Religion In An Age Of Science:

Religion in an Age of Science Ian G. Barbour, 2013-04-09 A comprehensive examination of the major issues between science and religion in today's world Religion in an Age of Science Ian Barbour, 1988 **Reason and Religion in an Age of Science** Terry Kelly, 2007-12-31 The book is aimed at senior high school and college students as a textbook a book to be used in a classroom setting in course in science and religion religion and philosophy It deals with topics such as 1 The importance of science and religion methods of science the method of religion the birth of modern cosmology the development of cosmology the Big Bang the Book of Genesis the Stars the Anthropic universe science at its limits the resurrection and the fruits of a useful conversation between science and religion The book has 10 chapters and has questions and comes with a CD that has many power points for us in the classroom as and adjunct to teaching with the accompanying the text **Belief in God in an Age of Science** John Polkinghorne, 1998-03-30 John Polkinghorne is a major figure in today's debates over the compatibility of science and religion Internationally known as both a theoretical physicist and a theologian the only ordained member of the Royal Society Polkinghorne brings unique qualifications to his inquiry into the possibilities of believing in God in an age of science In this thought provoking book the author focuses on the collegiality between science and theology contending that these intellectual cousins are both concerned with interpreted experience and with the quest for truth about reality He argues eloquently that scientific and theological inquiries are parallel The book begins with a discussion of what belief in God can mean in our times Polkinghorne explores a new natural theology and emphasizes the importance of moral and aesthetic experience and the human intuition of value and hope In other chapters he compares science's struggle to understand the nature of light with Christian theology's struggle to understand the nature of Christ He addresses the question Does God act in the physical world And he extends his ideas about the role of chaos theory surveys the prospects for future dialogue between scientific and theological thinkers and defends a critical realist understanding of the activities of both disciplines Polkinghorne concludes with a consideration of the nature of mathematical truths and the links between the complementary realities of physical and mental experience **Religion in an Age of Science** Edwin Arthur Burtt, 1929 Issues in Science and Religion Ian G. Barbour, 1966 First published 1966 Includes index Includes bibliographical references **God in the Age of Science?** Herman Philipse, 2012-02-23 God in the Age of Science is a critical examination of strategies for the philosophical defence of religious belief The main options may be presented as the end nodes of a decision tree for religious believers The faithful can interpret a creedal statement e.g. God exists either as a truth claim or otherwise If it is a truth claim they can either be warranted to endorse it without evidence or not Finally if evidence is needed should its evidential support be assessed by the same logical criteria that we use in evaluating evidence in science or not Each of these options has been defended by prominent analytic philosophers of religion In part I Herman Philipse assesses these options and argues that the most promising for believers who want to be justified in accepting their

creed in our scientific age is the Bayesian cumulative case strategy developed by Richard Swinburne Parts II and III are devoted to an in depth analysis of this case for theism Using a strategy of subsidiary arguments Philipse concludes 1 that theism cannot be stated meaningfully 2 that if theism were meaningful it would have no predictive power concerning existing evidence so that Bayesian arguments cannot get started and 3 that if the Bayesian cumulative case strategy did work one should conclude that atheism is more probable than theism Philipse provides a careful rigorous and original critique of theism in the world today *Faith in the Age of Science* Mark Silversides,2012-02-29 This book carefully examines the claims made by the followers and promoters of both atheism and religion in a rational and engaging way *Religion and Science* Ian G. Barbour,1998-01-01 An expanded revised version of Religion in an Age of Science Three new chapters on physics metaphysics in the 18th century and biology theology in the 19th century Other new sections included Religion and Science Ian G. Barbour,2013-02-12 Religion and Science is a definitive contemporary discussion of the many issues surrounding our understanding of God and religious truth and experience in our understanding of God and religious truth and experience in our scientific age This is a significantly expanded and feshly revised version of Religion in an Age of Science winner of the American Academy of Religion Award for Excellence and the Templeton Book Award Ian G Barbour the premier scholar in the field has added three crucial historical chapters on physics and metaphysics in the seventeenth century nature and God in the eighteenth century and biology and theology in the nineteenth century He has also added new sections on developments in nature centered spirituality information theory and chaos and complexity theories **Christian Faith in an Age of Science** William North Rice,1903 **Redeeming Culture** James Gilbert,1997-06-21 James Gilbert integrates everything from sermons to science fiction into a strikingly original account of American cultural history after World War II By illuminating the uneasy courtship between science and religion in American popular culture Gilbert poses philosophical questions that continue to haunt us down to the present T J Jackson Lears 35 halftones Available Reason and Religion in an Age of Science Terry Kelly,2007-12-31 The book is aimed at senior high school and college students as a textbook a book to be used in a classroom setting in course in science and religion religion and philosophy It deals with topics such as 1 The importance of science and religion methods of science the method of religion the birth of modern cosmology the evelopment of cosmology the Big Bang the Book of Genesis the Stars the Anthropic universe science at its limits the resurrection and the fruits of a useful conversation between science and religion The book has 10 chapters and has questions and comes with a CD that has many power points for us in the classroom as and adjunct to teaching with the accompanying the text **Faith in an Age of Reason and Science** Ferdinand Nwaigbo,2003 Heals the old rift between faith and reason and to open a new horizon for faith and science in the New Age **Human Becoming in an Age of Science, Technology, and Faith** Philip Hefner,2022-08-23 What does it mean to be human in an age of science technology and faith The ability to ask such a question suggests at least a partial answer in that however we describe ourselves we bear

