Religion An Anthropological View:

Religion Anthony Wallace, 2013-02-13 The classic anthropological analysis of religion from a pioneer in the field From the preface Scientific efforts to learn just what are the forms and functions of religion have not been few it is the purpose of this book to review some of them and to synthesize the suggestions and findings My own personal feeling is that sociological viewpoints including much of social anthropology tend to focus on the scaffolding and milieu of religion rather than on religion itself and that religion can be best understood from a combination of psychological and cultural points of view This book is not I think motivated by a need to destroy by dissection a way of thinking and acting that many educated people feel is of little use or is even disadvantageous in a world increasingly committed to the search for scientific and technological solutions of human problems Rather I aim to preserve a friendly detachment in the asking of fundamental scientific questions about religion

Religion Anthony Francis Clarke Wallace, 1966 **Religion** Pierre R. Crosson, 1966 Religion Anthony F. C. Wallace, 1966 **What is Religion?** Idinopulos, Brian C. Wilson, 2018-09-24 What is Religion consists of fourteen essays written by a selection of scholars who represent a wide spectrum of approaches to the academic study of religion Each of the essays is an effort not only to take stock of the present controversy concerning appropriate methodologies for the study of religion but also to take one giant step beyond that to formulate a precise definition of religion Given the considerable confusion today about what it is exactly that religious studies scholars take to be their subject matter when they presume to professionally teach about religion this volume provides a much needed forum for leading scholars to debate and clarify what professors of religious studies understand as the central object or objects under their scrutiny

Religion Anthony Francis Clarke Wallace, 1966 **Religion in Human Life: Anthropological Views** Edward Norbeck, 1974 Religion in human life certainly qualifies as a basic topic for this series It is not an easy subject to treat effectively in brief compass Edward Norbeck has done so gracefully and informatively He develops two themes the description of religious events rituals and states of mind and the nature of anthropological aims views procedures and interpretations The interweaving of these two themes provides a view of religion as an anthropological subject and of religion as a process in human life that is unexpected in this short book Instructors of anthropology familiar with anthropological writing on religion will find that the author has not only touched upon many standard topics included in the study of religion but has also included treatments of material not ordinarily covered in standard anthropological works such as etiquette and religion religion and human play rites of reversal and certain aspects of religious transcendence

Religion H. Sidky, 2015 Religion An Anthropological Perspective provides a critical view of religion focusing upon important but overlooked topics such as religion cognition and prehistory science rationality and religion altered states of consciousness entheogens and religious experience religion and the paranormal magic and divination religion and ecology fundamentalism and religion and violence In addition this book offers a unique and concise coverage of traditional topics of the anthropology of religion such as

shamanism and witchcraft past and present ritual myth religious symbols and revitalization movements A vast range of findings from ethnography ethnology cultural anthropology archaeology prehistory history and cognitive science are brought to bear on the subject Written in clear jargon free prose this book provides an accessible and comprehensive yet critical view of the anthropology of religion both for graduate and undergraduate students and general audiences Its scope and critical scientific orientation sets Religion An Anthropological Perspective apart from all other treatments of the subject

Religion in Mind Jensine Andresen, 2001-06-28 Religion in Mind is a 2001 text which summarizes and extends the advances in the cognitive study of religion throughout the 1990s It uses empirical research from psychology and anthropology to illuminate various components of religious belief ritual and experience The book examines cognitive dimensions of religion within a naturalistic view of culture while respecting the phenomenology of religion and drawing together teachers of religion psychologists of religion and cognitive scientists Expert contributors focus on phenomena such as belief fixation and transmission attributions of agency anthropomorphizing counterintuitive religious representations the well formedness of religious rituals links between religious representations and emotions and the development of god concepts The work encourages greater interdisciplinary linkages between scholars from different fields and will be of interest to researchers in anthropology psychology sociology history philosophy and cognitive science It also will interest more general readers in religion and science

Theory and Method in the Study of Religion, 2013-09-26 Theory and Method are two words that cause considerable consternation in the academic study of religion Although everyone claims to be aware of and to engage them the fact of the matter is that they remain poorly understood Some see the terms as irritants that get in the way of data interpretation and translation Others may invoke them sporadically to appear in vogue but then return quickly and myopically to their material and with little concern for the larger issues that such terms raise To contribute to these debates the present volume reproduces select articles from Method and Theory in the Study of Religion MTSR from the first 25 volumes of the journal and allows a group of younger scholars to introduce and review them asking if the issues raised are still relevant to the field Contributors include Matt Sheedy Robert A Segal James B Apple Neil McMullin Rebekka King Russell McCutcheon Craig Martin Donal Wiebe Emma Cohen Robert N McCauley E Thomas Lawson Steven Engler Mark Q Gardiner Bruce Lincoln Sarah E Rollens Burton Mack Yasmin Merchant Herb Bergh Jennifer Hall Darlene Juschka Ella Paldam and Armin Geertz

The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a exceptional and gripping novel that will keep you guessing until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
