Weinberger, 1988 *The Politics Of Change In The Middle East* Robert B Satloff, 2019-09-16 This book examines regime stability and political change in the heartland of the Middle East It discusses the distribution of power within each regime of the Middle East the sources of regime legitimacy and the social economic and ideological trends influencing change in the region **Future U.S. Security Relationships with Iraq and Afghanistan** David E. Security Communities Emanuel Adler, Michael Barnett, 1998-10-28 This book argues that community can exist at the international level and that security politics is profoundly shaped by it with states dwelling within an international community having the capacity to develop a pacific disposition By investigating the relationship between international community and the possibility for peaceful change this book revisits the concept first pioneered by Karl Deutsch security communities Leading scholars examine security communities in various historical and regional contexts in places where they exist where they are emerging and where they are hardly detectable Building on constructivist theory the volume is an important contribution to international relations theory and security studies attempting to understand the conjunction of transnational forces state power and international organizations that can produce a security community **The Foreign Policies of Arab States** 'Alī al-Dīn Hilāl, 2010 This is an indispensable aid for those studying or teaching the foreign policies of the contemporary Middle East Not only are the elements of foreign policy discussed and presented as a whole region but the editors provide the established analytical framework by which each contributor in their individual chapters has analyzed and evaluated the foreign policies of nine Arab countries Their framework perceives foreign policy in the context of its environment domestic regional and global This edition has new material reflecting the earth shaking events at the end of the

The Regionalization of Warfare James Brown, 2023-03-31

Three wars have dominated world events in recent years The conflict which erupted between the United Kingdom and Argentina over the Falkland Malvinas Islands the multinational conflict in Lebanon involving Israeli Syrian and FLO forces in Lebanon and the savage struggles between ground and air units of the Iranian and Iraqi forces The scale and intensity of these wars their potential for global conflict make them crucial for an understanding among citizens in general and defense and political analysts in particular The authors and contributors to this most unusual volume come to several common conclusions professionalism is a crucial factor in military effectiveness but not necessarily dependent on modes of recruitment high technology is crucial but only in relation to the quality and training of the personnel public support is necessary to sustain military morale in democratic and authoritarian regimes alike These are only some of the incisive findings registered and explored in *The Regionalization of Warfare* The volume assembles experts not only on these three major regional and interregional conflicts but on current U S defense policies Soviet strategic interests in Middle East and Persian Gulf conflicts and a series of papers on lessons learned and unlearned as a result of these small wars of the early 1980s For those interested in military history global strategy and regional rivalries this collection of finely written sophisticated papers will prove to be of intense concern
