extensive introduction to the subject and its literature by Peter Sluglett this bibliography will help readers to find their way through the massive secondary literature now available Following the pattern established by the Index Islamicus both journal articles and book publications are included as well as important internet resources The editors have taken care to add much new material to bring its coverage up to date and supplement the previously published volumes while the most important and or influential publications are conveniently highlighted in the introduction An indispensable gateway for all those with a more than superficial interest in what is and what has been happening in this nation so much the focus of attention today *Iran, Iraq, and the Legacies of War* L. Potter, G. Sick, 2004-11-12 Iraq and Iran are the two most important states in the Gulf region given their population size military strength and the potential threat they pose to other states in the region This book enhances our understanding of the troubled relationship between Iran and Iraq placing it in historical context examining the rapid deterioration leading to the eight year war that started in 1980 and the effects of that trauma and exploring the ongoing issues that currently bedevil bilateral relations The authors cover such central issues as how each side has sought to use opposition groups in the other state to weaken it ethnic divisions the role of outside states especially the United States and a fascinating account of how the war affected a generation of Iraqis and Iranians The role of the U S in the region and how U S policy has affected the two states are also considered This book provides a basis for understanding the background of a tumultuous relationship that is entering a new era Arms Control and Missile Proliferation in the Middle East Bernd Kubbig, Sven-Eric Fikenscher, 2012-03-29 This edited volume provides a systematic analysis of the missile threat and proliferation issue in the Middle East region The question of how to increase the level of security in the Middle East is not a new one given the conflict ridden nature of the region The solution attempted for this predicament has typically revolved around intense arms build ups a strategy which can prove self defeating due to the subsequent countermeasures employed by neighbouring states Arms Control and Missile Proliferation in the Middle East focuses on the strategic proliferation of arms with a specific emphasis on missiles This unique emphasis enables the contributors to provide a dynamic new perspective on conceptual and political disarmament efforts thereby distinguishing this volume from many other related works on the region which deal mainly with weapons of mass destruction The book also explores the possibility of a reduction in weapon arsenals examining a more promising cooperative security concept which includes confidence and security building measures CSBMs This book will be of much interest to students of arms control Middle Eastern politics Gulf Security war and conflict studies security studies and IR Gulf Oil and Gas The Emirates Center for Strategic Studies and Research, 2007-08-13 In recent years geopolitical disruptions tightening oil supply refining constraints and rising demand have combined to maintain high oil prices allowing Arabian Gulf oil producers to capitalize on the resulting revenue windfall However formidable challenges still loom ahead What long term production strategy should the Gulf OPEC members adopt Can Gulf oil producers allay the supply security concerns of major consumer nations How will limitations in crude quality and

constraints in refining capacity impact on global energy markets How can OPEC maintain reasonable oil prices in the face of exhaustible oil supplies and inexhaustible global demand How will growing non OPEC production affect OPEC's predominant market position in the future The ECSSR 11th Annual Energy Conference Gulf Oil and Gas Ensuring Economic Security held from September 25-27 2005 in Abu Dhabi assembled international experts to discuss crucial energy developments and outline strategies for the Arabian Gulf states to strengthen their future economic security The conference presentations in this book focus on vital energy issues the globalization of the gas trade trends in crude quality cooperation between consumers and producers links between national and foreign oil companies future demand for Gulf energy prospects for augmented Gulf production sustainability of Saudi Arabia's excess capacity concerns over oilfield security imperatives for attracting investment and the need for additional oil refining capacity Conference deliberations indicated that for the Arabian Gulf producers ensuring economic security means going beyond petroleum resource management to formulate policies leading to diversified national development and greater economic cohesion while safeguarding the region's strategic position in an integrated world economy
