Global Islamophobia and the Rise of Populism Sahar F. Aziz, John L. Esposito, 2024 In recent years Islamophobia has seen a disturbing global rise Blaming Muslim minorities for economic political and social problems is an increasingly common rhetorical strategy for politicians in countries worldwide A narrative of the threatening Muslim invader is troublingly prevalent regardless of whether the targets of such rhetoric are born citizens or new arrivals Its consequences are deadly and devastating for Uyghurs in China indefinitely detained in concentration camps Indian Muslims attacked in pogroms and the Rohingya victims of genocide In parts of Europe and North America the consequences of Islamophobia are less overtly violent but no less harmful Muslims are banned from wearing hijab building minarets opening Islamic schools or legally immigrating to certain countries In the United States Europe and India Islamophobic rhetoric is increasingly normalized fracturing ethnically diverse societies as xenophobic right wing political ideals accumulate followers at an alarming pace In turn Islamophobia in the West gives license to discrimination elsewhere creating a vicious cycle of Islamophobia Global Islamophobia and the Rise of Populism is the first book to systemically examine the complex factors contributing to the rise in Islamophobia and right wing populism across three continents North America Europe and Asia Internationally renowned scholars offer insightful and empirically grounded analysis linking local contexts with global trends This groundbreaking book is an essential contribution to discourse on immigration racism xenophobia and human rights

French Prose in 2000, 2021-10-18 French Prose in 2000 stems in some important measure from work presented in September 1998 at the International Colloquium on French and Francophone Literature in the 1990s held at Dalhousie University A good number of papers given at that time and since revisited in the light of exchanges join here certain others specifically written for the purposes of this book Together they constitute a wide ranging and modally varied interrogation of the current state of French and francophone prose writing its multifaceted manners its richly divergent fascinations its many theoretical or philosophical groundings The book thus ceaselessly moves its attention from fictional biography to the roman noir from the writing of Glissant and Chamoiseau to

that of the tonnants voyageurs from the powerful discourse of women such as Chawaf or Cond Ernaux or Germain Sallenave or Kristeva to that of writers as diverse in their modes as Le Clézio and Quignard Duras and Renaud Camus All chapters focus however in near exclusive measure on the prose production of the last ten or twelve years **Promiscuity in Western**

Literature Peter Stoneley,2020-02-13 Poet and novelist Charles Bukowski described promiscuity as feast and feast and feast The promiscuous person is having fun getting away with it and showing no signs of stopping More often though promiscuity has been seen as demonic as the sign of an uncivilised race or as a symptom of mental disorder Promiscuity in Western Literature capitalises on the fact that literature gives us deep and varied resources for reflecting on this controversial aspect of human behaviour Drawing on authors from Homer to Margaret Atwood it explores recurrent ideas and scenarios Why does the literature of promiscuity evoke ideas of the animal Why does it so often turn upon the image of the excessive woman How and why does promiscuity feature in comic writing How does the emergence of the modern city change representations of promiscuity And in the present day what impact have ecological concerns had on the way writers depict promiscuity

Radicalisation, Extremism and Social Work Practice Lena Robinson,M Rafik Gardee,2022-03-30 Radicalisation Extremism and Social Work Practice is the first book to explore cultural identity acculturation and perceived discrimination of Muslim youth across Western countries in relation to social work as well as the radicalisation and extremist views and actions of a small number of Muslim youth It draws on relevant theoretical frameworks and research to examine the different approaches taken in social work practice Some countries consider multi agency approaches particularly how public health practice can inform interventions and strategies Others take a public health approach looking for risk factors and seeking protective factors to develop suitable interventions within the communities through public engagement and partnership As well as examining and discussing the above approaches this book critically examines government and community based approaches to radicalisation and extremism and strategies for combating these This volume will be a valuable resource for social work students including other disciplines such as psychology public health psychiatry sociology political science and community development It will also be of interest to policy makers practitioners and researchers , **Mnemosyne o la**

influence of Frantz Fanon psychiatrist revolutionary and social theorist Fanon's work not only gave voice to the wretched in the Algerian War of Independence 1954-1962 but also shaped the radical resistance to colonialism empire and racism throughout much of the world. His seminal works such as *Black Skin White Masks* and *The Wretched of the Earth* were read by The Black Panther Party in the United States, anti-imperialists in Africa and Asia, and anti-monarchist revolutionaries in the Middle East. Today many revolutionaries and scholars have returned to Fanon's work as it continues to shed light on the nature of colonial domination, racism, and class oppression. Le volume se divise en trois parties qui offrent chacune un point de vue très différent sur l'œuvre. Le premier volet qui traite des problèmes de la réception de Camus suit une approche plutôt sociologique. La partie centrale propose une série de microlectures des *Eglogues*, le grand roman expérimental en progress de l'auteur. Le troisième ensemble regroupe une série d'études qui soulignent essentiellement l'incroyable diversité de l'œuvre de Renaud Camus et discutent les sujets suivants : rapports entre textes et illustrations, enjeux esthétiques et idéologiques de la critique, convergences et divergences de la vie et de l'œuvre, statut de l'art et du beau dans une société postmoderne. Journal of the Institute of Romance Studies, 1995. Quelle éthique pour la littérature? Florence Quinche, Antonio Rodriguez, 2007. Sommaire LITTÉRATURE ET PHILOSOPHIE.
