Responsibility Of States For International Crimes:

The Responsibility of States for International Crimes Nina H. B. Jørgensen, 2000 This book focuses on the concept of state responsibility for international crimes which gained support following the First World War but was pushed into the background by the development of the principle of individual criminal responsibility under international law after the Second World War Jørgensen considers the history and merits of a concept that it is argued is currently on the threshold between *lex ferenda* and *lex lata* *The Responsibility of States in International Law* Clyde Eagleton, 1928 **The Relationship**

Between State and Individual Responsibility for International Crimes Béatrice I. Bonafè, 2009 This book offers a unique comparison between state and individual responsibility for international crimes and examines the theories that can explain the relationship between these two regimes The study provides a comprehensive and systematic analysis of the relevant international practice from the standpoint of both international criminal law and in particular the case law of international criminal tribunals and state responsibility The author shows the various connections and issues arising from the parallel establishment of state and individual responsibility for the commission of the same international crimes These connections indicate a growing need to better co ordinate these regimes of international responsibility The author maintains that a general conception according to which state and individual responsibility are two separate sets of secondary rules attached to the breach of the same primary norms can help to solve the various issues relating to this dual responsibility This conception of the complementarity between state and individual responsibility justifies co ordination and consistent application of these two different regimes each of which aims to foster compliance with the most important obligations owed to the international community as a whole Immunity of Heads of State and State Officials for International Crimes

Ramona Pedretti, 2015-01-08 Ramona Pedretti offers for the first time a comprehensive assessment of the rules of customary international law relating to immunity of Heads of State and other State officials in the context of crimes pursuant to international law and their relationship with core principles of international law The book gives the reader a full picture of this topical issue which is located at the heart of today's development of international law It contains an in depth evaluation of a vast amount of relevant material ranging from domestic laws to judicial decisions of domestic and international courts The fact that the International Law Commission is deliberating the issue with a view to drafting an international treaty underscores the book's importance and timeliness **International Crimes of State** Joseph H.
