New Wine, New Wineskins William C. Mattison III, 2005-06-03 The growing shift in Catholic moral theology from reflecting on rules alone to focusing on the identity and formation of persons as moral agents prompts a further question What impact do recent changes in the identity and formation of Catholic moral theologians themselves have on how that discipline is practiced Young Catholic moral theologians experience a sharply different professional formation and a changed location of ongoing professional life than prior generations of moral theologians How do these differences influence the field of moral theology as a whole *New Wine New Wineskins A Next Generation Reflects on Key Issues in Catholic Moral Theology* addresses these questions and more by offering a snapshot of how a new generation of Catholic moral theologians understands not only topics in the field but the effects of their own identity and formation on their treatment of those topics The distinctive contribution of this volume is the interweaving of three key concerns all of which arise out of a critical self reflection on the task of moral theology today the character and adequacy of training and ongoing formation in the field of Catholic moral theology the purpose and nature of teaching Catholic moral theology and the fittingness of methodological debates with regard to the needs of the Christian life Each essay makes a contribution to its specific area of interest ranging from economic ethics to Patristic rhetoric to the nature and development of practical reasoning while probing what exactly young Catholic moral theologians are doing and how they can do what they do better **The Ritschlian Theology,**

Rowlands, 2015-10-15 In this book Rowlands interrogates the theological and philosophical foundations of the Quest for the historical Jesus from Reimarus to the present day culminating in a call for greater metaphysical transparency and diversity in the discipline This multidisciplinary approach to historical Jesus research drawing on historiography sociology philosophy

and theology makes a significant and original contribution to the field Part I outlines the implicit role of metaphysical presuppositions in historical methodology by examining the concept of an historiographical worldview Part II provides an overview of the Quest for the historical Jesus demonstrating that the disparate historiographical worldviews operative in the Quest evidence a particular shared characteristic in that they might accurately be described as secular Rowlands study concludes with a call for a greater plurality and openness regarding the philosophical and theological presuppositions at work in historical Jesus research The Metaphysics of Historical Jesus Research is of interest to students and scholars working on New Testament studies and historical Jesus research *Report[s] of the Royal Commission Appointed to Inquire Into the Working of the Elementary Education Acts, England and Wales [with Evidence, Etc.] ...: 3rd report, 1887-1888* Great Britain. Interreligious Comparisons in Religious Studies and Theology Perry Schmidt-Leukel, Andreas Nehring, 2016-07-14 Can religions be compared For decades the discipline of religious studies was based on the assumption that they can Postmodern and postcolonial reflections however raised significant doubts In social and cultural studies the investigation of the particular often took precedence over a comparative perspective Interreligious Comparisons in Religious Studies and Theology questions whether religious studies can survive if it ceases to be comparative religion Can it do justice to a globalized world if it is limited on the specific and turns a blind eye on the general While comparative approaches have come under strong pressure in religious studies they have started flourishing in Theology Comparative theology practices interfaith dialogue by means of comparative research This volume asks whether theology and religious studies are able to mutually benefit from their critical and constructive reflections Can postcolonial criticism of neutrality and objectivity in religious studies create new links with the decidedly perspectival approach of comparative theology In this collection scholars from theology and religious studies discuss the methodology of interreligious comparison in the light of recent doubts and current objections Together with the contributors Perry Schmidt Leukel and Andreas Nehring argue that after decades of critique interreligious comparison deserves to be reconsidered reconstructed and reintroduced Primary Religious Education - A

Analytic Theology and the Academic Study of Religion William Wood, 2021-01-28 Analytic theology can flourish in the secular academy and flourish as authentically Christian theology Analytic Theology and the Academic Study of Religion explains analytic theology to other theologians and scholars of religion while simultaneously explaining those other fields to analytic theologians William Wood defends analytic theology from some common criticisms but also argues that analytic theologians have much to learn from other forms of inquiry Analytic theology is a legitimate form of theology and a legitimate form of academic inquiry and it can be a valuable conversation partner within the wider religious studies academy Analytic Theology and the Academic Study of Religion articulates an attractive vision of analytic theology fosters a more fruitful inter disciplinary conversation and enables scholars across the religious studies academy to understand one another better

