## **Religion In Aging And Health Theoretical Foundations And Methodological Frontiers:**

*Religion in Aging and Health* Jeffrey S. Levin, 1994 This book brings together key scholars and practitioners from a range of fields in order to advance epidemiological and gerontological research into the role of religion in physical psychosocial and mental health Part One addresses such issues as hope forgiveness the psychodynamics of faith and belief and coping in a theoretical context Part Two seeks to advance the methodological sophistication of research in this area with an emphasis on measurement and design issues

**Methods in Religion, Spirituality & Aging** James W. Ellor, 2013-10-18 Since the 1971 White House Conference on Aging in the United States the need to move from religiosity into new areas such as Spiritual Assessment and Spirituality has emerged This movement has picked up momentum among scholars particularly in terms of research in the area of Spirituality While spirituality as a term is employed in many new studies this term continues to defy the quest for a single definition and method This book is divided into three sections In the first the authors reflect on the philosophical and theological issues presented by these terms from a variety of both cognate and practical methodological approaches The second section offers insights from the major professions of sociology psychology public health nursing and social work The final section offers insight and assistance to researchers and authors on specific religious traditions This book will be important for anyone working to develop such practical tools as spiritual assessment forms to those who engage in more formal scholarly investigation

Religion, Spirituality, and Aging Harry R Moody, 2012-12-06 Learn how to make a more positive impact with your social work with the aged Religion is an important coping mechanism for many aging adults Religion Spirituality and Aging A Social Work Perspective presents the latest research that shows how religion and spirituality can improve quality of life for elders Respected social work researchers and scholars provide insight and practical methods for fostering positive aging while also considering how spirituality and religion can affect practitioners themselves The full range of advantages and ethical implications are discussed in clear detail from a social work viewpoint Case studies plainly illustrate the positive impact that the inclusion of spirituality and religion in an aging person's life may have on their physical and mental welfare Organized social work in the early twentieth century actively tried to distance itself from its roots as a form of religious charity in favor of becoming a scientific and professional endeavor Religion Spirituality and Aging once again bridges the gap between social work and spiritual matters by presenting penetrating articles that discuss the issues of the aging soul while examining ways to improve care Creative strategies are offered to contribute to the spiritual side of aging while considering every implication and ethical question The compilation is extensively referenced and includes helpful figures and tables to clearly illustrate data and ideas Religion Spirituality and Aging discusses the latest social work trends and attitudes toward spirituality prayer meditation and acts of altruism as interventions an empirical study of how social workers use religion and spirituality as an intervention ethical considerations and best practices religion and spirituality during long term care the Postcards to God project dreams and their relationship to the search for meaning in

later life a spiritual approach to positive aging through autobiography dementia and spirituality creating new rituals for sacred aging spiritual master Henri Nouwen s principles of aging and his approaches to caring for older people an interview study on elders spirituality and the changes manifested in their views of religion Religion Spirituality and Aging is a remarkable reminder that elders are our future selves This erudite well reasoned examination of aging and spirituality from a social work perspective is crucial reading for social workers human service professionals who work with the aged and gerontology scholars

Larson's role in raising awareness of the health effects of religious faith and his vision and efforts in establishing coursework on religion and spirituality within undergraduate and graduate medical education programs. His body of theoretical and empirical writings serves as a permanent record of the powerful role played by religion and spirituality and his work stands as a lasting contribution to science, medicine, and society. These articles combine with the book's supplemental features to provide social and behavioral scientists, medical researchers, and clinicians with an essential resource for clinical research and education. Topics examined in *Faith, Medicine, and Science* include the religious life of alcoholics, religion, spirituality, and mortality; the impact of religion on men's blood pressure; the systematic analysis of research on religious variables; a systematic review of nursing home research; religious affiliations in mental health research samples as compared with national samples; the associations between dimensions of religious commitment and mental health; and much more. *Faith, Medicine, and Science: A Festschrift in Honor of Dr. David B. Larson* documents the work of one of the most important writers on the interface of the human spirit and the healing arts. His death in 2002 at the age of 54 remains a profound loss, but through this book, his pioneering research will continue to serve as a thorough and accessible introduction to the religion and health field.

