Brenner,1989 *Wong's Nursing Care of Infants and Children Australia and New Zealand Edition - For Professionals* Lisa Speedie,Andrea Middleton,2021-11-09 This new text has been adapted from the highly trusted Wong s Nursing Care of Infants and Children to provide a reference for professional nurses working in paediatric and child and family health settings in Australia and New Zealand The content covers all aspects of infant child and adolescent care including anatomy and physiology child and adolescent mental health nursing care guidelines critical thinking family centred care rural and remote health cultural and psychosocial considerations common presenting conditions and therapeutic management With input from leading local expert paediatric clinicians and academics and carefully curated for practising paediatric nurses and nurses newly entering paediatrics the text aligns with local professional standards health policies legal and ethical considerations and population data Well established comprehensive text that focuses on clinical relevance for professional nurses Covers all aspects of infant child and adolescent health through an assessment and management approach Foundational information builds a solid knowledge base in paediatric nursing Written to help nurses develop a deeper understanding of the psychosocial needs of infants children adolescents and their families Case studies and research questions to build critical thinking skills Aligned to National Safety and Quality Health Service NSQHS Standards User friendly accessible content suitable for practising paediatric nurses across a variety of clinical settings and geographic locations **CAR-T Cell Therapies for Non-Hematopoietic Malignancies: Taking Off The Training Wheels** Avery Dexter Posey, Jr.,John - Maher,Marcela V. Maus,2020-04-24 Chimeric antigen receptor CAR T cell therapies for leukemia e g tisagenlecleucel and lymphoma e g axicabtagene ciloleucel have recently received regulatory approval in the United States Phase I II trials have demonstrated complete remission of refractory or relapsed tumors in 50% 94% patients However the clinical successes of engineered T cells for the treatment of solid malignancies have thus far been few and far between Furthermore several instances of severe and lethal toxicities have arisen due to on

target off tumor recognition of antigen by T cell products Recent advances in phase I trials for solid tumors as well as in pre clinical models have revealed several variables that will be important to consider for the successful use of CAR T cells in treating solid tumors These variables include i regional versus systemic delivery ii scFv versus ligand interactions iii antigen loss versus escape iv epitope spreading and v checkpoint expression on immune cells or tumor cells Also there remains outstanding mechanistic questions related to why differences exist in the persistence and tonic signaling of second generation CD28 versus 4 1BB co stimulated CAR T cells In addition we are now learning the roles of lympho depleting regimens and associated toxicities in modifying the persistence of engineered T cell therapies A more comprehensive view of CAR T cell strategies and important advances both of pre clinical and clinical evaluations in solid tumors is necessary to drive these therapies forward

Amyloid-beta clearance in Alzheimer's disease Robert Marr, Eliezer Masliah, 2015-03-24 Strong evidence continues to accumulate indicating that amyloid beta A is a central part of Alzheimer's disease AD pathogenesis in spite of the negative evidence coming from failed clinical trials Therefore mechanisms of clearance of A are of great interest in understanding AD pathogenesis and the development of effective treatments This topic focuses on the issues related to A clearance in AD The topics covered include proteases that degrade A and their localization regulation and functions This topic also covers issues related to clearance through uptake by glia and through low density lipoprotein LDL receptor mediated mechanisms Signal transduction related to AD pathology and clearance is also addressed Finally immunotherapy and other novel therapeutic approaches are discussed
