Multiple Selves Richard Lebow, 2024-11-28 Multiple Selves offers an original take on identity self fashioning and the problems of identity politics It bridges the genres of political science sociology philosophy and even self help It draws on current debates in psychology philosophy and political science as well as art and literature to address a serious life issue that has important political and ethical implications Multiple Selves denies that we have a single identity are unique or could use either identity or uniqueness as a source of political and ethical guidance We are a jumble of multiple self and social identifications that change in character and rise and fall in importance over time Some of these identifications are reinforcing others are in conflict and all are context dependent The book offers a critique of identity politics on both the right and the left It proposes more realistic ways of self fashioning described as much as a social as an individual enterprise Recognition of our fragmented selves can produce important ethical insights and greater psychological contentment

A New History of Western Art Koenraad Jonckheere, 2022-10-15 A radical re examination of 2 500 years of European art deconstructing and demystifying its long history from ancient to present How has art evolved from the pursuit of the ideal human form to a black square on a

white canvas Why is a banana duct taped to a wall worth more on the art market than a beautiful seventeenth century landscape By taking art for what it actually is a piece of stone or wood a sheet of paper with some lines drawn on it a painted canvas this lively and accessible account shows how seemingly meaningless objects can be transformed into celebrated works of art Breaking with conventional notions of artistic genius Koenraad Jonckheere explores how stories and emotions give meaning to objects and why changing historical circumstances result in such shifting opinions over time Tracing its story from ancient times to present A New History of Western Art reframes the evolution of European art and radically reshapes our understanding of art history Published in association with Hannibal Books **Frame Work** Alison

Wright,2019-01-01 Frame Work explores how framing devices in the art of Renaissance Italy respond and appeal to viewers in their social religious and political context *New Apelleses and New Apollos* Diletta Gamberini,2022-01-19 This book breaks new ground by illuminating the key role of verse writing as a cultural strategy on the part of Italian Renaissance artists It does so by undertaking a wide ranging study of poems by painters sculptors architects and goldsmiths who were active in Florence under Cosimo I and Francesco I de Medici a milieu in which many practitioners of the visual arts appropriated the literary medium to address issues related to their primary professions New Apelleses and New Apollos intervenes in the burgeoning scholarly discourse on the intellectual life of artists in early modern Italy revealing how poetry often provides fresh insights into art theoretical debates patronage questions workshop cultures issues of professional identity and networks of personal relations **Sebastiano del Piombo and the World of Spanish Rome** Piers

Baker-Bates,2017-07-05 Sebastiano del Piombo c 1485 1547 was a close associate and rival of the central artistic figures of the High Renaissance notably Michelangelo and Raphael After the death of Raphael and the departure of Michelangelo from Rome Sebastiano became the dominant artistic personality in the city Despite being one of most significant artistic figures of the period he remains the last artist of major importance in the western canon about whom no recent work has been published in English In this study Piers Baker Bates approaches Sebastiano s career through analysis of the patrons he attracted following his arrival at Rome The first half of the book concentrates on Sebastiano s network of patrons predominantly Italian who had strong factional ties to the Imperial camp the second half discusses Sebastiano s relationship with his principal Spanish patrons Sebastiano is a leading example of a transcultural artist in the sixteenth century and his relationship with Spain was fundamental to the development of his careerThe author investigates the domination of Sebastiano s career by patrons who had geographically different origins but who were all were members of a wider network of Imperial loyalties Thus Baker Bates removes Sebastiano from the shadow of his contemporaries bringing him to life for the reader as an artistic personality in his own right Baker Bates characterization of the Rome in which Sebastiano made his career differs from previous scholarly accounts and he describes how Sebastiano was ideally suited to flourish in the environment he depicts Sebastiano del Piombo and the World of Spanish Rome thus re appraises not only Sebastiano s place

in the canon of Renaissance art but using him as a lens also the cultural worlds of Early Modern Italy and Spain in which he operated

Mythologies of Internal Exile in Elizabethan Verse A.D. Cousins, 2018-10-26 Writers of the English Renaissance like their European contemporaries frequently reflect on the phenomenon of exile an experience that forces the individual to establish a new personal identity in an alien environment Although there has been much commentary on this phenomenon as represented in English Renaissance literature there has been nothing written at length about its counterpart namely internal exile marginalization or estrangement within the homeland This volume considers internal exile as a simultaneously twofold experience It studies estrangement from one's society and correlatively from one's normative sense of self In doing so it focuses initially on the sonnet sequences by Sidney Spenser and Shakespeare which is to say the problematics of romance then it examines the verse satires of Donne Hall and Marston likewise the problematics of anti romance This book argues that the authors of these major texts create mythologies via the myths of and accumulated mythographies about Cupid satyrs and Proteus through which to reflect on the doubleness of exile within one's own community These mythologies at times accompanied by theologies of alienation suggest that internal exile is a fluid and complex experience demanding multifarious reinterpretation of the incongruously expatriate self The monograph thus establishes a new framework for understanding texts at once diverse yet central to the Elizabethan literary achievement

Artistic Responses to Travel in the Western Tradition Sarah J. Lippert, 2018-04-17 In an era when ease of travel is greater than ever it is also easy to overlook the degree to which voyages of the body and mind have generated an outpouring of artistry and creativity throughout the ages Exploration of new lands and sensations is a fundamental human experience This volume in turn provides a stimulating and adventurous exploration of the theme of travel from an art historical perspective Topical regions are covered ranging from the Grand Tour and colonialism to the travels of Hadrian in ancient times and Georgia O'Keeffe's journey to the Andes from Vasari's Neoplatonic voyages to photographing nineteenth century Japan The scholars assembled consider both imaginary travel as well as factual or embellished documentation of voyages The essays are far reaching spatially and temporally but all relate to how art has documented the theme of travel in varying media across time and as illustrated and described by writers artists and illustrators The scope of this volume is far reaching both chronologically and conceptually thereby appropriately documenting the universality of the theme to human experience
