## **Rembrandt And 17th Century Holland:**

**Rembrandt, Vermeer, and the Gift in Seventeenth-Century Dutch Art** Michael Zell, 2021-06-29 This book offers a new perspective on the art of the Dutch Golden Age by exploring the interaction between the gift's symbolic economy of reciprocity and obligation and the artistic culture of early modern Holland. Gifts of art were pervasive in seventeenth-century Europe and many Dutch artists like their counterparts elsewhere embraced gift giving to cultivate relations with patrons, art lovers and other members of their social networks. Rembrandt also created distinctive works to function within a context of gift exchange and both Rembrandt and Vermeer engaged the ethics of the gift to identify their creative labor as motivated by what contemporaries called a love of art not materialistic gain. In the merchant republic's vibrant market for art, networks of gift relations and the anti-economic rhetoric of the gift mingled with the growing dimension of commerce revealing a unique chapter in the interconnected history of gift giving and art making.

**Rembrandt's Orient** Ortrud Westheider, Joseph Helfenstein, Bodo Brinkmann, Michael Philipp, 2021-01-26 This book sheds light on the fascinating ways Rembrandt and other Golden Age painters were influenced by Eastern culture. In the 17th century Amsterdam was a vibrant hub of the burgeoning European trade with Asia, Africa and the Levant, importing copious amounts of foreign items that powerfully stimulated the imagination of numerous Dutch artists. This was notably the case with Rembrandt whose curiosity and voraciousness as a collector were legendary in his time. Throughout his prolific career he drew on Eastern influences in genres as diverse as history painting and portraiture, including depictions in which he himself adopted Oriental styled attire. This lavishly illustrated book explores the inventive ways in which Rembrandt and his contemporaries accommodated Eastern imagery into their own repertoire, set within the wider context of Holland's rapidly expanding commercial and cultural exchange with its non-European trading partners. The problematic term Orient was widely used in Rembrandt's time and will be discussed at great length in this catalogue.

**Rembrandt's Money** Bob Wessels, 2021 Rembrandt's Money: The legal and financial life of an artist-entrepreneur in 17th-century Holland offers a comprehensive overview of the legal and financial aspects of the life and work of Rembrandt, 1606-1669. This topic has rarely been the subject of systematic legal-historical research. The author is the first to investigate the financial and legal aspects of Rembrandt's life, including the many legal disputes and conflicts which have occurred or have surrounded him during the larger part of over forty years of his private and professional life. These concern his private life as well as his work as an artist, from a young master in Leiden in the mid-1620s to a celebrated entrepreneur in the third and fourth decades of 17th-century Amsterdam, culminating in financial distress in the latter part of his life. Along the way, the book also sheds light on the socio-economic, cultural and historical context of the period covered and the environment, citizenry of Amsterdam, complex religious circles, business network. Rembrandt interacted with. The reader will reach a deeper understanding of the local and social Amsterdam history and a part of its local legal system.
