Relocating England:

Relocating England Peter Wallace Preston, 2004 Relocating England considers the implications of the rise of the European Union for the ways in which people in the UK think of themselves as political actors The book considers whether the elite ideas of Britain Britishness might be breaking down thereby opening up the possibility of a broadly based re animation of the ideas of England Englishness Such a political cultural project would imply great changes within the UK democratisation Europeanisation and modernisation It is a threat to the elite but it is an opportunity for the ordinary English The book follows in the footsteps of those scholars who have criticised the conservatism of the UK political establishment their obsession with the special relationship with the USA and their blithe disregard of the benefits of the mainland model of progressive social market democracy Local Government in England Colin Copus, Mark Roberts, Rachel Wall, 2017-03-15

The book explores the claim that English local government exists in one of the most centralised relationships with national government Such a position fundamentally undermines any notion of local self government and makes the term government in local government a misnomer The book will examine how the erosion of the autonomy powers roles functions and responsibilities of English local government came about the arguments of centralisers and localisers to support their view of the constitutional status of local government and its overall role in the government of England The book offers an antidote to the onward march of centralisation by offering a new vision of local government which emphasises both local and government

England after the Great Recession P. W. Preston, 2011-11-03 An exploration of the recent financial crisis which argues that the hitherto dominant intellectual and policy paradigm of neo liberalism has been fatally weakened and will in due course be replaced The implications of the crisis for politico cultural identities and our sense of ourselves as members of an ordered society are explored *Processes of Immigration in Rural Europe* Stefan Kordel Igor Jelen, Tobias Weidinger, 2019-01-18 Contemporary immigration processes such as forced migration and labour induced mobility as well as lifestyle and leisure oriented movements increasingly affect areas in Europe that are considered as peripheral or rural This edited collection sheds light on the diversity of in migration its specific implications for development and strategies for coping Contributions from various sub disciplines of the social sciences including human and cultural geography sociology and spatial planning with different regional foci encourage theoretical discussions enhancing empirical knowledge and providing stimuli for practitioners involved in migration and development issues The structure of the volume therefore follows four main themes 1 conceptual reflections on immigration to peripheral rural areas and development prospects 2 patterns and types of immigration processes drawing on various case studies from all over Europe 3 realms of integration namely housing economy and social life 4 immigration management with a special emphasis on regional and local strategies undertaken by policy makers the private sector and civil society **And So I Roar** Abi Daré, 2025-08-05 A stunning inspiring new novel from Abi Daré New York Times bestselling author of The Girl with the Louding Voice When Tia accidentally

overhears a whispered conversation between her mother terminally ill and lying in a hospital bed in Port Harcourt Nigeria and her aunt the repercussions will send her on a desperate quest to uncover a secret her mother has been hiding for nearly two decades Back home in Lagos a few days later Adunni a plucky fourteen year old runaway is lying awake in Tia's guest room Having escaped from her rural village in a desperate bid to seek a better future she's finally found refuge with Tia who has helped her enroll in school It's always been Adunni's dream to get an education and she's bursting with excitement Suddenly there's a horrible knocking at the front gate It's only the beginning of a harrowing ordeal that will see Tia forced to make a terrible choice between protecting Adunni or finally learning the truth behind the secret her mother has hidden from her And Adunni will learn that her louding voice as she calls it is more important than ever as she must advocate to save not only herself but all the young women of her home village Ikati If she succeeds she may transform Ikati into a place where girls are allowed to claim the bright futures they deserve and shout their stories to the world *Singapore in the Global System* Peter Preston, 2007-12-21 This book tracks the phases of Singapore's economic and political development arguing that its success was always dependent upon the territories links with the surrounding region and the wider global system and suggests that managing these links today will be the key to the country's future Singapore has followed a distinctive historical development trajectory It was one of a number of cities which provided bases for the expansion of the British empire in the East But the Pacific War provided local elites with their chance to secure independence In Singapore the elite disciplined and mobilized their population and built successfully on their colonial inheritance Today the city state prospers in the context of its regional and global networks and sustaining and nurturing these are the keys to its future But there are clouds on the elite's horizons domestically the population is restive with inequality migration and surplus repression causing concern and internationally the strategy of constructing a business hub economy is being widely copied and both Hong Kong and Shanghai are significant competitors This book discusses these issues and argues that although success is likely to characterize Singapore's future the elite will have to address these significant domestic and international problems

