Gorman, 1990-01-01 For the Priestly writers ritual was a fundamental form of theological reflection This study analyses the conceptual categories of space time and status in an effort to clarify the larger cultural and conceptual categories operative in the Priestly ritual system Drawing on interpretative models derived from cultural anthropology the author argues that Priestly creation theology forms a necessary context for understanding the Priestly rituals Postsecular Poetics Rebekah Cumpsty, 2022-08-11 This book is the first full length study of the postsecular in African literatures Religion secularism and the intricate negotiations between the two codified in recent criticism as postsecularism are fundamental conditions of globalized modernity These concerns have been addressed in social science disciplines but they have largely been neglected in postcolonial and literary studies To remedy this oversight

this monograph draws together four areas of study it brings debates in religious and postsecular studies to bear on African literatures and postcolonial studies The focus of this interdisciplinary study is to understand how postsecular negotiations manifest in postcolonial African settings and how they are represented and registered in fiction Through this focus this book reveals how African and African diasporic authors radically disrupt the epistemological and ontological modalities of globalized literary production often characterized as secular and imagine alternatives which incorporate the sacred into a postsecular world Shichigosan Melinda Papp,2016-06-07 This book presents a case study of shichigosan an extremely

popular childhood family ritual in contemporary Japan It is an interesting example of a custom with very ancient roots going back to the tenth century that has undergone several transformations during the course of its history adapting to changing socio economic and cultural circumstances Within the study the ritual unfolds as a shared platform where basic social values views on children and family life and individual perceptions emerge are expressed and moulded at the same time This book offers a multidisciplinary approach to the study of a ritual practice in the intensely urbanized context of present day Japan

to and defined via national territories and identities but which also demand new theoretical and methodological approaches towards the discussion of rituals and heritage

Ceremony and Text in the Renaissance Douglas F. Rutledge, 1996
Ceremony and Text in the Renaissance is a contribution to the history of cultural semiotics in Early Modern Europe Prof Thomas M Greene s theoretical exposition introduces a series of articles that consider the interaction between literary production and ceremonial performance in the larger cultural text of the Renaissance The Renaissance engaged in a greater number of ceremonial performances than the preceding era but the Reformation had irrevocably altered the language of ceremony reducing its magical efficacy and diminishing its ability to inspire community According to Professor Greene the essays address one large but limited area of semiotic practice the social role of ceremonial performance during the early modern period examining the interplay between ceremonial and the narrative dramatic or poetic text

The Politics of National Celebrations in the Arab Middle East Elie Podeh, 2011-06-30 Why do countries celebrate defining religious moments or significant events in their history and how and why do their leaders select certain events for commemoration and not others This book is the first systematic study of the role of celebrations and public holidays in the Arab Middle East from the fall of the Ottoman Empire to the present By tracing the history of the modern nation state through successive generations the book shows how Arab rulers have used public holidays as a means of establishing their legitimacy and more broadly a sense of national identity Most recently some states have attempted to nationalize religious festivals in the face of the Islamic revival With its many illustrations and copious examples from across the region the book offers an alternative perspective on the history and politics of the Middle East
