Lowe,2014-05-01 First published in 2001 This is part of the Foreign Policies of Great Power series this is Volume I of British Foreign Policy from 1878 to 1902 and focuses on the reluctant imperialists The work was published in two parts with the dividing line being 1902 *The Fear of Invasion* David G. Morgan-Owen,2017-07-07 The Fear of Invasion presents a new interpretation of British preparation for War before 1914 It argues that protecting the British Isles from invasion was the foundation upon which all other plans for the defence of the Empire were built up Home defence determined the amount of resources available for other tasks and the relative focus of the Army and Navy as both played an important role in preventing an invasion As politicians were reluctant to prepare for offensive British participation in a future war home defence became the means by which the government contributed to an ill defined British grand strategy The Royal Navy formed the backbone of British defensive preparations However after 1905 the Navy came to view the threat of a German invasion of the British Isles as a far more credible threat than is commonly realised As the Army became more closely associated with operations in France the Navy thus devoted an ever greater amount of time and effort to safeguarding the vulnerable east coast In this manner preventing an invasion came to exert a very insidious effect on the Navy by the outbreak of War in 1914 This book explains how and why this came to pass and what it can tell us about the role of government in forming strategy *Italian Foreign Policy 1870-1940* C.J. Selling the Congo Matthew G. Stanard,2012-01-01 Belgium was a small neutral country without a colonial tradition when King Leopold II ceded the Congo his personal property to the state in 1908 For the next half century Belgium not only ruled an African empire but also through widespread enduring and eagerly embraced propaganda produced an imperialist minded citizenry Selling the Congo is a study of European pro empire propaganda in Belgium with particular emphasis on the period 1908 60 Matthew G Stanard questions the nature of Belgian imperialism in the Congo and considers the Belgian case in light of literature on the French British and other European overseas empires Comparing Belgium to

other imperial powers the book finds that pro empire propaganda was a basic part of European overseas expansion and administration during the modern period Arguing against the long held belief that Belgians were merely reluctant imperialists Stanard demonstrates that in fact many Belgians readily embraced imperialistic propaganda Selling the Congo contributes to our understanding of the effectiveness of twentieth century propaganda by revealing its successes and failures in the Belgian case Many readers familiar with more popular histories of Belgian imperialism will find in this book a deeper examination of European involvement in central Africa during the colonial era *Cecil Rhodes and the Cape Afrikaners* M. Tamarkin,2020-04-03 This study of the relationship between Cecil Rhodes and the Cape Afrikaners fills many gaps in his political biography Previous biographers have rarely consulted the abundant Cape Afrikaner sources that this book refers to and which contribute to a better understanding of Rhodes political career Rhodes who appeared on the political scene of the Cape Colony in the 1880s played an important role in the shaping of the political outlook of the Cape Afrikaners during the last two decades of the century **Understanding the Victorians** Susie L. Steinbach,2016-08-05 Understanding the Victorians paints a vivid portrait of this era of dramatic change combining broad survey with close analysis and introducing students to the critical debates taking place among historians today Encompassing all of Great Britain and Ireland over the whole of the Victorian period it gives prominence to social and cultural topics alongside politics and economics and emphasises class gender and racial and imperial positioning as constitutive of human relations This second edition is fully updated throughout containing a new chapter on leisure in the Victorian period the most recent historiographical research in Victorian Studies and enhanced coverage of imperialism and working class life Starting with the Queen Caroline Affair in 1820 and coming up to the start of World War I in 1914 Susie L Steinbach uses thematic chapters to discuss and evaluate topics such as politics imperialism the economy class gender the monarchy arts and entertainment religion sexuality religion and science There are also three chapters on space consumption and the law topics rarely covered at this introductory level With a clear introduction outlining the key themes of the period a detailed timeline and suggestions for further reading and relevant internet resources this is the ideal companion for all students of the nineteenth century
