scale in turn this placement explained the application of European feudal norms of exploitation on the colonies and created the more controversial and dreaded concept of racism This book highlights how the significance of language in the French sense of race as superiority is at the heart of the Académie française
