the path of intentional formation within contemporary institutions of theological education whose riches may be mined in a disciplined spiritual stewardship and grounded in radically covenantal companionship Just like artisanal bread blends the classical methods of bread baking with modern conveniences so an artisanal theology relies upon the personal and communal touch of human relationship amidst the contemporary forms of programmatic theological education An artisanal theology offers an articulate and traditionally rooted faith perspective grounded in covenantal companionships sustained in contexts of church tradition and most importantly practice Ultimately an artisanal theology witnesses beyond the anticipated political divides to the Triune God among us known in a theologically expressive delight able to companion the suffering of self and others