Healing Fractures in Contemporary Theology Peter John McGregor, Tracey Rowland, 2022-01-20 Since Vatican II the key question that has developed in Catholic theology often unstated or unrecognized is what is theology The thesis presented here is that contemporary theologizing is fractured in many places and to varying degrees These fractures can vary in seriousness between theologians and a particular theologian may suffer from some fractures but not others The fractures addressed here are between theology and spirituality theology and philosophy theology and liturgy the literal and spiritual senses of sacred scripture theology preaching and apologetics theology and ethics theology and social theory dogmatic and pastoral theology theology and the koinonial Christian life theologians and non theologians the generation gap between Gen X and Millennial Post Millennial Catholics and theology and the Magisterium For each of these an attempt is made to examine the symptoms give a diagnosis and write a prescription

The Life of Jesus Ernest Renan, 2019-11-20 In The Life of Jesus renowned French philosopher and historian Ernest Renan presents a provocative and meticulously crafted narrative that examines the life and impact of Jesus of Nazareth Renan s literary style weaves historical analysis with theological reflection offering a harmonious blend of scholarly rigor and poetic prose Set against the backdrop of 19th century religious and philosophical discourse the book challenges traditional dogmas while engaging with contemporary views on morality spirituality and the nature of divinity Through critical examination of ancient texts and cultural contexts Renan illuminates the humanity of Jesus presenting him not merely as a divine figure but as a profound moral teacher whose legacy continues to shape human thought Ernest Renan born in 1823 in Brittany France was deeply influenced by his background in philosophy and theology His early aspirations within the Catholic Church were derailed by his growing skepticism regarding dogmatic belief systems This personal journey informs the critical lens through which he approaches the subject of Jesus Renan s audacity in questioning established religious narratives reflects the broader intellectual movements of his time including secularism and liberal theology For readers seeking a

nuanced exploration of faith and reason The Life of Jesus offers invaluable insights into both the historical figure and the myriad interpretations that surround him Renan s intricate narrative not only invites reflection on Jesus s teachings but also inspires a deeper understanding of the complexities of religion and belief in the modern era **The Historical Christ and the Jesus of Faith**

C. Stephen Evans,1996-04-18 The story of Jesus of Nazareth as recounted in the New Testament has always been understood by the church to be historically true It is an account of the life death and resurrection of a real person whose links with history are firmly signalled in the creeds of the early church which affirm that Jesus suffered under Pontius Pilate Contemporary historical scholarship has however called into question the reliability of the church s version of this story and thereby raised the question as to whether ordinary people can know its historical truth This book argues that the historicity of the story still matters and that its religious significance cannot be captured by the category of non historical myth The commonly drawn distinction between the Christ of faith and Jesus of history cannot be maintained The Christ who is the object of faith must be seen as historical the Jesus who is reconstructed by historical scholarship is always shaped by commitments of faith A reconsideration of the Enlightenment epistemologies that underlie much historical scholarship shows that historical knowledge of this story is still possible Such knowledge can be inferential based on historical evidence A careful look at contemporary New Testament studies and the philosophical and literary assumptions upon which it rests shows that this scholarship should not undermine the confidence of lay people who believe that they can know that the church s story about Jesus is true **Introduction to Religious Studies**

Harvey J. Sindima,2012-07-10 In Introduction to Religious Studies Harvey J Sindima provides an unconventional approach to the study of world religions Often books and courses on religious studies focus on the major world religions This approach however frequently ignores other religious experiences such as those of various African groups as well as the indigenous people of the Americas and Australia These less widespread religions are commonly described in pejorative terms such as primitive religions or non literate religions Focusing solely on well known religions is an approach that impoverishes religious studies and deprives students of the enormous wealth of religious knowledge of the world Introduction to Religious Studies pulls together the diverse religious experience of Africans Native Americans and the indigenous peoples of Australia in order to provide a comprehensive introduction to the study of religion and broaden the horizons of religious studies students Under each theme or topic examples are drawn from religions of salvation as well as African and Native American religious traditions This book provides students with a deep wide and very rich introduction to religious studies