**Handbook of Emotion, Adult Development, and Aging** Carol Magai, Susan H. McFadden, 1996-10-24. The field of emotions research has recently seen an unexpected period of growth and expansion both in traditional psychological literature and in gerontology. *The Handbook of Emotion, Adult Development, and Aging* provides a broad overview and summary of where this field stands today, specifically with reference to life course issues and aging. Written by a distinguished group of contributing authors, the text is grounded in a life span developmental framework while advancing a multidimensional view of emotion and its development and incorporating quantitative and qualitative research findings. The book is divided into five parts. Part One discusses five major theoretical perspectives including biological, discrete emotions, ethological, humanistic, and psychosocial. Part Two on affect and cognition discusses the role of emotion in memory, problem solving, and internal perceptions of self and gender. Part Three on emotion and relationships expands on the role of emotion in sibling and parent-child relationships as well as relationships between friends and romantic partners and the emotional reaction to interpersonal loss across the life span. Part Four on stress, health, and psychological well-being treats issues of stress and coping, religion, personality, and quality of life. The final part on continuity and change in emotion patterns and personality discusses emotion and emotionality throughout the life span. An ideal reference source for professionals across a wide range of disciplines, the text summarizes recent important developments in this fast-growing area of psychology and proposes many new directions for future research. Provides a biopsychological view on emotion in adulthood from a life span context. Presents the new perspective on emotion in older adults actively engaged in emotion self-regulation. Describes the intimate connection between emotion and the structure of personality. Demonstrates a new perspective on what emotion is, its importance across the life span, its connections with cognition, its role in interpersonal relation, and the way it influences both

stability and change in adulthood Illustrates the interpersonal nature of emotion Provides theoretically based leading edge research from international authors Five areas of coverage include Theoretical perspectives Affect and cognition Emotion and relationships Stress health and psychological well being Continuity and change in emotion patterns and personality Coverage includes Five major theoretical perspectives including biological discrete emotions ethological humanistic and psychosocial The role of emotion in memory problem solving and internal perceptions of self and gender The role of emotion in sibling and parent child relationships relationships between friends and romantic partners and the emotional reaction to interpersonal loss across the lifespan Issues of stress and coping religion personality and quality of life Emotion and emotionality throughout the lifespan Realized Religion Theodore J. Chamberlain, 2008-01-01 Realized Religion includes research that investigates the impact of spirituality in health and healing faith healing religion and mental health religion and life satisfaction religion and mental disorders religion and marital satisfaction the effect of religion on suicide and the effect of religion on alcohol use and abuse This book documents over 300 scientific studies published by reputable scientific journals demonstrating that religion has an ameliorating effect on the survival rate of surgical patients on depression and anxiety on suicide rates and on promotion of a healthy lifestyle Realized Religion presents useful and helpful information to researchers and scholars who seek to understand the subtle connection between healing and spirituality It will be an invaluable resource for libraries and others interested in the emerging field of spirituality and healing *Transforming Chaplaincy* Steve Nolan, Annelieke Damen, 2021-10-28 Evidence based medicine has transformed contemporary medical practice For over twenty five years George Fitchett has been a pioneering advocate of the view that evidence based spiritual care can and should equally transform chaplaincy This book collects a key selection from his ground breaking research As models of good research practice these papers demonstrate the real world value of research and introduce their readers to issues that have continuing importance to spiritual care and professional chaplaincy As such this collection offers an ideal introduction to spiritual care research The collection is complemented by three essays specially commissioned from observers well positioned to comment on future directions for both professional chaplaincy and spiritual care research

