**Remembering Her** Angela Offutt Damron, 2024-10-22 Remembering Her is an intimate look into the lives of families that have had to watch someone they love fade into someone they don't recognize Told from different perspectives it details how their relationships and lives changed because of the disease Family members were finally able to share their struggles without fear of judgment No one's point of view was the same This book is for those who feel like they have become isolated and for those who long for someone to walk alongside them during a time they never saw coming Remembering Her is not just about facing this disease but for anyone who has become responsible for taking care of someone who once took care of themselves As I Remember Gladys Mullet Kauffman, 2006 More stories of Montana's pioneers from the days of the first pioneers

*Critical Approaches to Genocide* Hülya Adak, Fatma Müge Göçek, Ronald Grigor Suny, 2023-09-28 The study of genocide has been appropriate in emphasizing the centrality of the Holocaust yet other preceding episodes of mass violence are of great significance Taking a transnational and transhistorical approach this volume redresses and replaces the silencing of the Armenian Genocide Scholarship relating to the history of denial comparative approaches in the deportations and killings of Greeks and Armenians during the First World War and women's histories during the genocide and post genocide proliferated during the centennial of the Armenian Genocide in 2015 Collectively however these studies have not been enough to offer a comprehensive account of the historical record documentation and interpretation of events during 1915-1916 This study seeks to bridge the gap by unsettling nationalist narratives and addressing areas such as aesthetics gender and sexuality By bringing forward various dimensions of the human experience including the political socioeconomic cultural social gendered and legal contexts within which such silencing occurred the essays address the methodological silences and processes of selectivity and exclusion in scholarship on the Armenian Genocide The interdisciplinary approach makes *Critical Approaches to Genocide* a useful resource for all students and scholars interested in the Armenian Genocide and memory studies *Remember the Past, Protect the Future*, 2000 **Remembering Jim Crow** William Henry Chafe, Raymond Gavins, Robert Korstad, 2011-07-26 Published in association with Lyndhurst Books of the Center for Documentary Studies at Duke University Remembering Jim Crow African Americans Tell About Life in the Segregated South is the viscerally powerful compilation of firsthand accounts of the Jim Crow era Publisher's Weekly Based on interviews collected by the Behind the Veil Project at Duke University's Center for Documentary Studies this remarkable book presents for the first time the most extensive oral history ever compiled of African American life under segregation Men and women from all walks of life tell how their most ordinary activities were subjected to profound and unrelenting racial oppression Yet Remembering Jim Crow is also a testament to how black southerners fought back against the system raising children building churches and schools running businesses and struggling for respect in a society that denied them the most basic rights The result is a powerful story of individual and community survival Praise for Remembering Jim Crow A landmark book

*The Missing Link in Cognition* Herbert S. Terrace, Janet Metcalfe, 2005-01-20 Are humans unique in having self reflective consciousness Or can precursors to this central form of human consciousness be found in non human species The Missing Link in Cognition brings together a diverse group of researchers who have been investigating this question from a variety of perspectives including the extent to which non human primates and indeed young children have consciousness a sense of self thought process metacognitions and representations Some of the participants Kitcher Higgins Nelson and Tulving argue that these types of cognitive abilities are uniquely human whereas others Call Hampton Kinsbourne Menzel Metcalfe Schwartz Smith and Terrace are convinced that at least the precursors to self reflective consciousness exist in non human primates Their debate focuses primarily on the underpinnings of consciousness Some of the participants believe that consciousness depends on representational thought and on the mental manipulation of such representations Is representational thought enough to ensure consciousness or does one need more If one needs more exactly what is needed Is reflection upon the representations that is metacognition the link Does a realization of the contingencies that is knowing that in Gilbert Ryle's terminology ensure that a person or an animal is conscious Is true episodic memory needed for consciousness and if so do any animals have it Is it possible to have episodic memory or indeed any self reflective processing without language Other participants believe that consciousness is inextricably intertwined with

a sense of self or self awareness From where does this sense of self or self awareness arise Some of the participants believe that it develops only through the use of language and the narrative form If it does develop in this way what about claims of a sense of self or self awareness in non human animals Others believe that the autobiographical record implied by episodic memory is fundamental To what extent must non human animals have the linguistic metacognitive and or representational abilities to develop a sense of self or self awareness These and other related concerns are crucial in this volume s lively debate over the nature of the missing cognitive link and whether gorillas chimps or other species might be more like humans than many have supposed

Opening Israel's Scriptures Ellen F. Davis, 2019-06-03 Opening Israel s Scriptures is a collection of thirty six essays on the Hebrew Bible from Genesis to Chronicles which gives powerful insight into the complexity and inexhaustibility of the Hebrew Scriptures as a theological resource Based on more than two decades of lectures on Old Testament interpretation Ellen F Davis offers a selective yet comprehensive guide to the core concepts literary patterns storylines and theological perspectives that are central to Israel s Scriptures Underlying the whole study is the primary assumption that each book of the canon has literary and theological coherence though not uniformity In both her close readings of individual texts and in her broad demonstrations of the coherence of whole books Davis models the best practices of contemporary exegesis integrating the insights of contemporary scholars with those of classical theological resources in Jewish and Christian traditions Throughout she keeps an eye to the experiences and concerns of contemporary readers showing through multiple examples that the critical interpretation of texts is provisional open ended work a collaboration across generations and cultures Ultimately what she offers is an invitation into the more spacious world that the Bible discloses which challenges ordinary conceptions of how things really are
