Secrets Of The Sky Pack Of 4:

Secrets of the Sky Prue Smith, 2003-12-01 **The Secret in the Sky: A Doc Savage Adventure** Lester Bernard Dent, 2022-08-16

Lester Bernard Dent's *The Secret in the Sky: A Doc Savage Adventure* is an exhilarating narrative that seamlessly blends action science fiction elements and pulp sensibilities to produce an iconic escapade worthy of its legendary protagonist. Within the story's vividly etched pages, Dent orchestrates an intricate plot involving high flying danger, enigmatic technologies, and the relentless pursuit of justice. The tale is ensconced in the broader literary tradition of early 20th century pulp fiction, characterized by its breathless pacing, sensational adventure, and the larger than life hero in Doc Savage. This special edition by DigiCat Publishing revivifies Dent's work for contemporary readers while preserving the original's dynamic prose and immersive storytelling.

Lester Bernard Dent was a prolific author best known for his contributions to the Doc Savage series. His own adventures as a pilot and his fascination with science and technology are evident in the detailed aerial encounters and gadgets found in *The Secret in the Sky*. Dent's writing heavily influenced by his varied experiences and the tumultuous era he lived in, encapsulates the pulse and aspirations of early American fiction where heroism remained unquestioned and the future was ripe with untold possibilities. This edition of *The Secret in the Sky*, painstakingly prepared by DigiCat Publishing, is an invitation to both aficionados of classic adventure and newcomers alike. It promises an escape to a time when bravery and ingenuity were all that stood between mankind and the forces of evil. The fast paced narrative and intricate plot provide a window into a bygone era of storytelling where every page thrills and captivates. It's an adventure that endures as riveting now as it ever was and is essential reading for anyone looking to reclaim the pure joy of an old fashioned heroic saga.

License to Quill ANCIENT EGYPT, JERUSALEM AND THE STARS ARCHAEOASTRONOMICAL EVIDENCE OF A SECRET SACRED ASTRONOMY GIACOMO ALBANO,2023-02-25 Examining the astronomical alignments of the main Egyptian monuments the author shows that almost none of them is oriented to the rise or set of Sirius or Orion at the time of construction How is it possible The reader will discover that in reality all are oriented in some way to the rising points of the stars of Orion or Sirius when they were in the extreme phases of their cycle Since there is not only one of the most important Egyptian monuments that escapes this rule of orientation it is evident that it was the true secret technique behind these choices Being a specialist in stellar astrology in the last part of the book the author shows how these stellar mechanisms have worked well beyond the field of Archaeoastronomy He illustrates the most important encadrement by declination active for thousands of years and still active involving some of the brightest stars in the firmament We will see how and why Giza and Jerusalem been the places where it has most strongly manifested the greatest effects in the field of sacred and religions albeit in different ways and for different reasons The truth is that the Sacred Astronomy practiced by the Egyptians is completely unknown to contemporary scholars Moreover it was not a simple belief or superstition of that people It is the Supreme Science that describes how the cosmos really works and not only for the events of sacred history The Egyptian priests and initiates probably derived this knowledge from a tradition dating back to the dawn of time Since these stellar configurations regulate not only the most important events of sacred and prophane history but also the places the events that occur their knowledge may open new scenarios for human knowledge far superior and far more radical of the much acclaimed scientific discoveries that are not able to identify the primary and occult causes of events nor to reveal the Mystery that surrounds our existence **US Presidents and the Militarization of Space, 1946-1967** Sean N. Kalic,2012-04-10 In the clash of ideologies represented by the Cold War even the heavens were not immune to militarization Satellites and space programs became critical elements among the national security objectives of both the United States and the Soviet Union According to US Presidents and the Militarization of Space 1946 1967 three American presidents in succession shared a fundamental objective of preserving space as a weapons free frontier for the benefit of all humanity Between 1953 and 1967 Presidents Eisenhower Kennedy and Johnson all saw nonaggressive military satellite development as well as the civilian

space program as means to favorably shape the international community's opinion of the scientific technological and military capabilities of the United States Sean N Kalic's reinterpretation of the development of US space policy based on documents declassified in the past decade demonstrates that a single vision for the appropriate uses of space characterized American strategies across parties and administrations during this period Significantly Kalic's findings contradict the popular opinion that the United States sought to weaponize space and calls into question the traditional interpretation of the space race as a simple action reaction paradigm Indeed beyond serving as a symbol and ambassador of US technological capability its satellite program provided the United States with advanced nonaggressive military intelligence gathering platforms that proved critical in assessing the strategic nuclear balance between the United States and the Soviet Union It also aided the three administrations in countering the Soviet Union's increasing international prestige after its series of space firsts beginning with the launch of Sputnik in 1957
