Religious Texts and Material Contexts Jacob Neusner, James F. Strange, 2001-07-17 No problem so vexes learning as how to balance the claims of the written record of humanity against the actualities of man's material detritus *Religious Texts and Material Contexts* brings together scholars of the written record and those of the material realm beyond especially those working in the academic study of religion This book examines the relationship between archaeology and text scholarship through religion featuring cases of archaeology supported and not supported by written evidence **Text, Context and Performance** James A. Kapaló, 2011-09-23 This ethnographic study of Gagauz religion offers an original perspective on folk religion as discourse and object of study It is also the first monograph published in a Western language on this little known European people's history and culture *Reading Religion in Text and Context* Peter Collins, 2017-05-15 To what extent is religion inherently textual What might the term textual mean in relation to religious faith and practice These are the two key questions addressed by the eleven thought provoking essays collected in this volume Accounts of the content and structure of sacred texts are commonplace The rather more adventurous aim of this book is to disclose within the context of religion the various ways in which meaning can be read of more or less obviously sacred writing and from discourses such as the body the built and natural environment drama and ritual Persia and Rome in Classical Judaism Jacob Neusner, 2008 *Persia and Rome in Classical Judaism* examines the representation of Rome and Persia Iran in the successive groups of documents that comprise the Rabbinic canon of late antiquity Neusner considers how diverse documents of Rabbinic Judaism represent Rome and Iran and presents the way in which documentary differentiation affords perspective on the history of Judaism Axial events of the age the destruction of the second Temple in 70 and the defeat of the effort to restore it in 135 the transformation of the Roman Empire into a Christian state in the fourth century the failure to rebuild the Temple when the opportunity arose in the reign of Emperor Julian and the delegitimation of Israelite institutions in Byzantine Rome allow us to examine in historical and political context the evidence of the formation of normative Judaism BOOK JACKET Discourse Perspectives on English Risto Hiltunen, Janne Skaffari, 2003-12-19 Covering nearly one thousand years this volume explores medieval and modern English texts from fresh perspectives Within the relatively new field of historical discourse linguistics the synchronic analysis of large textual units and consideration of text external features in relation to discourse has so far received little attention To fill that gap this volume offers studies of medieval instructional and religious texts and correspondence from the early modern period The contributions highlight writer audience relationships the intended use of texts descriptions of text type and questions of orality and manuscript contextualization The topics ranging from the reception of Old English texts to the conventions of practical instruction in Middle English to the epistolary construction of science in early Modern English are directly relevant to historical linguists discourse and text linguists and students of the history of English **Theology in the Context of World Christianity** Timothy C. Tennent, 2009-05-26 Thinking more

globally about the formation of theology enriches our understanding of what it means to be a Christian It s no secret that the center of Christianity has shifted from the West to the global South and East While the truths of the Christian faith are universal different contexts and cultures illuminate new questions understandings and expressions What does this mean for theology as Western theologians understand it Timothy Tennent argues that the Christian faith is culturally and theologically translatable Theology in the Context of World Christianity is written to expand our ecclesiastical cartography by highlighting within each of the major themes of systematic theology studies that are engaging the global church such as Anthropology with studies drawn from the different views of human identity between Eastern and Western cultures Christology with a focus on the emphases that African Christians place on the characteristics of Christ Pneumatology by looking at the role of the Holy Spirit in Latin American Pentecostalism Eschatology by focusing on how this branch of theology shapes world missions and evangelism Each of the ten chapters examines traditional theological categories in conversation with theologians from across the globe making this volume valuable for students pastors missionaries and theologians alike Theological reflection is active and exciting in the majority world church and Tennent invites you to your own reflection and celebration of Christ s global church These are perspectives that should be heard considered and brought into conversation with Western theologians Global theology can make us aware of our own blind spots and biases and has much to offer toward the revitalization of Western Christianity

Exploring Context in Religious Education Research Geir Skeie, Judith Everington, Ina ter Avest, Siebren Miedema, 2013 The relevance of contextual perspectives in religious education has been growing for the last decade It has been central to the European Network for Religious Education through Contextual Approaches ENRECA the research network that has produced the present book Several members of the network have contributed to the theoretical and empirical development of contextual approaches in different publications but for the first time this has been the focus of an entire collectively produced volume The history of the book dates back to research seminars in 2009 and 2010 and is based on the discussions in the seminar The chapters have been developed through a process of critical examination Through this process we believe to have produced a coherent and also comprehensively rich book dealing with the issue of context as a challenge and also a stimulus to religious education research and practice The chapters are presenting both empirical

research and scholarly investigation into methodological and theoretical dimensions Taken together we hope that this book will contribute to the further development of contextual thinking in religious education research Or aim has not been to answer all questions but rather to pose questions and to complicate things in order to enrich the academic field of religion in education

