Faith, Race and Inequality amongst Young Adults in South Africa

Nadine Bowers Du Toit,2022-07-04 For many young South African adults often called born frees who were born just before or just after the demise of political apartheid the ongoing realities of poverty and inequality bring to light the question of whether they truly are free in contemporary South Africa Their lived experiences of poverty and inequality seem to be in conflict with theologically laden concepts that remain prominent in social and political life such as reconciliation forgiveness justice and restitution This leads to a bi directional process of contesting and being contested by such notions and discourses Furthermore in light of the double legacy of both the church and youth as resisting injustice this publication seeks to explore

the many perspectives from which the Christian faith race and inequality amongst youth can be brought to light **Books**