Britain After the Five Crises P. W. Preston, 2023-11-02 The period 2008-2022 has seen the British state government embroiled in a number of full blown crises each impacting the fundamental operations of the state and demanding therefore urgent responses from the government of the day In the first case the 2008 near collapse and partial nationalization of the banking system consequent upon decades of irresponsible credit creation coupled to permissive regulation in the second the migration crisis of 2015 which saw waves of refugees moving through Europe provoking anxious responses from European Union member states and opening up related political debates in Britain thus third the 2016 referendum in regard to membership of the European Union which the London based elite clearly thought they would navigate easily before to their evident shock losing an event itself precipitating further extraordinary Westminster manoeuvring and then fourth the 2020 Covid 19 pandemic met with an initial casual sangfroid before the government its actions informed by epidemiological

modelling made an abrupt shift to lockdown with dramatic social and economic consequences To these episodes whose impacts run down to the present could be added fifth the 2022 disaster in Ukraine where the British state government has chosen to involve itself by supporting one set of combatants in a conflict where presently after more than a year of fighting there is little sign of a means to the resolution of the violence This book examines the crises and tracks how each developed how state government failings in one case were rehearsed in the next and more generally how these crises have been amplified by the decades long celebration of globalization theory and finally at how following the most recent crisis the future might unfold hence the ideas of deglobalization resilience and more speculatively the possibilities of democratization

National Pasts in Europe and East Asia Peter W. Preston, 2012-07-26 With the rise of industrial capitalism in Europe and the related imposition of colonial rule in much of East Asia both Europe and East Asia have intertwined histories that continue to shape their political thinking and political decision making The contemporary interactions of the two regions now once again major trading partners will both depend upon and facilitate deeper understandings of their respective sets of national pasts This book compares national pasts as well as the current processes of change taking place in Europe and East Asia including the dynamics of the European Union in Europe and the re emergence of the historical centre of China in East Asia It argues that as the change unfolds in the economic social and political fields the various national pasts embedded with the polities of the two regions will also need to be revisited and reworked This book makes an invaluable contribution to research on comparative politics as well as studies on South East Asia and Europe

Arguments and Actions in Social Theory P. Preston, 2009-05-21 This book argues that theorists are located within the social world exercises in theorizing are both bounded and creative imagination and creativity build upon the resources of tradition and such awareness is the basis for dialogue with the denizens of other traditions cultures and ways of making sense of the world

These Englands Arthur Aughey, 2019-01-25 The term conversation is one of today's jargon terms This book explores in depth what conversation means in national terms Its premise is that to be English is to participate in a conversation about the country's history politics culture and society The conversation changes of course but there is also continuity which illustrates a distinct tradition It is a conversation the book argues which requires the plural notion of these Englands rather than the singularity of this England Englishness then is the tone register and idiom of its subject matters its anxieties and certainties differences and commonalities The book explores the English conversation through historical political literary and popular voices and tries to identify the character of contemporary Englishness

Culture and Imperialism Edward W. Said, 2012-10-24 A landmark work from the author of Orientalism that explores the long overlooked connections between the Western imperial endeavor and the culture that both reflected and reinforced it Grandly conceived urgently written and urgently needed No one studying the relations between the metropolitan West and the decolonizing world can ignore Mr Said's work The New York Times Book Review In the nineteenth and early twentieth centuries as the Western powers built empires that stretched from Australia to the West Indies Western artists created masterpieces ranging from Mansfield Park to Heart of Darkness and Aida Yet most cultural critics continue to see these phenomena as separate Edward Said looks at these works alongside those of such writers as W B Yeats Chinua Achebe and Salman Rushdie to show how subject peoples produced their own vigorous cultures of opposition and resistance Vast in scope and stunning in its erudition Culture and Imperialism reopens the dialogue between literature and the life of its time

The Politics of Pain: Postwar England and the Rise of Nationalism Fintan O'Toole,2019-11-05 I read The Politics of Pain Postwar England and the Rise of Nationalism by Fintan O Toole and wished I d written it Zadie Smith Wall Street Journal From one of the most perceptive observers of the English today comes a brilliantly insightful mordantly funny account of their seemingly irrational embrace of nationalism England s recent lurch to the right appears to be but one example of the nationalist wave sweeping across the world yet as acclaimed Irish critic Fintan O Toole suggests in The Politics of Pain it is in reality a phenomenon rooted in World War II We must look not to the vagaries of the European Union but instead far back to the end of the British empire if we hope to understand our most fraternal ally and the royal mess in which the British now find themselves O Toole depicts a roiling nation that almost ludicrously dreams of a German invasion if only to get the blood going and that erupts in faux outrage over regulations on prawn flavored crisps A sympathetic yet unsparing observer O Toole asks How did a great nation bring itself to the point of such willful self harm His answer represents one of the most profound portraits of the English since Sarah Lyall s New York Times bestseller The Anglo Files
