Americans it seems like a godsend To many others it seems like a joke But as investigative reporter Steve Salerno reveals in this groundbreaking book it s neither in fact it s much worse than a joke Going deep inside the Self Help and Actualization Movement fittingly the words form the acronym SHAM Salerno offers the first serious expos of this multibillion dollar industry and the real damage it is doing not just to its paying customers but to all of American society Based on the author s extensive reporting and the inside look at the industry he got while working at a leading lifestyle publisher SHAM shows how thinly credentialed experts now dispense advice on everything from mental health to relationships to diet to personal finance to business strategy Americans spend upward of 8 billion every year on self help programs and products And those staggering financial costs are actually the least of our worries SHAM demonstrates how the self help movement s core philosophies have infected virtually every aspect of American life the home the workplace the schools and more And Salerno exposes the downside of being uplifted showing how the empowering message that dominates self help today proves just as damaging as the blame shifting rhetoric of self help s Recovery movement SHAM also reveals How self help gurus conduct extensive market research to reach the same customers over and over without ever helping them The inside story on the most notorious gurus from Dr Phil to Dr Laura from Tony Robbins to John Gray How your company might be wasting money

on motivational speakers executive coaches and other quick fixes that often hurt quality productivity and morale How the Recovery movement has eradicated notions of personal responsibility by labeling just about anything from drug abuse to sex addiction to shoplifting a dysfunction or disease How Americans blindly accept that twelve step programs offer the only hope of treating addiction when in fact these programs can do more harm than good How the self help movement inspired the disastrous emphasis on self esteem in our schools How self help rhetoric has pushed people away from proven medical treatments by persuading them that they can cure themselves through sheer application of will As Salerno shows to describe self help as a waste of time and money vastly understates its collateral damage And with SHAM the self help industry has finally been called to account for the damage it has done Also available as an eBook
