The Vespasiano Memoirs ... Introduction ... by Myron P. Gilmore* Vespasiano da BISTICCI,Myron Piper GILMORE,1963 *The Almighty* Paul Vigna,2025-07-22 The complete story of how we came to worship money and how we can stop greed from destroying everything The pursuit of wealth is considered an essential function of human nature and greed is an unspoken civic virtue Many of us revere billionaires and Wall Street rain makers then complain about the system being rigged and wonder why the country doesn t seem to work for the little guy anymore Some blame the Deep State for income inequality and corruption and others blame capitalism but the truth is that these issues have much deeper roots our devotion to money is a manmade invention that has transformed over thousands of years to replace religion as the foundation of our society and it is tearing civilization apart In *The Almighty* journalist Paul Vigna uncovers the forgotten history of money tracing the uneasy and often accidental alliance between wealth and religion as it developed from ancient city states to today s secular world where religious devotion has receded and greed has stepped in to fill the void Through engaging anecdotes original research and fresh perspectives on the causes of the many challenges we face today Vigna makes a compelling argument that money has no power apart from the power we give it We can build a better future where we don t need to choose between helping others and getting ahead But we can t repair the damage that greed has done until we understand how it took over our world in the first place **My Life** Benvenuto Cellini,2002 Thus spoke Pope Paul III on learning that Cellini had murdered a fellow artist so great was Cellini s

reputation in Renaissance Italy A renowned sculptor and goldsmith whose works include the famous salt cellar made for the King of France and the statue of Perseus with the head of the Medusa Cellini's life was as vivid and enthralling as his creations

Magnifico Miles J. Unger, 2008-05-06 A vividly colorful portrait of one of the greatest and most fascinating figures of the Renaissance Lorenzo de Medici focusing on his role as a brilliant sometimes ruthless statesman who was responsible for the artistic flowering of Florence the city where the Renaissance first blossomed Lorenzo de Medici a leading statesman the uncrowned ruler of Florence during its golden age a true Renaissance man known to history as Il Magnifico the Magnificent Lorenzo was not only the foremost patron of his day but also a renowned poet equally adept at composing philosophical verses and obscene rhymes to be sung at Carnival He befriended the greatest artists and writers of the time Leonardo Botticelli Poliziano and especially Michelangelo whom he discovered as a young boy and invited to live at his palace and in the process turned Florence into the cultural capital of Europe Though Lorenzo's grandfather Cosimo had converted the vast wealth of the family bank into political power Lorenzo's position was precarious Bitter rivalries among the leading Florentine families and competition among the squabbling Italian states meant that Lorenzo's life was under constant threat Those who plotted his death included a pope a king and a duke but Lorenzo used his legendary charm and diplomatic skill as well as occasional acts of violence to navigate the murderous labyrinth of Italian politics Florence in the age of Lorenzo was a city of contrasts of unparalleled artistic brilliance and unimaginable squalor in the city's crowded tenements of both pagan excess and the fire and brimstone sermons of the Dominican preacher Savonarola Florence gave birth to both the otherworldly perfection of Botticelli's Primavera and the gritty realism of Machiavelli's The Prince Nowhere was this world of contrasts more perfectly embodied than in the life and character of the man who ruled this most fascinating city

Michelangelo Miles J. Unger,2015-07-21 Among the immortals Leonardo Rembrandt Picasso Michelangelo stands alone as a master of painting sculpture and architecture He was not only the greatest artist in an age of giants but a man who reinvented the practice of art itself Throughout his long career he clashed with patrons by insisting that he had no master but his own demanding muse and promoting the novel idea that it was the artist rather than the lord who paid for it who was creative force behind the work This is the life of perhaps the most famous most revolutionary artist in history told through the stories of six of his magnificent masterpieces

The Library Andrew Pettegree,Arthur der Weduwen,2021-11-09 Perfect for book lovers this is a fascinating exploration of the history of libraries and the people who built them from the ancient world to the digital age Famed across the known world jealously guarded by private collectors built up over centuries destroyed in a single day ornamented with gold leaf and frescoes or

filled with bean bags and children's drawings the history of the library is rich varied and stuffed full of incident In *The Library* historians Andrew Pettegree and Arthur der Weduwen introduce us to the antiquarians and philanthropists who shaped the world's great collections trace the rise and fall of literary tastes and reveal the high crimes and misdemeanors committed in pursuit of rare manuscripts In doing so they reveal that while collections themselves are fragile often falling into ruin within a few decades the idea of the library has been remarkably resilient as each generation makes and remakes the institution anew Beautifully written and deeply researched *The Library* is essential reading for booklovers collectors and anyone who has ever gotten blissfully lost in the stacks

