Smyth, 2025-07-21 Where should public history sit within the matrix of global international trans national and more local histories Since its emergence in the 1970s Public History has typically been read as community oriented and more local in its applications The academic field in particular has developed along national lines and indeed we see in the many monographs edited books and journals that have emerged a distinct tendency to consider public history as understandable mostly in its relation to the nation state and its attendant mythologies The meta narratives that public history pushes against are the building blocks of national histories political military and heroic histories Conceiving of a global public history seems to have more radical potential than an international public history which arguably simply collects these national histories What would a global public history look like and how can it disrupt the field if interpreted radically This book will centre the work of scholars and professionals in the field of Public History It will offer novel reflections on postgraduate Public History learning work experience and application from recent graduates and partnered institutions A mix of theory and practice traditional and creative methodologies it demonstrates the value of integrating work experience practitioner workshops and close collaboration in Public History training **Working the System** Jon Schubert, 2017-11-15 Working the System offers key insights into the politics of the everyday in twenty first century dominant party and neo authoritarian regimes in Africa and elsewhere Detailing the many ways ordinary Angolans fashion their relationships with the system an emic notion of their current political and socioeconomic environment Jon Schubert explores what it means and how it feels to be part of the

contemporary Angolan polity Schubert finds that for many ordinary Angolans the benefits of the post conflict New Angola flush with oil wealth and in the midst of a construction boom are few The majority of the inhabitants of the capital Luanda struggle to make ends meet and live on under 2 00 per day The New Angola as promoted by the ruling MPLA Schubert contends is an essentially urban upwardly mobile and aspirational project premised on the acceptance of the regime's political and economic dominance by its citizens In the first ethnography of Angola to be published since the end of that country's twenty seven years of intermittent violent internal conflict in 2002 Schubert traces how Angolans may question and resist the system within an atmosphere of apparent compliance Working the System will appeal to anthropologists and political scientists urban sociologists and scholars of African studies **Radical Justice** Luis Martín-Cabrera,2011-08-16

**Radical Justice** investigates the convoluted relationship between memory and justice as it is portrayed in political documentaries and detective fiction from Spain and the Southern Cone It argues that the possibility of achieving justice in these regions lies beyond market and state and is yet to come Rather than focusing on high literature Radical Justice uses popular culture as a site from which to question both the inability of the State and the transnational market to come to terms with the dictatorial past and to deliver justice This book will interest a wide range of scholars from national literature and film specialists of Argentina Chile and Spain to philosophers and students of ethics human rights and questions of justice

Assessing the Long-Term Impact of Truth Commissions Anita Ferrara,2014-09-19 In 1990 after the end of the Pinochet regime the newly elected democratic government of Chile established a Truth and Reconciliation Commission TRC to investigate and report on some of the worst human rights violations committed under the seventeen year military dictatorship The Chilean TRC was one of the first truth commissions established in the world This book examines whether and how the work of the Chilean TRC contributed to the transition to democracy in Chile and to subsequent developments in accountability and transformation in that country The book takes a long term view on the Chilean TRC asking to what extent and how the truth commission contributed to the development of the transitional justice measures that ensued and how the relationship with those subsequent developments was established over time It argues that contrary to the views and expectations of those who considered that the Chilean TRC was of limited success that the Chilean TRC has in fact over the longer term played a key role as an enabler of justice and a means by which ethical and institutional transformation has occurred within Chile With the benefit of this historical perspective the book concludes that the impact of truth commissions in general needs to be carefully reviewed in light of the Chilean experience This book will be of great interest and use to students and scholars of conflict resolution criminal international law and comparative legal systems in Latin America

Courage Tastes of Blood Florencia E. Mallon,2005-10-28 Until now very little about the recent history of the Mapuche Chile's largest indigenous group has been available to English language readers Courage Tastes of Blood helps to rectify this situation It tells the story of one Mapuche community Nicol's Ail'o located in the south of the country across the entire

