A History of Ancient Sanskrit Literature So Far as it Illustrates the Primitive Religion of the Brahmans Friedrich Max Müller,1859 Asiatic Review Demetrius Charles Boulger,1900 Beginning in 1895 includes the Proceedings of the East India Association *The Imperial and Asiatic Quarterly Review and Oriental and Colonial Record* ,1900 Beginning Apr 1895 includes the Proceedings of the East India Association A Reader's Guide to Contemporary Literature William Swan Sonnenschein,1896 *Educating India* Amit K. Suman,2025-01-30 The book delves into the educational challenges that indigenous groups faced during the late 18th and 19th centuries and examines how they responded to these challenges and threats It centres on the historical evolution of education in the Bengal Presidency and the North Western Provinces with a particular emphasis on the roles of pandits maulvis and other influential figures within indigenous society Up until the 19th century questions about the nature of knowledge the most effective methods of

transmitting it and the societal responsibilities toward educating the youth were not monopolized by any single entity. In most of Europe, private actors rather than the state assumed the role of the dominant authority controlling the definition and dissemination of knowledge. This trend gradually marginalized local knowledge and traditional ways of life. In contrast, the colonial state in India did not encourage local agencies to actively participate in the process of knowledge formation. Instead, under colonialism, indigenous institutions and educators became agents of the state. It is important to clarify the term indigenous in this context. Here it refers to all educational institutions that served the local population taught pre-British curricula were staffed by Indian or native teachers and initially received patronage from local elites. However, over time, colonial authorities began providing funding and assuming patronage of these institutions, which subsequently led to changes in their structures.

Ideology and Status of Sanskrit, 2023-07-31. The present volume is the outcome of a seminar on the Ideology and Status of Sanskrit held in Leiden under the auspices of the International Institute for Asian Studies. The book contains studies of crucial periods and important areas in the history of the Sanskrit language from the earliest Vedic and pre-Vedic periods through the period in which the restricted use of Sanskrit spread over practically all of South including part of Central and Southeast Asia, sometimes referred to as the period of Greater India up to the recent history of Sanskrit in India. The contributions of this volume are divided into three sections: 1. Origins and Creation of the Eternal Language; 2. Transculturation, Vernacularization, Sanskritization; 3. The Sanskrit Tradition: Continuity from the past or Construction from the present.

Into the Twilight of Sanskrit Court Poetry, Jesse Knutson, 2014-03-14. At the turn of the twelfth century into the thirteenth, at the court of King Lakṣmanasena of Bengal, Sanskrit poetry showed profound and sudden changes. A new social scope made its definitive entrance into high literature. Courtly and pastoral, rural and urban, cosmopolitan and vernacular confronted each other in a commingling of high and low styles. A literary salon in what is now Bangladesh at the eastern extreme of the nexus of regional courtly cultures that defined the age seems to have implicitly reformulated its entire literary system in the context of the imminent breakdown of the old courtly world as Turkish power expanded and redefined the landscape. Through close readings of a little-known corpus of texts from eastern India, this ambitious book demonstrates how a local and rural sensibility came to infuse the cosmopolitan language of Sanskrit, creating a regional literary idiom that would define the emergence of the Bengali language and its literary traditions.

Rewriting Buddhism, Alastair Gornall, 2020-03-17. Rewriting Buddhism is the first intellectual history of premodern Sri Lanka's most culturally productive period. This era of reform, 1157-1270, shaped the nature of Theravāda Buddhism both in Sri Lanka and also Southeast Asia, and even today continues to define monastic intellectual life in the region. Alastair Gornall argues that the long century's literary productivity was not born of political stability as is often thought but rather of the social, economic, and political chaos.

brought about by invasions and civil wars Faced with unprecedented uncertainty the monastic community sought greater political autonomy styled itself as royal court and undertook a series of reforms most notably a purification and unification in 1165 during the reign of Parakramabahu I He describes how central to the process of reform was the production of new forms of Pali literature which helped create a new conceptual and social coherence within the reformed community one that served to preserve and protect their religious tradition while also expanding its reach among the more fragmented and localized elites of the period
