I have downsized the recipes for use by the home kitchen chef Each recipe also contains notes for each step These should be referred to before attempting the recipe These notes give some reason behind the directions or act as technical standpoints or safety warnings These notes can provide the reader with enlightenment about the recipe and the method I also want to avoid being strict in recipes The problem with most chefs cookbooks is that they are too technical too egocentric and too inflexible Most recipes are tested in large restaurant kitchens not in the home