The Humanities and Everyday Life Michael Levenson, 2017-11-08 *The Literary Agenda* is a series of short polemical monographs about the importance of literature and of reading in the wider world and about the state of literary education inside schools and universities The category of the literary has always been contentious What is clear however is how increasingly it is dismissed or is unrecognised as a way of thinking or an arena for thought It is sceptically challenged from within for example by the sometimes rival claims of cultural history contextualized explanation or media studies It is shaken from without by even greater pressures by economic exigency and the severe social attitudes that can follow from it by technological change that may leave the traditional forms of serious human communication looking merely antiquated For just these reasons this is the right time for renewal to start reinvigorated work into the meaning and value of literary reading We think of the humanities as a cluster of specialized academic activities So they are But they also belong to the ordinary world the world where students and faculty make connections and careers where they eat and drink and fret where they move through new buildings and old seminar rooms In *The Humanities and Everyday Life* Michael Levenson places academic humanities within this field of daily life where abstract thought stands alongside material need The humanities also live outside the university in activities that have been overlooked or undervalued in book clubs in historical re enactments in visits to museums and libraries in private collections in contributions to Wikipedia and in amateur genealogy These activities belong to the humanities quite as much as research published in specialty journals *The Humanities and Everyday Life* addresses both the university and the world beyond to see where they meet and fail to meet and to argue that the walls between them should lower At the centre of the book is an account of experts and expertise a controversial topic that poses questions about professionals versus amateurs and what constitutes expertise Drawing on the recent rejection of political elite expertise as seen in the Brexit referendum and the American election campaign as well as examples from science and medicine the volume reveals the unsteady boundary between specialized knowledge and public curiosity *The Humanities and Everyday Life* asks us to accept that the humanities are as enduring as religion are indeed both rival and complement to religion and to acknowledge that despite imperfections

they give an image of many dimensioned life The humanities are worth improving on their own terms but also because just often enough they constitute an exemplary micro society one that will illuminate still more widely when academic thought meets the light of the everyday Cristoforo Landino Bruce McNair,2018-11-26 In Cristoforo Landino His Works and Thought Bruce McNair examines the writings lectures and orations of Landino 1424-98 Renaissance Florence's famous teacher of poetry and rhetoric McNair studies Landino's lecture notes public orations poetry philosophical works and most popular commentaries to show how Landino's allegorical interpretations of Virgil and Dante grew in complexity as he studied philosophy and theology and how he understood Dante's Commedia as completing and surpassing Virgil's Aeneid McNair also shows how Landino draws upon a wide range of thinkers such as Aristotle Plato Aquinas Ficino Argyropoulos and Bessarion and how he incorporates his increasing knowledge of Plato into a scholastic framework and is better considered as a Dantean than a Neoplatonist See inside the book **The Late Medieval Age of Crisis and Renewal, 1300-1500** Clayton J. Drees,2000-11-30 As part of a unique series covering the grand sweep of Western civilization from ancient to present times this biographical dictionary provides introductory information on 315 leading cultural figures of late medieval and early modern Europe Taking a cultural approach not typically found in general biographical dictionaries the work includes literary philosophical artistic military religious humanistic musical economic and exploratory figures Political figures are included only if they patronized the arts and coverage focuses on their cultural impact Figures from western European countries such as Italy France England Iberia the Low Countries and the Holy Roman Empire predominate but outlying areas such as Scotland Scandinavia and Eastern Europe are also represented Late medieval Europe was an age of crisis With the Papacy removed to Avignon the schism in the Catholic Church shook the very core of medieval belief The Hundred Years War devastated France The Black Death decimated the population Yet out of this crisis grew an age of renewal leading to the Renaissance The great Italian city states developed Humanism reawakened interest in the cultures of ancient Greece and Rome Dante and Boccaccio began writing in their Tuscan vernacular Italian artists became humanists and flourished As the genius of Italy began spreading to northern and western Europe at the end of the 15th century the age of renewal was completed This book provides thorough basic information on the major cultural figures of this tumultuous era of crisis and renewal
