Religious Thought And The Modern Psychologies:

Religious Thought and the Modern Psychologies Don S. Browning, 1987 **Religious Thought and the Modern Psychologies** Don S. Browning, Terry D. Cooper, 2004 The first edition of this book pioneered a broader and deeper critique of psychological theories and practices Informed by hermeneutical theory Browning's widely acclaimed work drew attention to the ethical and even religious assumptions underlying psychology and has been deeply influential in psychology pastoral counseling and practical theology In this edition Browning and his new co author show how the field of social science has indeed grasped and appropriated the hermeneutical approach though with only slight appreciation of the religious dimensions of the social scientific endeavor The new first chapter situates the discussion and the core chapters of the book are updated Two other new chapters include dialogue with psychotherapeutic theorists and evangelical writers on the relation of theology and psychology This work will set the stage for the religion psychology conversation for years to come

Religious Thought and the Modern Psychologies Don S. Browning, Terry D. Cooper, 2004 **Religious Thought and the Modern Psychologies** Don S. Browning, 1988 *Religious Thought and the Modern Psychologies* Don S. Browning, Terry D. Cooper, *Religious Thought and the Modern Psychologies* has pioneered the broader and deeper critique of psychological theories and practice Informed by hermeneutical theory Browning's widely acclaimed work drew much needed attention to the ethical and metaphysical even religious assumptions that underlie present day psychology It has been deeply influential in many social sciences in addition to the fields of pastoral counseling and practical theology In this much needed second edition Browning and his new co author show how the field of social science has indeed grasped and appropriated the hermeneutical approach though with only slight appreciation of the religious dimensions of the social scientific endeavor Browning and Cooper provide a completely new first chapter newly situating the discussion and update the core chapters of the book They also add two new chapters carrying the dialogue on with three new psychotherapeutic theorists then with new evangelical writers on the relation of theology and psychology This new edition like its predecessor will set the stage for the religion psychology dialogue for years to come *A Journey to Freedom* Franco Imoda, 2000 Can psychology and religion engage in constructive dialogue Has psychology a contribution to make in Christian formation These are some of the issues addressed in this volume marking 25 years of the Institute of Psychology of the Gregorian University The twenty articles which make up the work offer essential insights into how psychology and religion can meet and interact constructively at the level of theory and of practice These insights are presented in the context of an overall Christian anthropology which continues to develop and to further refine its practical applications The contributions are divided into four sections theory and method dialogue between psychology and other disciplines applications in different cultures and concrete experiences of applying a psychologically informed Christian anthropology in the educational setting The balanced approach presented in this work makes it both a serious instrument of study and a valuable point of reference for the educator Its constant

reference to a Christian conception of the person will help avoid short sighted pragmatism **Augustine to Freud** Kenneth Boa,2004 Six theologians and eight psychologists from history square off finding both differences and common ground in their thinking on the most basic human needs **Don Browning and Psychology** Terry D. Cooper,2011 Psychologist of religion ethicist theological psychologist cultural critic philosophical anthropologist marriage and family expert practical theologian and religion and law scholar these are some of the many labels one could use to describe the history of Don Browning s work Yet in spite of the multi faceted nature of Browning s work abiding themes and central concerns consistently emerge Perhaps the title which best describes Browning s noteworthy contributions is that of horizon analyst Browning is always at his best when he is helping us see the world of implicit assumptions and normative images which govern various perspectives He has an eye for metaphors which as his mentor Ricoeur famously said give rise to thought Perhaps Browning s greatest academic asset has been his ability to explore the philosophical underpinnings of various psychological theories This book focuses on Browning s rich investigative journey into Freud s dual instinct model the relationship between human biology and culture evolutionary psychology William James instinctual pluralism Erik Erickson s notion of generativity the ethical implications of self actualization in the humanistic psychologies of Rogers and Maslow evil and self realization in Carl Jung the place of self injury in the thought of Heinz Kohut as well as other issues Beginning with a discussion of Browning s critical hermeneutical approach heavily influenced by Gadamer Ricoeur and David Tracy this book then systematically explores Browning s critical assessments of the most significant contemporary psychological movements

Paul Tillich and Psychology Terry D. Cooper,2006 Paul Tillich more than any other theologian of the twentieth century maintained an energetic dialogue with psychology and especially psychotherapy This book explores what Tillich s theology has to offer psychologists and others working in the field of mental health spiritual development and pastoral counseling Tillich s interaction with Carl Rogers Erich Fromm Rollo May and other famous psychologists became an important part of his thinking Tillich frequently pushed psychologists to see the underlying philosophical assumptions of their work This investigation of the underpinnings of psychotherapy then encouraged psychotherapists to become more aware of the ultimate questions about meaning purpose and ethics that informed their work Perhaps the greatest contribution this book offers is a careful narrative and analysis of the meetings of the New York Psychology Group which involved such figures as Tillich Fromm May Rogers Seward Hiltner Ruth Benedict and David Roberts to name just a few This important group which met from 1941 to 1945 dealt with issues that are very much with us today such as whether faith can be psychologically explained the meaning of transcendence the relationship between psychotherapy and ethics the appropriateness of self love and whether human love is parallel with Divine love **Religion and Psychology** Diane Jonte-Pace,William B.

