Secular Commonsense:

Making Sense of the Secular Ranjan Ghosh, 2013-01-04 This book offers a wide range of critical perspectives on how secularism unfolds and has been made sense of across Europe and Asia. The book evaluates secularism as it exists today, its formations and discontents within contemporary discourses of power, terror, religion, and cosmopolitanism, and the focus on these two continents gives critical attention to recent political and cultural developments where secularism and multiculturalism have impinged in deeply problematical ways, raising bristling ideological debates within the functioning of modern state bureaucracies. Examining issues as controversial as the state of Islam in Europe and China's encounters with religion, secularism and modernization provides incisive and broader perspectives on how we negotiate secularism within the contemporary threats of terrorism and other forms of fundamentalism and state politics. However, amidst the discussions of various versions of secularism in different countries and cultural contexts, this book also raises several other issues relevant to the antitheocratic and theocratic alike, such as: Is secularism merely a nonreligious establishment? Is secularism a kind of cultural war? How is it related to terror? The book at once makes sense of secularism across cultural, religious, and national borders and puts several relevant issues on the anvil for further investigations and understanding.

Secular Common Sense Mukul Kesavan, 2001 Interrogating India: Is A New Series That Looks Critically At The Common Sense Prevailing On Some Of The Most Pressing Issues Of Our Times. Passionate, Accessible And Opinionated. These Reflections From Some Of India's Best Minds Will Help To Make Better Sense Of The Public Debate On These Issues While Hopefully Provoking Us To Respond To The Challenges They Present. In this essay, Mukul Kesavan argues that secularism is and always has been the political common sense of the Republic. Throughout the course of his career, Lionel Elvin has worked closely with experts in many different areas of the educational field and has found that in coming to conclusions about either theory or practical policy, commonsense is indispensable. The author explores the idea of commonsense in education in this study, first published in 1977, and e

Confessions of a Secular Fundamentalist Mani Shankar Aiyar, 2006 In *Confessions Of A Secular Fundamentalist*, Mani Shankar Aiyar, Crusader For A Secular Credo, calls for an unambiguous and decisive restoration of secularism to the core of our nationhood. In doing so, he revisits every dimension of our secular ethos and exposes the various myths perpetuated by communal elements of all hues. Putting under the scanner contentious issues like conversions, uniform, civil code, and Article 370, he nails the falsehood underlying terms like pseudo secularism, appeasement, and soft Hindutva. And he places the domestic debate over secularism in India in the wider external dimension by discussing the experiences of countries like Pakistan, Sri Lanka, Israel, and erstwhile Yugoslavia, admitting to wearing his secularism on

M. Stevans,1902 Speculative Theology and Common-Sense Religion Linden J. DeBie,2008-05-15 Evangelicals in nineteenth century America had a headquarters at Princeton Charles Hodge

never expected that a former student of Princeton and his own replacement during his hiatus in Europe John W Nevin would lead the German Reformed Church's seminary in a new and in his mind destructive direction. The two along with their institutions would clash over philosophy and religion producing some of the best historical theology ever written in the United States. The clash was broad influencing everything from hermeneutics to liturgy but at its core was the philosophical antagonism of Princeton's Scottish common sense perspective and the German speculative method employed by Mercersburg. Both Princeton and Mercersburg were the cautious and critical beneficiaries of a century of European Protestant science philosophy and theology and they were intent on adapting that legacy to the American religious context. For Princeton much of the new European thought was suspect. In contrast Mercersburg embraced a great deal of what the Continent offered. Princeton followed a conservative path never straying far from the foundation established by Locke. They enshrined an evangelical perspective that would become a bedrock for conservative Protestants to this day. In contrast Nevin and the Mercersburg school were swayed by the advances in theological science made by Germany's mediating school of theology. They embraced a churchy idealism called evangelical catholicism and emphatically warned that the direction of Princeton and with it Protestant American religion and politics would grow increasingly subjective thus divided and absorbed with individual salvation. They cautioned against the spirit of the growing evangelical bias toward personal religion as it led to sectarian disunity and they warned evangelicals not to confuse numerical success with spiritual success. In contrast Princeton was alarmed at the direction of European philosophy and theology and they resisted Mercersburg with what today continues to be the fundamental teachings of evangelical theology. Princeton's appeal was in its common sense philosophical moorings which drew rapidly industrializing America into its arms. Mercersburg countered with a philosophically defended churchly idealism based on a speculative philosophy that effectively critiqued what many to this day find divisive and dangerous about America's current Religious Right.

Common Sense in Early 18th-Century British Literature and Culture Christoph Henke, 2014-10-14

While the popular talk of English common sense in the eighteenth century might seem a by-product of familiar Enlightenment discourses of rationalism and empiricism this book argues that terms such as common sense or good sense are not simply synonyms of applied reason. On the contrary the discourse of common sense is shaped by a defensive impulse against the totalizing intellectual regimes of the Enlightenment and the cultural climate of change they promote in order to contain the unbounded discursive proliferation of modern learning. Hence common sense discourse has a vital regulatory function in cultural negotiations of political and intellectual change in eighteenth century Britain against the backdrop of patriotic national self-concepts. This study discusses early eighteenth century common sense in four broad complexes as to its discursive functions that are ethical which at that time implies aesthetic as well transgressive as a corrective political in patriotic constructs of the nation and repressive of otherness. The selection of texts in this study strikes a balance between dominant literary culture Swift Pope Defoe Fielding Johnson and the periphery such as pamphlets and

magazine essays satiric poems and patriotic songs Carl Gustav Jung Renos K. Papadopoulos,1992 *Twentieth-century Poetry, Fiction, Theory* Harry Raphael Garvin,John D. Pojman,2008-11-19 Covering the major issues of the field succinctly and lucidly this text takes an analytically rigorous approach and makes it accessible in presentation Pojman writes from an impartial perspective presenting various options and points of view while guiding students in their own search for truth within these often emotion laden crucial issues The text includes original discussions of religious experience the possibility that hope is an adequate substitute for belief and the relationship between ethics and religion The Collected Works of Wyndham Lewis: Time and Western Man Paul Edwards,2023-11-13 The Collected Works of Wyndham Lewis brings together for the first time all of the published writings of Wyndham Lewis 1882 1957 a major contributor to literary modernism and one of the most important British painters of the first half of the twentieth century This is the first comprehensive edition of Time and Western Man with explanatory notes

previously unpublished drafts a history of composition and an account of its critical reception Originally published in 1927 *Time and Western Man* is one of Lewis's most important books and a pioneering work of cultural criticism It contains scathing criticism of his fellow modernist writers Ezra Pound James Joyce and Gertrude Stein The second part of the book analyses and attacks the philosophy of Time focusing especially on Henri Bergson A N Whitehead Samuel Alexander and Oswald Spengler Many of Lewis's most penetrating arguments are in the drafts that are printed in this edition for the first time

The Apostle of Common Sense Dale Ahlquist, 2009-09-03 G K Chesterton was one of the most well known and beloved writers of his time Yet he has been strangely neglected today This book is the perfect introduction to Chesterton Ahlquist is an able guide who takes the reader through twelve of Chesterton's most important books as well as the famous Father Brown stories One of the problems with approaching Chesterton is that he was so prolific that the reader is simply overwhelmed But Ahlquist makes the literary giant accessible highlighting Chesterton's amazing reach keen insight and marvelous wit Each chapter is liberally spiced with Chesterton's striking quotations There is something special that runs throughout Chesterton's books that sets him apart from the confusing philosophies of the modern world That common thread in Chesterton's writings is common sense It is instantly recognizable and utterly refreshing
