Remembering Water:

Water Inspectors Jill Shinkle, 2001 Nine activities designed to help children ages 10-15 become acquainted with the characteristics of water: taste, salinity, temperature, hardness, clarity, etc. Students construct scientific instruments such as a Meyer Water Sampler, hydrometer, and Secchi Disk; play water charades; and search for aquatic life. Gives suggestions on how activities might be used by the Webelos, Boy Scouts, Boys and Girls Clubs, Junior Girl Scouts, 4-H, and Campfire programs.

Media and Water Joanne Garde-Hansen, 2021-01-14 As flooding, drought, and water scarcity become more pronounced due to climate change, so the way in which these events are presented in the media assumes greater significance. In particular, the media plays an important role in shaping the public perception and understanding of water issues and debates around extreme weather events. More generally, Joanne Garde-Hansen's book offers a sustained and comprehensive exploration of media representations of water. Drawing on a wide range of media, including newspapers, digital photography, radio, television, and video, as well as empirical research on media and memory, she examines how drought, flooding, and water management have been portrayed in the media, both historically and in the contemporary world. The use of the media by water institutions to manage public perceptions and the use of digital media by the public to engage with water companies is also included. A particular feature of the book is an examination of water and gender in developed nations. One of the first books to look at media representations of water, this pioneering work provides valuable insights for both scholarly and professional water research.

Notes on Water David Appelbaum, 2017-09-26 This poetical study of water ranges from classical myth and literature to modern physics and microbiology. Because water exists in three forms or phases: liquid, solid, and gas, each needs its own constellation of ideas. Its subtle movement is the hidden source of question, questioner, and the phenomenon of life. Its power is transformation, the unspoken theme of the book.

Living with water Charlotte Bates, Kate Moles, 2023-02-07 Living with water brings together sociologists, geographers, artists, writers, and poets to explore the ways in which water binds, immerses, and supports us. Drawing from international research on river crossings, boat dwelling, wild swimming, sea fishing, and drought impacts, and navigating urban waters, glacial lagoons, barrier reefs, and disappearing tarns, the collection illuminates the ways that we live with and without water and explores how we can think and write with water on land. Water offers a way of attending to emerging and enduring social and ecological concerns and making sense of them in lively and creative ways. By approaching Living with water from different disciplinary and methodological perspectives and drawing on research from around the world, this collection opens up discussions that reinvigorate and renew previously landlocked debates. This book is relevant to United Nations Sustainable Development Goal 6: Clean water and sanitation.

New Literacies Debbita Tan Ai Lin, Christine Liew Ching Ling, Ambigapathy Pandian, 2014-10-16 The notion of change is central to this book. Across the globe, there exists a pressing need for transformation in the way teachers teach, in the manner by which learners learn, and in our approach towards defining literacy in the 21st century. Historically, the term literacy has been used

to primarily denote reading and writing abilities a designation which is today largely considered both quintessential and overly simplistic The field of literacy like many others within the realm of education has a tendency to evolve and shift from one paradigm to another vacillating between the demands of globalisation and the implications brought forth by the advent of new technologies Reading and writing communication in essence is happening in very different ways and via varied avenues blogs podcasts online news and tablets coupled with countless applications Such changes are increasingly borderless and rapidly accelerating and are bound to influence the nature of literacy itself as well as how it is perceived in diverse contexts in different parts of the world This calls for a reorientation with regard to how researchers educators and stakeholders view literacy in today's terms

The Correspondence of Jeremy Bentham, Volume 4 Jeremy Bentham,2017-06-07 The first five volumes of the Correspondence of Jeremy Bentham contain over 1 300 letters written both to and from Bentham over a 50 year period beginning in 1752 aged three with his earliest surviving letter to his grandmother and ending in 1797 with correspondence concerning his attempts to set up a national scheme for the provision of poor relief Against the background of the debates on the American Revolution of 1776 and the French Revolution of 1789 to which he made significant contributions Bentham worked first on producing a complete penal code which involved him in detailed explorations of fundamental legal ideas and then on his panopticon prison scheme Despite developing a host of original and ground breaking ideas contained in a mass of manuscripts he published little during these years and remained at the close of this period a relatively obscure individual Nevertheless these volumes reveal how the foundations were laid for the remarkable rise of Benthamite utilitarianism in the early nineteenth century In 1789 Bentham published An Introduction to the Principles of Morals and Legislation which remains his most famous work but which had little impact at the time followed in 1791 by The Panopticon or The Inspection House in which he proposed the building of a circular penitentiary house Bentham s correspondence unfolds against the backdrop of the increasingly violent French Revolution and shows his initial sympathy for France turning into hostility On a personal level in 1791 his brother Samuel returned from Russia and in 1792 he inherited his father s house in Queen s Square Place Westminster together with a significant property portfolio
