Renegade Justice Rogue Force:

Renegade Force Don Pendleton, 1998 Deliverance a right wing organization made up of former law enforcement officials is bringing back the code of vigilante justice executing criminals and noncriminals without due process As their campaign of misguided violence escalates Bolan is called in to quell the fires that have erupted in urban battle zones across America and to bring the leaders in to face their own trial without jury

Renegade for Justice Stephen Lee Saltonstall, 2022-10-31 This is a book of courtroom war stories drawn from my forty years of experience as an obscure lawyer for the underdog and the downtrodden So begins *Renegade for Justice* a memoir of a public interest lawyer driven by the cause of justice While the stories Stephen Saltonstall tells are entertaining they are also instructive providing as he says an insider look at the American justice system which is rigged against the poor and people of color and tolerates police perjury *Renegade for Justice* begins by telling the story of how and why a privileged kid from Cambridge Massachusetts broke from family tradition and devoted his professional life to defending the defenseless in a justice system that is crippled by systemic injustice Activist lawyer Stephen Saltonstall brings readers into the world of criminal defense by recounting narratives of his cases including a successful attack on a Massachusetts death penalty statute appeals of two notorious homicide cases a serial murderer and a cop killer an effort to save the life of a little boy whose parents refused to give him the medical treatment he needed for acute lymphocytic leukemia free speech cases for students and an environmentalist carpenter litigation to save critical black bear and neotropical migratory songbird habitat from US Forest Service clear cutting and more In a system biased against the public interest and the underprivileged Saltonstall gives people a model for practicing values based law Channeling the spirit of radicals like William Kunstler Saltonstall writes not only for activists who want to better understand our society but also for those thinking about becoming a lawyer As he writes in the preface I hope my stories will challenge those of you you know who you are you who dream of soft landings in the glittering halls of boring soul free law firms doing the bidding of the uber rich and powerful to visualize the alternative a career that s built on cases and causes that further the public interest human rights and care of the natural world

Rogue Justice Karen J. Greenberg, 2017-05-23 The definitive account of how America s War on Terror sparked a decade long assault on the rule of law weakening our courts and our Constitution in the name of national security The day after September 11 President Bush tasked the attorney general with preventing another terrorist attack on the United States From that day forward the Bush administration turned to the Department of Justice to give its imprimatur to activities that had previously been unthinkable from the NSA s spying on US citizens to indefinite detention to torture Many of these activities were secretly authorized others done in the light of day When President Obama took office many observers expected a reversal of these encroachments upon civil liberties and justice but the new administration found the rogue policies to be deeply entrenched and at times worth preserving Obama ramped up targeted killings held fast to aggressive surveillance policies and fell short on bringing reform to detention and interrogation How did

America veer so far from its founding principles of justice Rogue Justice connects the dots for the first time from the Patriot Act to today's military commissions from terrorism prosecutions to intelligence priorities from the ACLU's activism to Edward Snowden's revelations And it poses a stark question Will the American justice system ever recover from the compromises it made for the war on terror Riveting and deeply reported Rogue Justice could only have been written by Karen Greenberg one of this country's top experts on Guantanamo torture and terrorism with a deep knowledge of both the Bush and Obama administrations Now she brings to life the full story of law and policy after 9/11 introducing us to the key players and events showing that time and again when liberty and security have clashed justice has been the victim Kirkus Best Books of 2016

Donnelly, 2014-05-02 This book explores the presence of the anti hero in mainstream dramatic serial television It offers critical examinations of Dexter Sons of Anarchy True Blood Breaking Bad and Boardwalk Empire What purpose might such unusual protagonists serve in today's culture and what do their tales tell about U S political and economic issues from 2008 to 2012 The author discovers how the characters that seem initially so different prove to be strong exemplars of established forms of power such as white patriarchy and late capitalist interests The study finds that even when the characters are groundbreaking fictional figures they are all eventually written into submission by the narratives of their series echoing the same tales of fictitious heroism recycled in American television narratives for decades New trends in television narratives are discussed with the expectation that perhaps future dramas will free audiences from oppressive narratives rather than continue to normalize them Don Pendleton's Mack Bolan, Rogue Force Don Pendleton, 1988 **Renegade** Eve Newton, TBD