From Scrolls to Scrolling Bradford A. Anderson, 2020-06-22 Throughout history the study of sacred texts has focused almost exclusively on the content and meaning of these writings Such a focus obscures the fact that sacred texts are always embodied in particular material forms from ancient scrolls to contemporary electronic devices Using the digital turn as a starting point this volume highlights material dimensions of the sacred texts of Judaism Christianity and Islam The essays in this collection investigate how material aspects have shaped the production and use of these texts within and between the traditions of Judaism Christianity and Islam from antiquity to the present day Contributors also reflect on the implications of transitions between varied material forms and media cultures Taken together the essays suggests that materiality is significant for the academic study of sacred texts as well as for reflection on developments within and between these religious traditions This volume offers insightful analysis on key issues related to the materiality of sacred texts in the traditions of Judaism Christianity and Islam while also highlighting the significance of transitions between various material forms including the current shift to digital culture

First Steps in the Talmud Jacob Neusner, 2012-07-10 The Talmud is a confusing piece of writing It begins no where and ends no where but it does not move in

a circle It is written in several languages and follows rules that in certain circumstances trigger the use of one language over others Its components are diverse To translating it requires elaborate complementary language It cannot be translated verbatim into any language So a translation is a commentary in the most decisive way The Talmud accordingly cannot be merely read but only studied It contains diverse programs of writing some descriptive and some analytical A large segment of the writing follows a clear pattern but the document encompasses vast components of miscellaneous collections of bits and pieces odds and ends It is a mishmash and a mess Yet it defines the program of study of the community of Judaism and governs the articulation of the norms and laws of Judaism its theology and its hermeneutics Above all else the Talmud of Babylonia is comprised of contention and produces conflict and disagreement with little effort at a resolution No wonder the Talmud confuses its audience But that does not explain the power of the Talmud to define Judaism and shape its intellect This book guides those puzzled by the Talmud and shows the system and order that animate the text *The Moral World of James* James Riley Strange, 2010 In *The Moral World of James* James Riley Strange compares the moral system in the Epistle of James with other Greco Roman and Judaic texts The author of the epistle prescribed moral practices in a world in which other people both pagan and Jewish had long been expressing similar concerns and more would continue to take up the task centuries after Christianity was well established in the Roman Empire In this fresh and thick analysis Strange s systemic comparison of texts among them works of Plato Plutarch Epictetus and Aelius Aristides as well as Greek Magical Papyri tractates of the Mishnah and the Community Rule of the Dead Sea Scrolls reveals how James s vision of a distinctive way of community life was both part of and distinct from the moral and religious systems among which it emerged **The Oxford Handbook of Early Christian Archaeology** David K. Pettegrew, William Rodney Caraher, Thomas W. Davis, 2019 This handbook brings together work by leading scholars of the archaeology of early Christianity in the Mediterranean and surrounding regions The 34 essays to this volume ground the history culture and society of the first seven centuries of Christianity in the latest currents of archaeological method theory and research **Texts in Context** Jeffrey R. Timm, 1992-01-01 The major religious traditions of South Asia are religions of the book All accept basic arrays of texts of scriptures often seen as sacred reservoirs of meaning and power The West has viewed these texts as bibles of their respective traditions projecting onto them Western values and concerns This book challenges such misconceptions by revealing the complex character of scripture and its interpretation in South Asian religions *Texts in Context* explores the hermeneutical traditions of Hinduism Buddhism Jainism Islam and Sikhism The question of how we should understand the diversity of text traditions is approached by asking How have traditional thinkers the exegetes within these traditions understood and utilized scripture The answers though remarkably diverse do reveal important similarities and take the discussion of scripture in India to a deeper level This book makes accessible to the non specialist sensibilities and approaches that have previously received little attention in the West but have formed the basis for traditional efforts to understand and

utilize scripture It is a collaboration between contemporary thinkers and their traditional counterparts whose voices emerge as they consider the sacred words of the religious traditions of South Asia