**Religious Influences on Health and Well-Being in the Elderly** K. Warner Schaie, PhD, Neal Krause, PhD, Alan Booth, PhD, 2004-06-15 What makes the book's approach so captivating is that each chapter is written by a different researcher in the study of religion and health These researchers are responsible for significant portions of the existing literature and methodologies found in this field today The versatility of the book warrants special mention It is effective as a survey of work that has already been done on this topic At the same time it serves as a wellspring of ideas for new research This work makes a valuable contribution to the present understanding of research on religion and health It also serves as a road map to help chart directions for future endeavors in the field Sociology of Religion This volume focuses on the ways in which religious institutions religious practices and religious organizations impact the health and well being of older persons Topics examined

include the conceptualization and measurement of religion in late life the relationship between religious coping and possible stress reduction the role of forgiveness as an alternate mediator how social class gender and race can influence the specific effect of religion and religious institutions in a diverse aging society Contributors include L Chatters K Ferraro L K George E Idler S McFadden and K Meador Homo Religiosus? Timothy Samuel Shah,Jack Friedman,2018-01-11 Examines whether religion is natural to human experience and whether this helps to ground a universal right to religious freedom Marx, Critical Theory, and Religion ,2006-08-01 The Sociology of Religion has had several frameworks guiding its analysis including functionalism interpretive sociology phenomenology symbolic interactionism and now rational choice theory Marxism has tended to ignore religion assuming it is something that would eventually disappear even though it retained theological elements This collection of essays brings together a group of scholars who use frameworks provided by Marx and Critical Theory in analyzing religion It s goal is to establish a critical theory of religion within the sociology of religion as an alternative to rational choice In doing so it engages in a critique of the positivism uncritical praise of the market neoconservatism and one dimensional conception of rationality of the rational choice theory of religion Faith and Money Lisa A. Keister,2011-09-05 For those who own it wealth can have extraordinary advantages High levels of wealth can enhance educational attainment create occupational opportunities generate social influence and provide a buffer against financial emergencies Even a small amount of savings can improve security mitigate the effects of job loss and other financial setbacks and improve well being dramatically Although the benefits of wealth are significant they are not enjoyed uniformly throughout the United States In the United States because religion is an important part of cultural orientation religious beliefs should affect material well being This book explores the way religious orientations and beliefs affect Americans incomes savings and net worth Patient Participation in Palliative Care Barbara Monroe,David Oliviere,2003 Patient participation and user involvement are central to current thinking about the effective delivery of desired healthcare outcomes Working with the person who lies behind every patient is core to palliative care A voice can only become significant when it is listened to and acted upon With palliative care increasingly addressing the needs of people with a variety of conditions in a range of settings as well as with advances in research technology and information the challenge to be a voice for the voiceless is greater than ever This book addresses key aspects in the provision of patient centred palliative care and tracks significant developments in user involvement It sets the philosophy within the cultural social and political context of modern healthcare particularly addressing issues of quality standards education and bereavement A key component in the delivery of high quality palliative care is the multi professional team Following a discussion of teamwork five core professions present a critical analysis of their working practices The book concludes with a commentary from a palliative care user and a bereaved carer It is often somewhat glibly asserted that the patient is or should be at the centre of care There have been few attempts to examine how to keep him or her there without professional needs and protocols crowding him or her out This

book asks how we listen and why we listen The book focuses on the challenges of how professionals can keep the needs of the patient central in clinical care and how the patient can influence the direction of that care      **Religion and Medicine**

