Leonard Bloom, Ruth Riemer, **Removal and Return** Leonard Bloom, 1949 Japanese-American Civilian Prisoner Exchanges and Detention Camps, 1941-45 Bruce Elleman, 2006-04-18 The important and previously undocumented event in the history of the Second World War the negotiation of prisoner exchanges between the United States and Japan during 1941 to 1943 is examined here by Bruce Elleman Approximately 7000 American citizens had been arrested by the Japanese authorities while visiting Japan as tourists conducting business teaching English or carrying out missionary work The same amount of Japanese citizens living illegally in the United States had to be repatriated to secure the Americans release Challenging the conventional perceptions regarding the role and justification of the detention camp this insightful book addresses questions regarding the diplomatic agreement between Japan and the United States the Japanese American detention camps and the role of one of the most successful minority groups in the United States today the Japanese Americans **Recommendations of the Commission on Wartime Internment and Relocation of Citizens** United States. Congress. Senate. Committee on Governmental Affairs. Subcommittee on Civil Service, Post Office, and General Services, 1986 A Tragedy of Democracy Greg Robinson, 2009-06-30 The confinement of some 120 000 Japanese Americans during World War II often called the Japanese American internment has been described as the worst official civil rights violation of modern U S history Greg Robinson not only offers a bold new understanding of these events but also studies them within a larger time frame and from a transnational perspective Drawing on newly discovered material Robinson provides a backstory of confinement that reveals for the first time the extent of the American government s surveillance of Japanese communities in the years leading up to war and the construction of what officials termed concentration camps for enemy aliens He also considers the aftermath of confinement including the place of Japanese Americans in postwar civil rights struggles the long movement by former camp inmates for redress and the continuing role of the camps as touchstones for nationwide commemoration and debate Most remarkably A Tragedy of Democracy is the first book to analyze official policy toward West Coast Japanese Americans within a North American context Robinson studies confinement on the mainland alongside events in wartime Hawaii where fears of Japanese Americans justified Army dictatorship suspension of the Constitution and the imposition of military tribunals He similarly reads the treatment of Japanese Americans against Canada s confinement of 22 000 citizens and residents of Japanese ancestry from British Columbia A Tragedy of Democracy recounts the expulsion of almost 5 000 Japanese from Mexico s Pacific Coast and the poignant story of the Japanese Latin Americans who were kidnapped from their homes and interned in the United States Approaching Japanese confinement as a continental

Race Struggles Theodore Koditschek, Sundiata Keita Cha-Jua, Helen A. Neville, 2009 The essays in this collection start with the premise that although race like class and gender is socially constructed all three categories have been shaped profoundly by their context in a capitalist society Race in other words is a historical category that develops not only in dialectical relation to class and gender but also in relation to the material conditions in which all three are forged In addition to discussing and analyzing various dimensions of the African American experience contributors also consider the ways in which race plays itself out in the experience of Asian Americans and in the very different geopolitical environments of the British Empire and postcolonial Africa Contributors are Pedro Caban Sundiata Keita Cha Jua David Crockett Theodore Koditschek Scott Kurashige Clarence Lang Minkah Makalani Helen A Neville Ibitola O Pearce David Roediger Monica M White and Jeffrey Williams

Gold,2010-10-16 The Store in the Hood is a comprehensive study of conflicts between immigrant merchants and customers throughout the U S during the 20th century From the lynchings of Sicilian immigrant merchants in the late 1800s to the riots in L A following the acquittal of the police officers who beat Rodney King to present day Detroit recurrent conflicts between immigrant business owners and their customers have disrupted the stability of American life Devastating human lives property and public order these conflicts have been the subject of periodic investigations that are generally limited in scope and emphasize the outlooks and cultural practices of the involved groups as the root of most disputes This book develops a more nuanced understanding by exploring merchant customer conflicts over the past hundred years across a wide range of ethnic groups and settings Utilizing published research official statistics interviews and ethnographic data collected from diverse locations the book reveals how powerful groups and institutions have shaped the environments in which merchant customer conflicts occur These conflicts must be seen as products of the larger society s values policies and structures not solely as a consequence of actions by immigrants the urban poor and other marginal groups L.A. City Limits Josh Sides,2004-01-27 In 1964 an Urban League survey ranked Los Angeles as the most desirable city for African Americans to live in In 1965 the city burst into flames during one of the worst race riots in the nation s history How the city came to such a pass embodying both the best and worst of what urban America offered black migrants from the South is the story told for the first time in this history of modern black Los Angeles A clear eyed and compelling look at black struggles for equality in L A s neighborhoods schools and workplaces from the Great Depression to our day L A City Limits critically refocuses the ongoing debate about the origins of America s racial and urban crisis Challenging previous analysts near exclusive focus on northern rust belt cities devastated by de industrialization Josh Sides asserts that the cities to which black southerners migrated profoundly affected how they fared He shows how L A s diverse racial composition dispersive geography and dynamic postwar economy often created opportunities and limits quite different from those encountered by blacks in the urban North **Civil Liberties Act of 1985 and the Aleutian and Pribilof Islands Restitution Act** United States.