twentieth century from its founding in the resettlement process that followed the military defeat of the Mapuche by the Chilean state at the end of the nineteenth century Florencia E Mallon places oral histories gathered from community members over an extended period of time in the 1990s in dialogue with one another and with her research in national and regional archives Taking seriously the often quite divergent subjectivities and political visions of the community's members Mallon presents an innovative historical narrative one that reflects a mutual collaboration between herself and the residents of Nicol's Ail o Mallon recounts the land usurpation Nicol's Ail o endured in the first decades of the twentieth century and the community's ongoing struggle for restitution Facing extreme poverty and inspired by the agrarian mobilizations of the 1960s some community members participated in the agrarian reform under the government of socialist president Salvador Allende With the military coup of 1973 they suffered repression and desperate impoverishment Out of this turbulent period the Mapuche revitalization movement was born What began as an effort to protest the privatization of community lands under the military dictatorship evolved into a broad movement for cultural and political recognition that continues to the present day By providing the historical and local context for the emergence of the Mapuche revitalization movement *Courage Tastes of Blood* offers a distinctive perspective on the evolution of Chilean democracy and its rupture with the military coup of 1973

*The Collective Memory Reader* Jeffrey K. Olick, Vered Vinitzky-Seroussi, Daniel Levy, 2011-01-21 In the last few decades there are few concepts that have rivaled collective memory for attention in the humanities and social sciences Indeed use of the term has extended far beyond scholarship to the realm of politics and journalism where it has appeared in speeches at the centers of power and on the front

pages of the world's leading newspapers. Seen by scholars in numerous fields as a hallmark characteristic of our age, an idea crucial for understanding our present social, political, and cultural conditions, collective memory now guides inquiries into diverse though connected phenomena. Nevertheless, there remains a great deal of confusion about the meaning, origin, and implication of the term and the field of inquiry it underwrites. The *Collective Memory Reader* presents, organizes, and evaluates past work and contemporary contributions on collective memory. Combining seminal texts, hard-to-find classics, previously untranslated references, and contemporary landmarks, it will serve as a key reference in the field. In addition to a thorough introduction which outlines a useful past for contemporary memory studies, the *Collective Memory Reader* includes five sections: Precursors and Classics; History, Memory, and Identity; Power, Politics, and Contestation; Media and Modes of Transmission; Memory, Justice, and the Contemporary Epoch, comprising ninety-one texts. A short editorial essay introduces each of the sections, while brief capsules frame each of the selected texts. An indispensable guide, the *Collective Memory Reader* is at once a definitive entry point into the field for students and an essential resource for scholars.

Conflicted Memory Cynthia E. Milton, 2018. Reveals and analyzes how Peru's military elite have engaged in a cultural campaign via memoirs, novels, films, museums to shift public memory and debate about the nation's recent violent conflict and their part in it.

Fighting for Political Freedom Terence C. Halliday, Lucien Karpik, Malcolm Feeley, 2007-12-20. Across the world, political liberalism is being fought for, consolidated, and defended. That is the case for nations that have never enjoyed a liberal political society; for nations that have advanced towards and then retreated from political liberalism; for nations that have recently shifted from authoritarian to liberal political systems; and for mature democracies facing terrorism and domestic conflict. This book tests for the contemporary world the proposition that lawyers are active agents in the construction of liberal political regimes. It examines the efficacy of a framework that postulates that legal professions not only orient themselves to a market for their services but can frequently be seen in the forefront of actors seeking to institutionalise political liberalism. On the basis of some 16 case studies from across the world, the authors present a theoretical link between lawyers and political liberalism, having wide-ranging application over radically diverse situations in Asia and the Middle East, North and South America, and Europe. They argue that it is not the politics of lawyers alone but the politics of a legal complex of legally trained occupations, centred on lawyers and judges, that drives advances or retreats from political liberalism. That political liberalism itself is everywhere in play in countries with established democracies and those without liberal politics, and that it is now clear that the legal arena is a central field of struggle over the shape of political power. The case studies presented here provide powerful evidence that the nexus of bar and bench in transitions towards or away from political liberalism is a force which has universal application.

*The Northern Ireland Conflict on the Margins of History* Kenneth Funston, Cillian McGrattan, 2025-05-01. Assessing the impact of paramilitary violence on border Protestants in Northern Ireland remains a critically overlooked part of the region's history. Remembered through a framework of memory that blurs

the boundary between victim and perpetrator existing scholarship often disempowers border Protestants by obscuring their experience under the Provisional IRA's campaign. This re-examination of the conflict illuminates how the Troubles impacted the Protestant community's physical, economic and cultural presence in the border counties. Combining oral history with a broader assessment of the Provisional campaign, this book presents a compelling case study for viewing this violence as a form of ethnic cleansing.
