Religion And Security The New Nexus In International Relations

Thomas F. Farr

Religion And Security The New Nexus In International Relations:

Religion and Security Robert A. Seiple, Dennis R. Hoover, 2004-09-13 Religion and Security The New Nexus in International Relations focuses on a groundbreaking theme In global security today religion is not only part of the problem but also part of the solution This book explores positive nexus points between religion and security paying particular attention to the resources within the Abrahamic faith traditions of Judaism Christianity and Islam that foster sustainable peace Religion and Security is a lively and insightful collection of analyses by distinguished scholars and practitioners in security diplomacy conflict resolution human rights and theology As states and nongovernmental organizations alike reconsider their strategies for being relevant in the 21st century this book provides a practical framework through which both can work toward reducing violence and promoting human dignity Divided into four parts Religion and Security addresses themes of war and terrorism pluralism and stability military intervention and conflict resolution and religious freedom and civil society It underscores a crucial irony nations that violate religious human rights in the name of security will ultimately be vulnerable to a number of significant threats to stability This volume is a timely guide to the intersection of religion and security for human rights organizations security experts scholars of religion and politics government and non government staffers and decision makers and students in the disciplines of international affairs Religion and Security

Robert A. Seiple, Dennis R. Hoover, 2004-09-13 Religion and Security The New Nexus in International Relations focuses on a groundbreaking theme In global security today religion is not only part of the problem but also part of the solution This book explores positive nexus points between religion and security paying particular attention to the resources within the Abrahamic faith traditions of Judaism Christianity and Islam that foster sustainable peace Religion and Security is a lively and insightful collection of analyses by distinguished scholars and practitioners in security diplomacy conflict resolution human rights and theology As states and nongovernmental organizations alike reconsider their strategies for being relevant in the 21st century this book provides a practical framework through which both can work toward reducing violence and promoting human dignity Divided into four parts Religion and Security addresses themes of war and terrorism pluralism and stability military intervention and conflict resolution and religious freedom and civil society It underscores a crucial irony nations that violate religious human rights in the name of security will ultimately be vulnerable to a number of significant threats to stability This volume is a timely guide to the intersection of religion and security for human rights organizations security experts scholars of religion and politics government and non government staffers and decision makers and students in the disciplines of international affairs **The Routledge Handbook of Religion and Security** Chris Seiple, Dennis Hoover, Pauletta Otis, 2013 This Handbook offers analyses of how nine different world religions have related to issues of war and peace theologically and practically overviews of how scholars and practitioners in nine different topical areas of security studies have or have not dealt with the relationship between religion and security and five case studies of particular

countries in which the religion security nexus is vividly illustrated Nigeria India Israel the former Yugoslavia and Iraq **An Introduction to International Relations and Religion** Jeffrey Haynes, 2014-04-23 Not so very long ago it seemed reasonable to assert that the influence of religion on global politics was on the wane As the Western world became increasingly secular and the process of globalisation deepened it seemed inevitable on the surface at least that the voice of religion was to be heard softly if it was to be heard at all This has now changed and changed perhaps irrevocably As Jeff Haynes argues in this thought provoking and important new book various religious actors are now significantly involved in international relations and have become a crucial influence on policy in a post Westphalian world *International Relations and Religion* guides the reader through the complex issues at the heart of this topic with clarity and insight This updated second edition starts with a close reading of the many theoretical and analytical concepts notably Huntington and the clash of civilisations that have grown up around this area and then concludes with a summary of the issues under discussion and attempts to put into context what it means to live in a world that is increasingly shaped by a whole host of diverse religious groups Essential reading for students of International Relations and Politics **Handbook on Religion and International Relations** Haynes, Jeffrey, 2021-07-31 This comprehensive Handbook examines the relationship between religion and international relations mainly focusing on several world religions Christianity Islam Hinduism and Judaism Providing a timely update on this understudied topic it evaluates how this complex relationship has evolved over the last four decades looking at a variety of political contexts regions and countries *Religion and Public Diplomacy* P. Seib, 2013-07-03 Mixing religion and public diplomacy can produce volatile results but in a world in which the dissemination and influence of religious beliefs are enhanced by new communications technologies religion is a factor in many foreign policy issues and must be addressed Faith is such a powerful part of so many people's lives that it should be incorporated in public diplomacy efforts if they are to have meaningful resonance among the publics they are trying to reach This book addresses key issues of faith in an increasingly connected and religious world and provides a better understanding of the role religion plays in public diplomacy The Geopolitics of Religious Soft Power Peter Mandaville, 2023 The Geopolitics of Religious Soft Power represents the first globally comparative study of the varying ways in which states incorporate religion and religious outreach into their external relations Each chapter demonstrates how the history religious culture and geopolitical orientation of a particular country determines its capacity for using religion as part of a soft power strategy while simultaneously dictating the nature and shape of its religious outreach activities its intended audiences and likelihood of success or impact *Jean Bethke Elshtain* Debra Erickson, Michael Le Chevallier, 2018-04-30 Jean Bethke Elshtain 1941-2013 was a noted ethicist political philosopher and public intellectual Her four decades of scholarship defy easy categorization she wrote both seminal works of theory and occasional pieces for the popular press and she was variously viewed as radical and conservative feminist and traditionalist anti war and pro interventionist *Jean Bethke Elshtain Politics Ethics and Society* is the first attempt to evaluate Elshtain's

