## **Remaking The Balkans:**

**Remaking the Balkans** Christopher Cviic, 1995 A comprehensive analysis of the political and security implications for southeastern Europe indeed for the whole of Europe resulting from the collapse of communism This second edition has been significantly revised to include an assessment of the consequences of the disintegration of Yugoslavia and the ensuing war in Bosnia

*Making and Remaking the Balkans* Robert Clegg Austin, 2019-04-08 With more than 25 years since the collapse of communism the end of the wars and billions of dollars in aid the Balkans are still characterized by corruption state capture and decidedly unmodern states that are often either weak or authoritarian Taking the contemporary Balkans as a starting point Making and Remaking the Balkans studies the region's history combined with observations based on more than twenty years of field experience Primarily concerned with current issues in the Balkans since 1989 this book explains why the region has endured such a prolonged and fraught transition to democracy and eventual membership in the European Union The young and educated have largely left Governmental crisis and economic stagnation is the norm and much needed regional cooperation has been suppressed by renewed nationalism Wars on corruption have proved to be largely rhetorical Making and Remaking the Balkans offers a systematic study of the issues the entire region faces as it struggles to complete the European integration process at a time when the European Union faces bigger problems elsewhere

Separatism Metta Spencer, 1998 As we approach the millennium the world is experiencing civil wars exclusively half of which are being waged over the issue of secession This book offers a comparative view of nine historic separatist movements some of which have achieved the break up of an empire or a state and others that to date have not Separatist struggles occur in waves that tend to coincide with upsurges of democratization Several chapters explore this connection making comparisons with economic and geopolitical causes The authors analyze the long term effects of secession after partition ethnic strife typically continues for generations minorities decline in status and democracy and human rights are derogated The break up of one state often leads to further fragmentation as in the disintegration of the Ottoman Austro Hungarian and Russian empires where years later separatism unfolded in the successor states of Yugoslavia Czechoslovakia Palestine Chechnya and Tatarstan The authors attribute much of today's separatism to the demagoguery of politicians losing legitimacy in post communist states for whom nationalism is a convenient populist ideology A broader explanation however points to the failure of modern democracies to develop constitutional mechanisms reconciling the expression of particularistic identities with the universalism of citizenship The book reviews proposals toward that end

**Integrating the Balkans** Máire Braniff, 2011-06-30 Emerging from a decade of violent ethnic and inter state conflict during the 1990s the countries of the Western Balkans entered a phase of rebuilding and reconciliation Due to the key role played by the EU in the region's rebuilding efforts Integrating the Balkans explores this institution's considerable efforts to influence and shape the nature of state society and foreign relations as it utilised the promise of membership as a vital tool to exert its influence The picture

that materialises is one of the EU's discernible but often contradictory impact as it offers the carrot of EU membership in the hope that the legacies of the past conflict can be re-evaluated, re-imagined and transformed. By also analysing the conditions that come with EU aid such as co-operation with the International Criminal Tribunal for the former Yugoslavia (ICTY), Maire Braniff offers an extremely important perspective for all those involved in the study and practice of the processes of European integration and post-conflict resolution.

Imagining the Balkans Maria Todorova, 2009-04-15 *Imagining the Balkans* examines how an innocent geographic appellation was transformed into a powerful and widespread pejorative designation. In a new afterword, Maria Todorova discusses the reaction to her dubbing of the term 'Balkanism' and recent events in the Balkans.

Britain and the Balkans Carole Hodge, 2006-04-18 This book traces the evolution of British policy in former Yugoslavia from the onset of war in Croatia and Bosnia to the NATO action in Kosovo and beyond, examining the underlying factors which have governed Britain's Balkans policy.

**The Balkans** Mark Biondich, 2011-02-17 Examines the origins of political violence in the Balkans since the 19th century while treating the region as an integral part of modern European history, reminding us that political violence and ethnic cleansing are hardly unique to this region.

**Reconstructing the Balkans** Derek R. Hall, Darrick Danta, 1996-10-21 The past few years have seen the re-emergence of the Balkans as the cockpit of Europe. The break-up of Yugoslavia, the regional conflict between ethnic groups, the creation of new states like Slovenia and the transformation of existing ones like Albania have made the area of prime importance in geopolitical terms once again. *Reconstructing the Balkans* looks at the complex and rapidly changing human geography of the Balkans and considers the cultural, social and political geographies of the region and its neighbours. It provides both an examination of the history of the Balkans, emphasising ethnicity and nationality issues, and an evaluation of the historical and geographical roots of contemporary Balkan disputes from a range of national viewpoints. Written by acknowledged experts in the field, the book assesses some of the geographical consequences of the region's conflicts and analyses the post-socialist restructuring, reconstruction and reconfiguration regionwide and country by country. It also gives projections of likely regional development trends. This is a unique book as it represents diverse viewpoints from a wide range of ethnic, national and disciplinary approaches. It draws upon expertise from the USA, the UK and everyone concerned with the Balkan regions, making it essential reading for analysts and consultants in banks, funding agencies and government departments. It will also be of interest to advanced students of European Studies, Geography, International Relations, Politics, Development and History.

**The Balkans Since the Second World War** R. J. Crampton, 2014-07-15 Since the collapse of Eastern European communism, the Balkans have been more prominent in world affairs than at any time since before the First World War. Crises in the area have led NATO to fire its first ever shots in anger whilst international forces have been deployed on a scale and in a manner unprecedented in Europe since World War Two. An understanding of why this happened is impossible without some knowledge of the history of the area before the fall of communism, of how the communists came to power and how they used

their authority thereafter Covering the communist states of Albania Bulgaria Romania and Yugoslavia and including Greece Richard Crampton provides a highly readable introduction to that history one that will be read by journalists diplomats and anyone interested in the region and its impact on world politics today *The Balkans* D. Hupchick,2002-01-11 The tragedies of Bosnia and Kosovo are often explained away as the unchangeable legacy of centuries old hatreds In this richly detailed expertly balanced chronicle of the Balkans across fifteen centuries Hupchick sets a complicated record straight Organized around the three great civilizations of the region Western European Orthodox Christian and Muslim this is a much needed guide to the political social cultural and religious threads of Balkan history with a clear convincing account of the reasons for nationalist violence and terror [Balkan Genocides](#) Paul Mojzes,2011-10-24 Details the history of the three major waves of genocide and ethnic cleansing in the Balkan peninsula and Yugoslavia during the twentieth century **Eastern Europe in the Twentieth Century - And After** R. Kappler,2014-01-30 Investigating local responses to EU peacebuilding this book develops a relational and spatial concept of agency helping to understand the processes in which peacebuilding actors engage and interact with one another The focus on cultural actors reveals the contested nature of local agency and its potential to challenge institutional policies *Nordic, Central and Southeastern Europe 2012* Wayne C.
