Secrets Of The Space Age An American Gift To Humanity:

Secrets of the Space Age Lt Col William E. Winterstein Sr, William E. Winterstein, 2005 This unique and intriguing book is an excellent account of what really happened before and after Man walked on the moon Information from insiders reveals events that fill in the gaps about the history of space exploration No matter how skilled the writers of history you are always getting the story secondhand This book offers readers the opportunity to go right to the source These men were there It may be shocking but it will also enhance the appreciation of the glories of this great human adventure The book contains the little known history of the early years of man s desire to travel into space and reveals the events that took place after the Americans walked on the moon the true story about what caused the breakup of the German rocket team as told by Werhner von Braun to his personal secretary details the practices of a sinister group within the U S Justice Department and most importantly the humiliation actively brought to bear against the very people who struggled to put Americans on the moon

The Next-To-Last American President Shawn O'Reilly, 2011-02-21 The downfall of the United States of America has been expedited by the recent election of Barack Hussein Obama The country may not survive his regime but giving him the benefit of the doubt author Shawn O'Reilly describes him as The Next to Last American President O'Reilly a proud conservative who is deeply worried about Americas survival describes a future date when the country no longer exists in this political satire that is only half joking around He details the downfall aftermath and most importantly the rebirth of the American people Its still possible for the country to recover from the economic social and moral decay being promoted by Obama and his band of liberals The new government however must resemble what the founding fathers envisioned a land that has few regulations and taxes and no violations of personal freedoms The end is approaching and its time to prepare if you want to survive Take every step necessary to ensure the well being of you and your family with The Next to Last American President **Air Force and Space Digest** , 1960 A Kinder, Gentler America Mary Caputi, 2005 In the Norman Rockwell paintings of the 1940s and 1950s wrote Newt Gingrich there was a clear sense of what it meant to be an American Gingrich s words underline what Mary Caputi sees as a desire of the neoconservative movement to set a foundation for modern America that ennoble the past Analyzing these competing uses of the past A Kinder Gentler America reveals how longing for the era of the greatest generation actually exposes a disillusionment with the present Caputi draws on the theoretical frameworks of Julia Kristeva and Walter Benjamin to look at how the decade has been portrayed in movies such as Pleasantville and Far from Heaven and delves further to investigate our disenchantment s lost origins in early modernity through a reading of the poetry of Baudelaire What emerges is a stark contrast between the depictions of a melancholic present and a cheerful shiny past In the right s invocation of the mythical 1950s and the left s criticism of the same Caputi recognizes a common unfulfilled desire and proposes that by understanding this loss both sides can begin to accept that American identity despite chaos and confusion lies in the here and now Mary Caputi is professor of political science at California State University Long Beach and

Burrows,2010-09-29 It was all part of man s greatest adventure landing men on the Moon and sending a rover to Mars finally seeing the edge of the universe and the birth of stars and launching planetary explorers across the solar system to Neptune and beyond The ancient dream of breaking gravity s hold and taking to space became a reality only because of the intense cold war rivalry between the superpowers with towering geniuses like Wernher von Braun and Sergei Korolyov shelving dreams of space travel and instead developing rockets for ballistic missiles and space spectacles Now that Russian archives are open and thousands of formerly top secret U S documents are declassified an often startling new picture of the space age emerges the frantic effort by the Soviet Union to beat the United States to the Moon was doomed from the beginning by gross inefficiency and by infighting so treacherous that Winston Churchill likened it to dogs fighting under a carpet there was more than science behind the United States suggestion that satellites be launched during the International Geophysical Year and in one crucial respect Sputnik was a godsend to Washington the hundred odd German V 2s that provided the vital start to the U S missile and space programs legally belonged to the Soviet Union and were spirited to the United States in a derring do operation worthy of a spy thriller despite NASA s claim that it was a civilian agency it had an intimate relationship with the military at the outset and still does a distinction the Soviet Union never pretended to make constant efforts to portray astronauts and cosmonauts as Boy Scouts were often contradicted by reality the Apollo missions to the Moon may have been an unexcelled political triumph and feat of exploration but they also created a headache for the space agency that lingers to this day This New Ocean is based on 175 interviews with Russian and American scientists and engineers on archival documents including formerly top secret National Intelligence Estimates and spy satellite pictures and on nearly three decades of reporting The impressive result is this fascinating story the first comprehensive account of the space age Here are the strategists and war planners engineers and scientists politicians and industrialists astronauts and cosmonauts science fiction writers and journalists and plain ordinary unabashed dreamers who wanted to transcend gravity s shackles for the ultimate ride The story is written from the perspective of a witness who was present at the beginning and who has seen the conclusion of the first space age and the start of the second **Boys' Life** ,1970-11 Boys Life is the official youth magazine for the Boy Scouts of America Published since 1911 it contains a proven mix of news nature sports history fiction science comics and Scouting **Congressional Record** United States.
