Policy Responses to the Globalization of American Banking Peter Dombrowski,1996-02-15 Since the late 1950s the world s banks have expanded their global operations with US institutions leading the way As the recent global economic crisis shows actions of private bankers can threaten capital markets weaken national regulatory systems and strain international cooperation seriously endangering the world economy and the interests of nation states **FDIC Banking Review** ,1993 Drawings Vija Celmins,Jonas Storsve,2006 **Disassembling and Decolonizing School in the Pacific** David W. Kupferman,2012-08-11 Schooling in the region known as Micronesia is today a normalized ubiquitous and largely unexamined habit As a result many of its effects have also gone unnoticed and unchallenged By interrogating the processes of normalization and governmentality that circulate and operate through schooling in the region through the deployment of Foucaultian conceptions of power knowledge and subjectivity this work destabilizes conventional notions of schooling s neutrality self evident benefit and its role as the key to contemporary notions of so called political economic and social development This work aims to disquiet the idea that school today is both rooted in some distant past and a force for decolonization and the postcolonial moment Instead through a genealogy of schooling the author argues that school as it is currently practiced in the region is the product of the present emerging from the mid 1960s shift in US policy in the islands the very moment when the US was trying to simultaneously prepare the islands for putative self determination while

producing ever increasing colonial relations through the practice of schooling The work goes on to conduct a genealogy of the various subjectivities produced through this present schooling practice notably the student the teacher and the child parent family It concludes by offering a counter discourse to the normalized narrative of schooling and suggests that what is displaced and foreclosed on by that narrative in fact holds a possible key to meaningful decolonization and self determination