Parsons,2002-09-26 This work is a survey of the current state of the relationship between religion and psychology from the leading scholars in the field Christian Ethics and the Moral Psychologies Don S. Browning,2006-05-17 Interest in

psychology permeates our culture with psychological solutions advanced for a host of moral dilemmas How should ethically minded Christians include insights from such disciplines as psychoanalysis cognitive moral development and neuroscience in their theological reflection Don Browning offers a serious proposal for combining these disciplines with the best in ethical reflection from a Christian standpoint Along the way he introduces readers to the moral psychology work of Sigmund Freud Carol Gilligan Antonio Damasio and others opening up a dialogue between their work and the hermeneutics of Hans Georg Gadamer and Paul Ricoeur Browning also recognizes the potential limits of the conversation between Christian ethics and the moral psychologies pointing out where they must diverge Principles of Psychology in Religious Context E. Rae Harcum,2012-12-07 This book asserts that the better one understands the causes of behavior the better one can apply that knowledge to produce a better world It describes the mechanisms that cause human behavior such as freedom of will in a manner consistent with religious beliefs It also asserts that all avenues for studying human behavior like intuition and prayer are acceptable and necessary Thus when studying the agent of human action we must rely on faith logic and intuition in addition to the full use of empirical science Principles of Psychology for People of God begins with a description of the nervous system and continues with chapters on development perception internal states learning memory and the ultimate selection of behaviors Nevertheless it steadfastly emphasizes that behavior is not produced by physical mechanisms alone but also by a non material spirit that can transcend some inheritances and environments *Psychology & Christianity* Gary R. Collins,Eric L. Johnson,Stanton L. Jones,2000-01-01 This collection of essays edited by Eric Johnson and Stanton Jones offers four different models for the relationship between Christianity and psychology Psychology & Christianity Integration Daryl H. Stevenson,Brian E. Eck,Peter C. Hill,2007 Integral Psychology Ken Wilber,2000-05-16 A leader in transpersonal psychology presents the first truly integrative model of spiritual consciousness and Western developmental psychology The goal of an integral psychology is to honor and embrace every legitimate aspect of human consciousness under one roof Drawing on hundreds of sources Eastern and Western ancient and modern Wilber creates a psychological model that includes waves of development streams of development states of consciousness and the self and follows the course of each from subconscious to self conscious to superconscious Included in the book are charts correlating over a hundred psychological and spiritual schools from around the world including Kabbalah Vedanta Plotinus Teresa of vila Aurobindo Theosophy and modern theorists such as Jean Piaget Erik Erikson Jane Loevinger Lawrence Kohlberg Carol Gilligan Erich Neumann and Jean Gebser Integral Psychology is Wilber s most ambitious psychological system to date and is already being called a landmark study in human development *Psychology as Religion* Paul C. Vitz,1994 This is a virtually rewritten second edition of New York University Professor Paul Vitz s profoundly important analysis of modern psychology Vitz maintains that psychology in our day has become a religion a secular cult of self and has become part of the problem of modern life rather than part of its resolution **Foundations for Soul Care** Eric L. Johnson,2009-08-20 Eric L Johnson

proceeds to offer a new framework for the care of souls that is comprehensive in scope yet flows from a Christian understanding of human beings what amounts to a distinctly Christian version of psychology This book is a must read for any serious Christian teacher student or practitioner in the fields of psychology or counseling **Modern Psychology and the Validity of Christian Experience** Cyril Henry Valentine, 1929 A Fundamental Practical Theology Don S. Browning, 1995-12-01 On congregational care religious education theological education clinical pastoral education and church consultation Positive Psychology in Christian Perspective Charles Hackney, 2021-03-16 Positive psychology is about fostering strength and living well about how to do a good job at being human Charles Hackney connects this still new movement to foundational concepts in philosophy and Christian theology He then explores topics such as subjective states cognitive processes and the roles of personality relationships and environment