entire published body of work and to give shape to a wide ranging scholarly career with an eye to her work's ongoing relevance This collection of essays brings together scholars and public intellectuals from across the spectrum of disciplines in which Elshtain wrote The volume is organized around four themes which identify the central concerns that shaped Elshtain's thought 1 the nature of politics 2 politics and religion 3 international relations and just war and 4 the end's of political life The essays have been chosen not only for the expertise of each contributor as it bears on Elshtain's work but also for their interpretive and analytic scope This volume introduces readers to the work of a key contemporary thinker using Elshtain's writing as a lens through which to reflect on central political and scholarly debates of the last few decades Jean Bethke Elshtain will be of great interest to specialists researching Elshtain and to scholars of multiple disciplines particularly political theory international relations and religion Contributors Debra Erickson Sulai Michael Le Chevallier Robin W Lovin William A Galston Arlene W Saxonhouse Don Browning Peter Berkowitz Nancy J Hirschmann Michael Kessler Lisa Sowle Cahill Nigel Biggar Gilbert Meilaender Eric Gregory Daniel Philpott Marc LiVecche Nicholas Rengger John D Carlson Chris Brown Michael Walzer James Turner Johnson Erik Owens Francis Fukuyama Carl Gershman and Patrick J Deneen

Chaplains as Liaisons with Religious Leaders George Adams, 2006 **The Future of Religious Freedom** Allen D. Hertzke, 2013 Based on a symposium held in Istanbul Turkey **Religious Appeals in Power Politics** Peter S. Henne, 2023-10-15 Religious Appeals in Power Politics examines how states use or attempt to use confessional appeals to religious belief and conscience to advance political strategies and objectives Through case studies of the United States Saudi Arabia and Russia Peter S Henne demonstrates that religion although not as high profile or well funded a tool as economic sanctions or threats of military force remains a potent weapon in international relations Public policy analysis often minimizes the role of religion favoring military or economic matters as the important arenas of policy debate As Henne shows however at transformative moments in political history states turn to faith based appeals to integrate or fragment international coalitions Henne highlights Saudi Arabia's 1960s rivalry with Egypt the United States's post 9 11 leadership in the global war on terrorism and the Russian Federation's contemporary expansionism both to reveal the presence and power of calls for religious unity and to emphasize the uncertainty and anxiety such appeals can create Religious Appeals in Power Politics offers a bold corrective to those who consider religion as tangential to military or economic might **Religion and the Bush Presidency** M. Rozell, G. Whitney, 2007-08-20 George W Bush's religiosity has invited much analysis and controversy about the impact of religion on government This collection of leading scholars essays first examines the impact of various religions voting groups on the 2004 presidential campaign and then reviews and assesses the impact of religion on the policies of the Bush presidency **Religion and American Exceptionalism** Dennis Hoover, 2020-06-09 American exceptionalism was once a rather obscure and academic concept but in the 2012 presidential election campaign the phrase attained unprecedented significance in political rhetoric President Obama's conservative critics most notably Sarah Palin

Newt Gingrich and Mitt Romney accused the president of disbelieving in American exceptionalism and thereby offending the nation's civil religion. This creed traditionally has included the notion that America is a political new Israel called by God and guided by His Providence to be the exemplar vanguard and champion of liberal democracy and the free market for all humanity. The newly politicized narrative of exceptionalism portrayed Obama as a president embarrassed by his own country and intent on remaking the United States in the image of the secularist and socialist countries of Europe. This book takes a step back from the partisan rhetorical bluster and examines afresh the historical and analytical meanings of American exceptionalism and the extent to which religion both real religion and the more ambiguous civil religion has shaped these meanings and their uses/abuses. This book was published as a special issue of *The Review of Faith and International Affairs*.

Christian Approaches to International Affairs J. Troy, 2012-08-21 Troy analyses how the understanding of religion in Realism and the English School helps in working towards the greater good in international relations, studying religion within the overall framework of international affairs and the field of peace studies.

Finding Faith in Foreign Policy Gregorio Bettiza, 2019-06-04 Since the end of the Cold War, religion has become an ever more explicit and systematic focus of US foreign policy across multiple domains. US foreign policymakers, for instance, have been increasingly tasked with monitoring religious freedom and promoting it globally, delivering humanitarian and development aid abroad by drawing on faith-based organizations, fighting global terrorism by seeking to reform Muslim societies and Islamic theologies, and advancing American interests and values more broadly worldwide by engaging with religious actors and dynamics. Simply put, religion has become a major subject and object of American foreign policy in ways that were unimaginable just a few decades ago. In *Finding Faith in Foreign Policy*, Gregorio Bettiza explains the causes and consequences of this shift by developing an original theoretical framework and drawing upon extensive empirical research and interviews. He argues that American foreign policy and religious forces have become ever more inextricably entangled in an age witnessing a global resurgence of religion and the emergence of a postsecular world society. He further shows how the boundaries between faith and state have been redefined through processes of desecularization in the context of American foreign policy, leading the most powerful state in the international system to intervene and reshape in increasingly sustained ways sacred and secular landscapes around the globe. Drawing from a rich evidentiary base spanning twenty-five years, *Finding Faith in Foreign Policy* details how a wave of religious enthusiasm has transformed not just American foreign policy but the entire international system.

