**Transformative Religious Experience** Joshua Iyadurai, 2015-04-30 What makes a priest of one religion become a preacher of another religion How could a person embrace a religion suddenly that he or she had up to then opposed Why would young women risk their reputation and endanger their lives for the sake of newfound faith How could an alcoholic detest a sip of wine all of a sudden What drives an atheist to become an ardent worshiper of God How could an intelligent person relate to God as to an adult human being Transformative Religious Experience answers these questions with fascinating narratives of conversion These narratives together show how the transforming effects of conversion permeate the daily lives of converts in a multireligious context Joshua Iyadurai analyzes psychologically the mystical turning point in the conversion process and finds that the divine human encounter entails a cognitive restructuring a new set of beliefs values and desires replaces previously held religious beliefs values and desires By drawing insights from the fields of psychology sociology anthropology and theology Iyadurai develops an interdisciplinary step model from a phenomenological perspective to explain the conversion process that incorporates the religious practices and social psychological factors while giving a central place to religious experience

**On Sharing Religious Experience**, 2024-08-26 *The Routledge Handbook of Pentecostal Theology* Wolfgang Vondey, 2020-03-31 Research on Pentecostal and Charismatic Christianity has increased dramatically in recent decades and a diverse array of disciplines have begun to address a range of elements of these movements Yet there exists very little understanding of Pentecostal theology and it is not uncommon to encounter stereotypes and misperceptions Addressing this gap in current research The Routledge Handbook of Pentecostal Theology is an exceptional reference source to the key topics challenges and debates in this growing field of study and is the first collection of its kind to offer a comprehensive presentation and critical discussion of this subject Comprising over forty chapters written by a team of international contributors the Handbook is divided into five parts Contextualizing Pentecostal Theology Sources Theological Method Doctrines and Practices Conversations and Challenges These sections take the reader through a comprehensive introduction to what Pentecostals believe and how they practice their faith Looking at issues such

as the core teachings of Pentecostalism concerning Spirit baptism divine healing or eschatology unique practices such as spiritual warfare and worship and less discussed issues such as social justice and gender each chapter builds towards a nuanced and global picture of the theology of the Pentecostal movement The Routledge Handbook of Pentecostal Theology is essential reading for students and researchers in Pentecostal Studies World Christianity and Theology as well as scholars working in contemporary Religious Studies Pentecostal Experience Peter D. Neumann, 2012-08-22 Pentecostals are known for an experiential spirituality that emphasizes immediate encounters with God through the Holy Spirit But how should such experience be understood Is it in fact quite so immediate Neumann argues that Pentecostal experience of God is mediated by the Spirit's work through Scripture the Christian tradition and the broader cultural context Using the work of three contemporary Pentecostal theologians Frank D Macchia Simon K H Chan and Amos Yong the book demonstrates that a mediated view of experience of God is forging a more mature Pentecostal theology As further evidence of this maturation Neumann engages these Pentecostal theologians in ecumenical dialogue with leading representatives from Roman Catholic Eastern Orthodox and Protestant traditions **Psychosis or Mystical Religious Experience?** Susan L. DeHoff, 2018-02-13 This book presents a new paradigm for distinguishing psychotic and mystical religious experiences In order to explore how Presbyterian pastors differentiate such events Susan L DeHoff draws from Reformed theology psychological theory and robust qualitative research Following a conversation among multidisciplinary voices she presents a new paradigm considering the similarities differences and possible overlap of psychotic and mystical religious experiences **The Oxford Handbook of Mystical Theology** Edward Howells, Mark A. McIntosh, 2020-02-25 The Oxford Handbook of Mystical Theology provides a guide to the mystical element of Christianity as a theological phenomenon It differs not only from psychological and anthropological studies of mysticism but from other theological studies such as more practical or pastorally oriented works that examine the patterns of spiritual progress and offer counsel for deeper understanding and spiritual development It also differs from more explicitly historical studies tracing the theological and philosophical contexts and ideas of various key figures and schools as well as from literary studies of the linguistic tropes and expressive forms in mystical texts None of these perspectives is absent but the method here is more deliberately theological working from within the fundamental interests of Christian mystical writers to the articulation of those interests in distinctively theological forms in order finally to permit a critical theological engagement with them for today Divided into four parts the first section introduces the approach to mystical theology and offers a historical overview Part two attends to the concrete context of sources and practices of mystical theology Part three moves to the fundamental conceptualities of mystical thought The final section ends with the central contributions of mystical teaching to theology and metaphysics Students and scholars with a variety of interests will find different pathways through the Handbook **Religious Experience and Contemporary Theological Epistemology** Lieven Boeve, Yves De Maeseneer, Stijn Van den Bossche, 2005 In this volume we present the

*The Feeling of Transcendence, an Experience of God?* Louis Roy, 2021-04-15 In this book Louis Roy takes account of the fact that in the last fifty years numerous people in the secularized West have responded yes to surveys that asked Are you aware of having had an experience during which you felt in the presence of a dimension or a reality very different from ordinary human life Are such experiences mere illusions Some thinkers like Feuerbach and Freud believed so Are such experiences encounters with God Karl Barth a great Protestant theologian did not think much of their worth On this issue psychologists and theologians are divided Roy argues that those experiences are valid that they possess a real potential and that they can open their recipients to a genuine wisdom He reports on eight narratives spells out their constitutive elements classifies them into four categories aesthetic ontological ethical and interpersonal and suggests criteria to assess their concrete authenticity Thus this book will appeal to educated readers interested in spirituality philosophy of religion psychology literature theology and pastoral ministry

The Priority of the Other Mark Freeman, 2014 Contemporary psychology as well as our own self understanding remains largely ego centric in focus with the self being seen as the primary source of meaning and value According to Mark Freeman this perspective is belied by much of our experience Working from this basic premise he proposes that we adopt a more ex centric perspective one that affirms the priority of the Other in shaping human experience In doing so he offers nothing less than a radical reorientation of our most basic ways of making sense of the human condition In speaking of the Other Freeman refers not only to other people but also to those non human others for instance nature art God that take us beyond the ego and bring us closer to the world In speaking of the Other s priority he insists that there is much in life that comes before us By thinking and living the priority of the Other we can therefore become better attuned to both the world beyond us and the world within At the heart of Freeman s perspective are two fundamental ideas The first is that the Other is

the primary source of meaning inspiration and existential nourishment The second is that it is the primary source of our ethical energies and that being responsive and responsible to the world beyond us is a defining feature of our humanity There is a tragic side to Freeman s story however Enraptured though we may be by the Other we frequently encounter it in a state of distraction and fail to receive the nourishment and inspiration it can provide And responsive and responsible though we may be it is perilously easy to retreat inward to the needy ego The challenge therefore is to break the spell of the ordinary oblivion that characterizes much of everyday life The Priority of the Other can help us rise to the occasion Dimensions of Mystical Experiences Ralph W. **Transcendence and Liberation** H. Bruce May, 2016-08-30 Transcendent experience reveals the spiritual nature of consciousness and opens spiritual reality to those willing to embrace it with an open mind Liberation marks a turning point in your journey through life as a spiritual being and begins an even more powerful personal transformation whereby you can let the normal egoistic way of viewing the world fall away to be replaced with a clear view that can only be described as empty and marvelous an emptiness that reveals the spiritual nature of consciousness and your true nature as a spiritual being which is of course simply marvelous When you can look at the world without labeling or judging it you can see it in its original suchness unclothed in concepts and ideas that exist only in the human mind When you see the world with the eyes of a child all things are new again and you will find your own spiritual foundation is filled with comfort and joy
