Great South West

13th September
2024

"Supacat is pleased to be supporting this important event for the Great South West. Supacat (as the core part of SC Group) is proudly located in the South West and draws its 160 staff from the region. In addition it selects suppliers from the region wherever possible and will have placed over £130m with those suppliers between June 2023 and June 2025 following an MOD order for 120 Jackal 3 vehicles. We look forward to continuing to support the Great South West initiative and making sure the region is fully represented in Westminster"

Security Defence Sw England:

Castles and Landscapes O. H. Creighton, 2005 This paperback edition of a book first published in hardback in 2002 is a fascinating and provocative study which looks at castles in a new light using the theories and methods of landscape studies

Fortifications and Siegecraft Jeremy Black, 2018-05-25 As centers for defense and bases for attack since ancient times fortifications are a crucial aspect of military history Indeed as Jeremy Black shows the history of fortifications is a global history of humanity itself Moreover their remains offer a still potent often dramatic testimony to the past notably through the strength of the sites the power of the works and the vast resources they required This compelling book explores not only the history of fortifications themselves but also the real and potential threat to them posed by siegecraft Tracing the interaction of attack and defense over time Black situates the evolution of fortifications within the wider development of governments societies and cultures Moreover his examination of the future of these installations as well as of potential methods of destroying them only reaffirms their omnipresence in human history and their continued importance Fortifications are not simply relics of the past but rather elements fundamental to military and social interaction across the world today

England's military heartland Vron Ware, Antonia Lucia Dawes, Mitra Pariyar, Alice Cree, 2025-01-28 What is it like to live next door to a British Army base England's military heartland provides an eye opening account of the sprawling military presence on Salisbury Plain drawing on a wide range of voices from both sides of the divide Targeted for expansion under government plans to reorganise the UK's global defence estate the Salisbury super garrison offers a unique opportunity to explore the impact of the military footprint in a particular place But this is no ordinary environment as well as being the world famous site of Stonehenge the grasslands of Salisbury Plain are home to rare plants and wildlife How does the army take responsibility for conserving this unique landscape as it trains young men and women to use lethal weapons Are its claims that its presence is a positive for the environment anything more than propaganda This book investigates these questions against the backdrop of a historic landscape inscribed with the legacy of perpetual war

The Western Rising of 1549 Mark Stoye, 2022-08-23 The fascinating story of the so called Prayer Book Rebellion of 1549 which saw the people of Devon and Cornwall rise up against the Crown The Western Rising of 1549 was the most catastrophic event to occur in Devon and Cornwall between the Black Death and the Civil War Beginning as an argument between two men and their vicar the rebellion led to a siege of Exeter savage battles with Crown forces and the deaths of 4 000 local men and women It represents the most determined attempt by ordinary English people to halt the religious reformation of the Tudor period Mark Stoye tells the story of the so called Prayer Book Rebellion in full Correcting the accepted narrative in a number of places Stoye shows that the government in London saw the rebels as a real threat He demonstrates the importance of regional identity and emphasizes that religion was at the heart of the uprising This definitive account brings to life the stories of the thousands of men and women who acted to defend their faith almost five hundred years ago

Security after Christendom John Heathershaw, 2024-02-13 We live in the wealthiest and most heavily defended world in history so why do we feel so insecure In a secular world what does Christian theology have to say about this problem Security after Christendom combines practical examples social scientific research and an ecumenical approach to political theology to answer these questions It argues that Christendom was a plural phenomenon of imagined security communities of East and West whose unravelling continues to have implications for global politics today as dramatically illustrated by Russia s war in Ukraine While notions of a new Christendom are idolatrous and delusional secular imaginaries of national security or the liberal international order are both destructive and unstable True security radical inclusion nonviolent protection and abundant provision is an eschatological phenomenon inaugurated by Christ Security after Christendom is neither found in faithful government nor an exclusive church as polis approach but in relations of tension where the fallen powers are

continuously confronted by prophetic practices A post Christendom community expresses its love for the world by seeking its security providentially limiting the disorders of the secular age and offering glimmers of a new earth