World of Faith and Freedom Thomas F. Farr, 2008-11-07 Virtually every trouble spot on the planet has some sort of religious component. One need only consider Iraq and Afghanistan, Iran, Israel and Palestine, Turkey, India, Pakistan, Russia, and China to name but a few. Looming behind national issues, of course, is the problem of regional Islamist extremism and transnational Islamist terrorism. In all of these sectors, religious tensions, ideas, and actors are of great geopolitical importance to the United States. Yet argues Thomas Farr, our foreign policy is gravely handicapped by an inability to understand the role of religion, either nationally or

globally There is a strong disinclination in American diplomacy to consider religious factors at all either as part of the problem or part of the solution In this engaging and well written insider account Farr offers a closely reasoned argument that religious freedom the freedom to practice one s own religion in private and in public is an essential prerequisite for a stable durable democratic society If the U S wants to foster democracy that lasts he says it must focus on fostering religious liberty especially in its public manifestations properly limited in a way that advances the common good Although we ourselves have developed a remarkably successful model of religious freedom our foreign policy favors an aggressive secularism that is at odds with the American model It is essential says Farr that we take an approach that recognizes the great importance of religion in people s lives

When Politics Meets Religion Marko Veković, Miroljub Jevtić, 2024-08-05 When Politics Meets Religion presents a fresh exploration of the relationship between religion and politics worldwide The volume includes topics covering Europe such as the European far right the contours of European identity and how religious cleavages affect value orientation of Europeans It also covers country focused issues and events such as the influence of Orthodox Christianity in Russia Christian nationalism in the United States the influence of religion on Turkish foreign policy the political role of the Catholic Church in the Philippines Chinese attitudes towards religious deprivatization and how liberation theology found its way from Latin America to the Holy Land The volume is supplemented with several analyses on the intersection between law society and religion It deals with religious mediation and political conflicts how the current religious governance in France affects the Orthodox Jewish community as well as how taxing the church s economic activities can be a contributor to the common good and why Muslims should treat Sharia law as only a moral code in the context of the Universal Declaration of Human Rights Through rigorous research case studies and critical analysis this volume explains how religion and politics mix in different settings and why it is important for us to study this complex relationship The volume will appeal to scholars and graduate students of political science and religious studies as well as interested professionals working for non governmental organizations NGOs or governments

Religion and Development in the Asia-Pacific Matthew Clarke, Anna Halafoff, 2016-08-25 Community development is most effective and efficient when it is situated and led at the local level and considers the social behaviours needs and worldviews of local communities With more than eight out of ten people globally self reporting religious belief Religion and Development in the Asia Pacific Sacred places as development spaces argues that the role and impact of religions on community development needs to be better understood It also calls for greater attention to be given to the role of sacred places as sites for development activities and for a deeper appreciation of the way in which sacred stories and teachings inspire people to work for the benefit of others in particular locations The book considers theories of place as a component of successful development interventions and expands this analysis to consider the specific role that sacred places buildings and social networks have in planning implementing and promoting sustainable development A series of case studies examine various sacred places as sites for development activities These case studies include

Christian churches and disaster relief in Vanuatu Muslim shrines and welfare provision in Pakistan a women s Buddhist monastery in Thailand advancing gender equity a Jewish aid organisation providing language training to Muslim Women in Australia and Hawaiian sacred sites located within a holistic retreat centre committed to ecological sustainability Religion and Development in the Asia Pacific demonstrates the important role that sacred spaces can play in development interventions covering diverse major world religions interfaith and spiritual contexts and as such will be of considerable interest for postgraduate students and researchers in development studies religious studies sociology of religion and geography

Cultural Law James A. R. Nafziger, Robert Kirkwood Paterson, Alison Dundes Renteln, 2010-11 A collection on cultural law that demonstrates efficacy of comparative international and indigenous law in the context of culture related issues

The Ashgate Research Companion to Religion and Conflict Resolution Lee Marsden, 2016-03-23 A comprehensive overview of the latest research in religion and conflict resolution this collection of twenty three essays brings together leading scholars in the field examining the contribution religious actors have made and are making towards peace and resolving The Ashgate Research Companion to Religion and Conflict Resolution is primarily aimed at readerships with special interest in conflict resolution international security and religion and international relations and will also serve as a valuable resource for policy makers and conflict resolution practitioners The collection comprises five thematic sections each with chapters on vital and mainly contemporary topics in the field of religion and conflict resolution The principal themes include
