Reminiscence, Motivation, and Personality Hans Eysenck,2012-12-06 This is a book on reminiscence or more modestly a book on reminiscence in motor tasks or more modestly still on reminiscence in pursuit rotor learning with occasional references to other types of reminiscence The vast majority of experiments investigating reminiscence with the pursuit rotor have been carried out within the framework of Hullian learning theory Thus of necessity this book also will be much concerned with that theory Some readers may feel that so much detailed attention paid to one piece of apparatus and one now rather discredited theory is overdone we could not agree with such an evaluation There are several features of pursuit rotor performance which make it particularly worthy of attention One of the more important of these features is the easy replicability of many of the phenomena found in performance of this task this is our first point Replicability is the life blood of science what cannot be replicated by any well trained observer is of doubtful status in science and on this score pursuit rotor work certainly emerges as perhaps the most reliable set of observations in experimental psychology The effects of massing and spacing of rest pauses of different length of switching from massed to spaced learning or vice versa of interpolating different activities of introducing distracting stimuli of switching from right to left hand or vice versa of changing the speed of rotation or the diameter of the target disk these are clear cut and replicable as few phenomena in psychology are The United States and China Dong Wang,2021-07-28 Now fully revised and updated The United States and China offers a comprehensive synthesis of US Chinese relations from initial contact to the present Balancing the modern 1784 1949 and contemporary 1949 present periods Dong Wang retraces centuries of interaction between two of the world's great powers from the perspective of both sides She examines state to state diplomacy as well as economic social military religious and cultural interplay within varying national and international contexts As China itself continues to grow in global importance so too does the US Chinese relationship and this book provides an essential grounding for understanding its past present and possible futures **British Books** ,1900 **American Book Prices Current** ,1923 A record of literary properties sold at auction in the United States **New Books** National Defense University. Library, The Conquering Tide Ian W. Toll,2015-09-21 A New York Times Bestseller A beautiful blend of history and prose and proves again Mr Toll's mastery of the naval war narrative Wall Street Journal This masterful history encompasses the heart of the Pacific War the period between mid 1942 and mid 1944 when parallel Allied counteroffensives north and south of the equator washed over Japan's far flung island empire like a conquering tide concluding with Japan's irreversible strategic defeat in the Marianas It was the largest

bloodiest most costly most technically innovative and logistically complicated amphibious war in history and it fostered bitter interservice rivalries leaving wounds that even victory could not heal Often overlooked these are the years and fights that decided the Pacific War Ian W Toll s battle scenes in the air at sea and in the jungles are simply riveting He also takes the reader into the wartime councils in Washington and Tokyo where politics and strategy often collided and into the struggle to mobilize wartime production which was the secret of Allied victory Brilliantly researched the narrative is propelled and colored by firsthand accounts letters diaries debriefings and memoirs that are the raw material of the telling details shrewd judgment and penetrating insight of this magisterial history This volume continuing the marvelously readable dramatic narrative San Francisco Chronicle of Pacific Crucible marks the second installment of the Pacific War Trilogy which will stand as the first history of the entire Pacific War to be published in at least twenty five years **Antiquarian Bookman**