a major role in determining what we will become In this book Philip Hefner reminds us that this inescapable condition is the challenge and opportunity of Homo sapiens as the created co creator In four original chapters and an epilogue Hefner frames the created co creator as a memoirist with an ambiguous legacy explores some of the roots of this ambiguity emphasizes the importance of answering this ambiguity with symbols that can interpret it in wholesome ways proposes a partial theological framework for co creating such symbols and applies this framework to the challenge of using technology like artificial intelligence and robotics to create other co creators in our own image Editors Jason P Roberts and Mladen Turk have compiled eight responses to Hefner s work to honor his scholarly career and answer his call to help co create a more wholesome future in an age of science technology and faith

Reason and Religion in an Age of Science Terry

Kelly,2007 A text for high school and college students in science and religion with exercises for student to do in class or in their own time this book comes with a CD with many power point presentations The book can be used as a text book has been developed for courses delivered for senior students studying religion and science or religion or philosophy Christian Faith in an Age of Science (Classic Reprint) William North Rice,2015-07-13 Excerpt from Christian Faith in an Age of Science In my student days I became deeply interested in the relations of science and religion and in the tentative and provisional solution of the problems which the advance of science offers to religious thought The sympathy I have felt with the perplexities of successive classes of students in an experience of more than thirty years as a teacher of geology and the cognate sciences has kept the subject ever before my mind The thought of many years finds expression in the present volume I have ventured to hope that the book may be useful to several classes of people To some of my brethren in the church and particularly in the ministry who have a hardly adequate appreciation of the value of the contribution which science has made to the world s thought I have hoped that these pages may bring a more generous appreciation of the results of science and a greater tolerance of those modifications of religious belief which seem necessary to most scientific men About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Protestants in an Age of Science Theodore Dwight Bozeman,2012-12-01 Since Princeton College and Princeton Seminary were major radii of Realist influence the conservative Presbyterianism headquartered there is an ideal choice for a case study in the American impact of Baconianism Presbyterian thinkers already committed to a synthesis of Protestant religion and Newtonian science were afforded with additional means of elaborating a doxological version of natural science and of defending it against naturalism and other enemies of Christian faith Originally published in 1977 A UNC Press Enduring

Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value *God in the Age of Science?*
Herman Philipse,2012-02-23 Herman Philipse puts forward a powerful new critique of belief in God He examines the strategies that have been used for the philosophical defence of religious belief and by careful reasoning casts doubt on the legitimacy of relying on faith instead of evidence and on probabilistic arguments for the existence of God

Buddhist-Christian Dialogue in an Age of Science Paul O. Ingram,2008 Buddhist Christian dialogue has rarely touched on its interaction with science yet its importance has immense implications Buddhist Christian Dialogue in an Age of Science offers a fresh and exciting view on the ideas themes and people engaged in the three way dialogue between Christianity Buddhism and the natural sciences Ingram s comprehensive yet accessible scholarship is uniquely solid in both religion and science and has the gift of making complex theories understandable Providing these three different perspectives will be useful for anyone interested in the relationship between religion and science