Jeffrey S. Levin,2020 In Religion and Medicine Dr Jeff Levin distinguished Baylor University epidemiologist outlines the longstanding history of multifaceted interconnections between the institutions of religion and medicine He traces the history of the encounter between these two institutions from antiquity through to the present day highlighting a myriad of contemporary alliances between the faith based and medical sectors Religion and Medicine tells the story of religious healers and religiously branded hospitals and healthcare institutions pastoral professionals involved in medical missions healthcare chaplaincy and psychological counseling congregational health promotion and disease prevention programs and global health initiatives research studies on the impact of religious and spiritual beliefs and practices on physical and mental health well being and healing programs and centers for medical research and education within major universities and academic institutions religiously informed bioethics and clinical decision making and faith based health policy initiatives and advocacy for healthcare reform Religion and Medicine is the first book to cover the full breadth of this subject It documents religion medicine alliances across religious traditions throughout the world and over the course of history It summarizes a wide range of material of relevance to historians medical professionals pastors and theologians bioethicists scientists public health educators and policymakers The product of decades of rigorous and focused research Dr Levin has produced the most comprehensive history of these developments and the finest introduction to this emerging field of scholarship      *Living and Dying in the USA* Richard G. Rogers,Robert A. Hummer,Charles B. Nam,1999-10-06 The simplicity of using one data set in addressing the relationship of single variables to mortality distinguishes Living and Dying in the USA from other recent investigations of mortality The authors use the recently released National Health Interview Survey and the National Death Index to make a definitive statement about demographics and mortality By surveying demographic and sociocultural characteristics associated with mortality socioeconomic effects health related conditions and health status they reveal connections among several factors related to mortality chances Easily understood and cited their study emphasizes the statistical methods underlying their revelations and invites readers to duplicate their results Comprehensive coverage of US adult mortality differentials Based on a new and innovative data set Includes factors rarely examined in related mortality research Not only documents mortality differentials but explores explanations for them Extensive list of references associated with each chapter Consistent straightforward methodology used throughout aids readers in both understanding the content and in comparing results from chapter to chapter      Research in the Social Scientific Study of Religion Joanne Marie Greer,David O. Moberg,Monty L. Lynn,2001-04-01 Various articles are presented covering psychological sociological and cross cultural topics or relevance to religious spiritual researchers and academics      *Return of Compassion to Healthcare* & Mary Tellis-Nayak, RN, MSN, MPh,2016-12-13 While advances in medical science and disease treatments are

always welcome real transformation of healthcare requires us to focus on whole persons not just maladies Our responsibilities to ill people and frail elders including those with dementia are not merely obligations but also response abilities Beyond relieving suffering and meeting their basic biological needs we can nurture each individual as a whole person and promote his or her wellbeing The benefits are tangible and mutual Helping professionals are rewarded through the deep and meaningful connections they form with the remarkable people they serve In Return of Compassion to Healthcare the Tellis Nayaks offer blueprints for person centered care that can guide leaders of healthcare aging services government and business in building enlightened clinical programs and assisted living communities for medically ill and otherwise vulnerable people As Vivian and Mary Tellis Nayak so clearly show solutions are available Evidence based treatments are valuable however the best care is also tender and loving Ira Byock MD is founder and chief medical officer for the Institute for Human Caring Providence Health Service His books include Dying Well and The Best Care Possible

**Research in the Social Scientific Study of Religion, Volume 7**, 2021-11-22 The purpose of this book is to provide an outlet for original research articles examining the role and value of religious and spiritual constructs across the social sciences The aim of the series is to include an international and interfaith voice to this research dialogue An effort is made to be interdisciplinary and academically eclectic The articles in each volume represent a wide array of perspectives and research projects Most of the articles report the findings of quantitative or qualitative investigations but some deal with methodology theory or applications of social science studies in the field of religion and some are applied demonstrating the relevance of the social sciences to religious organizations and their clergy The value of the volume is that it gives to researchers in this area a broad perspective on the issues and methods of religious research across a spectrum of academic disciplines The aim of the book is to stimulate a creative integrative dialogue that will enhance interdisciplinary research

**Authoritative Communities** Kathleen Kovner Kline, 2007-11-25 Authoritative Communities The Scientific Case for Nurturing the Whole Child introduces innovative solutions based firmly in the children's mental health and resilience literature and in the hypothesis that humans are hardwired to connect These authoritative communities consist of such individuals and institutions as parents teachers coaches elders and a variety of organizations that are committed to each other's well being over the long term and who instill children with prosocial values such as empathy and compassion Living within these communities enables children and youth to develop a consistent sense of purpose and meaning so that they in turn are able to grow up to be responsible productive and nurturing adults The comprehensive coverage in this volume brings new insights and evidence to the nature nurture debate from developmental attachment neurobiological spiritual and community perspectives including Nurturing as a protective factor against genetic predispositions Counteracting the adverse influence of the media on children Promoting a sense of community in disadvantaged youth Spiritual approaches from the Buddhist minding children with mindfulness to traditional young men's rites of passage Adolescent development from

psychobiology to the formation of conscience Dispatches from the civil society movement the School Development Program and the motherhood movement This volume is essential reading for researchers and practitioners as well as graduate level students in developmental clinical and social psychology as well as related fields such as sociology social work education and religious studies