A Guide to National Security Julian Richards,2012-02-22 A Guide to National Security offers an analysis of the threats and policy responses facing the UK presented within the framework of the Government's National Security Strategy and the Strategic Defence and Security Review It explores the processes and developments which have shaped the transformation of national security over the last three decades and critically examines the processes of politicisation and securitisation that have delivered the new strategic vision Presented in three parts the book has taken one of the key recommendations from the National Security Strategy collaboration between police and national security agencies and used this as both the viewpoint from which to assess the current state of play regarding the UK's national security as well as the approach to identifying future threats and creating policies and tactics to deal with them Part One Threats sets the scene for the current status of national security in the UK and relates this to the rest of the world before moving on to the myriad of possible threats facing governments and intelligence services from organised crime and terrorism to cyber threats and failed states Part Two Responses looks at the interaction between governments and other agencies in response to a threat how that framework functions and is organized as well as the action or response taken Finally Part Three Strategies offers a range of considerations for the future including making a case for military restructuring discussing domestic policies regarding radicalisation and other internal security issues and the building of partnerships with the EU and the rest of the world as well as within current international organizations such as the UN and NATO Throughout the book presents opinions from leading figures across the agencies including the National Security Council and members of ACPO as well as case studies and suggestions for further investigation This book provides a number of fascinating and critical points for those interested in the UK's own national security organization from those working in intelligence counter terrorism and organised crime within the police staff within the national intelligence agencies and policy advisers and officials However the contemporary era of globalisation means that it also has resonances for anyone involved in such issues across the Western world and beyond

Defense Spending, Natural Resources, and Conflict Christos Kollias,Hamid E. Ali,2017-10-02 This book is an intellectual contribution of policy scientists and researchers from different

academic institutions in different parts of the world The Arab Spring the rise of ISIS and terrorism ignite the debate on studying conflict and natural resources Uniquely the book discusses the sources of the conflicts and the institutions that are managing the conflicts The natural resources defense spending conflict and human welfare are intertwined In support of the resource curse hypothesis the book shows that an abundance of natural resources particularly oil encourages an increase in military spending and lower economic growth In addition the good economic and political institutions do reduce the hazard of conflict and strong political institutions for checks and balances appear to weaken the impact of natural resources on conflicts The book also examines the relationship between defense and social welfare expenditures specifically health and education Shedding light on the complicated nature of the relationship between defense spending inequality and types of political and welfare regimes gives us a deeper understanding of the type of democratic systems that will likely improve social welfare In studying the political economy of defense spending the book shows the link between public opinion toward defense spending and voters support for candidates The analysis shows that party identification or having a vested interest in defense industries do correlate with a preference for increasing defense spending This book was published as a special issue of Defence and Peace Economics *Exploding the Myth?* Derek Braddon, 2014-02-25 From a cold war peak of some 1000 billion per annum world military expenditure has declined by about 40% since 1990 reaching its lowest level for thirty years With such significant decline in global public expenditure commitments to the defence sector a substantial and lasting peace dividend was anticipated Most governments believed that market forces left more or less to their own devices would deal effectively with this major exogenous shock and generate sufficient new economic activity to allow increased public expenditure on health education and welfare The approach of this book is to challenge the fundamental but flawed belief that a substantial and lasting peace dividend could be secured through market solution alone The principal assertion is that market adjustment by itself cannot deliver such a dividend The book focuses on the major aspects of the economic business and security consequences of post Cold War defence expenditure reduction Key problems obstructing optimal market response are identified and possible remedial action by government and others is considered Safety and Security Engineering VI C.A. Brebbia, F. Garzia, D. Poljak, 2015-05-06 This book contains the proceedings of the sixth in a series of interdisciplinary conferences on safety and security engineering The papers from the biennial conference first held in 2005 include the work of engineers scientists field researchers managers and other specialists involved in one or more aspects of safety and security The papers presented cover areas such as Risk Analysis Assessment and Management System Safety Engineering Incident Management Information and Communication Security Natural Disaster Management Emergency Response Critical Infrastructure Protection Public Safety and Security Human Factors Transportation Safety and Security Modelling and Experiments Security Surveillance Systems **A Dictionary of British and Irish History** Robert Peberdy, Philip Waller, 2020-11-10 An authoritative and extensive resource for British and Irish history Quickly access basic
