Sonstein,2023-07-21 Within days before the surrender of the Confederacy at Appomattox Henry an eighteen year old former slave and recent recruit in the Army of Northern Virginia is ordered to accompany Major Frank Gardner on a mission to hide dozens of gold ingots acquired in secret trade with the French government to be held until the South rises again The mission is completed however Major Gardner dies shortly thereafter leaving Henry sworn to secrecy as the only person with knowledge of the hiding place He keeps the secret for sixty five years only leaving clues on a 1929 silent film In 2021 Christine Morgan is an associate attorney in a prominent law firm in Washington DC whose weekend hobby is visiting yard sales searching for unusual items She purchases a Cine Kodak silent movie camera that when cleaned reveals an undeveloped film cartridge inside The contents of the film draw the attention of Andy who has sold her the camera After viewing the exposed film together Christine and Andy begin a dangerous adventure through Northern Virginia searching for clues not only relating to the hidden gold but also

inadvertently becoming involved in a US government sting operation that involves a group of anarchists whose goal threatens the country as well as Christine and Andy who are not the only ones trying to solve Henry's secret **Open Secret** Erin Arvedlund, 2014-09-25 Gaming the LIBOR that is fixing the price of money had become just that a game. Playing it was the price of admission to a club of men who socialized together, skied in Europe courtesy of brokers and expense accounts and reaped million-dollar bonuses. In the midst of the financial crisis of 2008, rumors swirled that a sinister scandal was brewing deep in the heart of London. Some suspected that behind closed doors a group of chummy young bankers had been cheating the system through interest rate machinations. But with most eyes focused on the crisis rippling through Wall Street and the rest of the world, the story remained an open secret among competitors. Soon enough the scandal became public and dozens of bankers and their bosses were caught red-handed. Several major banks and hedge funds were manipulating and misreporting their daily submission of the London Interbank Offered Rate, better known as the LIBOR. As the main interest rate that pulses through the banking community, the LIBOR was supposed to represent the average rate banks charge each other for loans, effectively setting short-term interest rates around the world for trillions of dollars in financial contracts. But the LIBOR wasn't an average; it was a combination of guesswork and outright lies told by scheming bankers who didn't want to signal to the rest of the market that they were in trouble. The manipulation of the world's most important number was even greater than many realized. The bankers kept things looking good for themselves and their pals while the financial crisis raged on. Now Erin Arvedlund, the bestselling author of *Too Good to Be True*, reveals how this global network created and perpetuated a multiyear scam against the financial system. She uncovers how the corrupt practice of altering the key interest rate occurred through an unregulated and informal honor system in which young masters of the universe played fast and loose while their more seasoned bosses looked the other way and would later escape much of the blame. It was a classic private understanding among a small group of competitors: you scratch my back today, I'll scratch yours tomorrow. Arvedlund takes us behind the scenes of elite firms like Barclays Capital, UBS, Rabobank, and Citigroup and shows how they hurt ordinary investors, from students taking out loans to homeowners paying mortgages to cities like Philadelphia and Oakland. The cost to the victims as much as 1 trillion. She also examines the laxity of prominent regulators and central bankers and exposes the role of key figures such as Tom Hayes, a senior trader for the Swiss financial giant UBS who worked with traders across eight other banks to influence the yen LIBOR; Bob Diamond, the shrewd multimillionaire American CEO of Barclays Capital, the British bank whose traders have been implicated in the manipulation of the LIBOR; Mervyn King, the governor of the Bank of England who ignored U.S. Treasury secretary Tim Geithner's repeated recommendations to establish stricter regulations over the interest rate; Arvedlund pulls back the curtain on one of the great financial scandals of our time, uncovering how millions of ordinary investors around the globe were swindled by the corruption and greed of a few men.
