Seduced and Abandoned André Frankovits,1984-01-01 **McLuhan and Baudrillard** Gary Genosko,2002-01-04 Gary Genosko's timely study traces McLuhan's influence on the work of Jean Baudrillard arguing that McLuhan's ideas have been far more influential than hitherto imagined in the development of postmodern theory Genosko explores how McLuhan's ideas persist and are distorted through Baudrillard's work He argues that it is through Baudrillard's influence that McLuhanism has had its greatest impact on contemporary cultural thought and practice The Blackwell Companion to Major Contemporary Social Theorists George Ritzer,2008-04-15 The Blackwell Companion to Major Contemporary Social Theorists is a survey of contemporary social theory that focuses on the thinkers themselves In original essays especially commissioned for this volume leading experts and practitioners examine the life and work of 13 major theorists such as Elias Baudrillard Giddens and Butler Includes 13 original essays by leading scholars on major contemporary social theorists Covers key figures such as Elias Goffman Foucault Habermas Giddens Bourdieu and Butler Essays include biographical sketches the social and intellectual context and the impact of the thinker's work on social theory generally Includes bibliographies of the theorist's most important works as well as key secondary works Can be used in conjunction with The Blackwell Companion to Major Classical Social Theorists edited by George Ritzer for a complete reference source in social theory **Volume 13: Kierkegaard's Influence on the Social Sciences** Jon Stewart,2016-12-05 Kierkegaard has long been known as a philosopher and theologian but his contributions to psychology anthropology and sociology have also made an important impact on these fields In many of the works of his complex authorship Kierkegaard presents his intriguing and unique vision of the nature and mental life of human beings individually and collectively The articles featured in the present volume explore the reception of Kierkegaard's thought in the social sciences Of these fields Kierkegaard is perhaps best known in psychology where The Concept of Anxiety and The Sickness unto Death have been the two most influential texts With regard to the field of sociology social criticism or social theory Kierkegaard's Literary Review of Two Ages has also been regarded as offering valuable insights about some important dynamics of modern society **RUA/TV?** Tony Fry,1993 Heidegger and the Televisual Explores an ontological theory of television as it authors culture and expands beyond the limit of the technology and its social and economical institutions As well it employs ideas delivered by Martin Heidegger as a way of understanding and investigating the Being of what the book names as the televisual the thinking of television beyond that which is normally characterised as television **The end-of-the-century party** Steve Redhead,2019-07-04 Manchester may have been born at the Hacienda in the summer of 1988 but the city had been in creative ferment for almost a decade prior to the rise of acid house The end of the century party is the definitive account of a generational shift in popular music and youth culture what it meant and what it led to First published right after the Second Summer of Love it tells the story of the transition from new pop to the political pop of the mid 1980s and its deviant offspring post political pop Resisting contemporary proclamations

about the end of youth culture and the rise of a new right leaning conformism the book draws on interviews with DJs record company bosses musicians producers and fans to outline a clear transition in pop thinking a move from an obsession with style packaging and synthetic sounds to content socially conscious lyrics and a new authenticity This edition is framed by a prologue by Tara Brabazon asking how we can reclaim the spirit energy and authenticity of Madchester for a post youth post pop generation It is illustrated with iconic photographs by Kevin Cummins **Rocking Around the Clock** E. Ann

Kaplan,2016-04-14 The first non stop rock video channel was launched in the US in 1981 As a unique popular culture form MTV warrants attention and in this the first study of the medium originally published in 1987 Ann Kaplan examines the cultural context of MTV and its relationship to the history of rock music The first part of the book focuses on MTV as a commercial institution on the contexts of production and exhibition of videos on their similarity to ads and on the different perspectives of directors and viewers Does the adoption of adolescent styles and iconography signal an open minded acceptance of youth s subversive stances or does it rather suggest a cynicism by which profit has become the only value In the second part of the book Kaplan turns to the rock videos themselves and from the mass of material that flows through MTV she identifies five distinct types of video the romantic the socially conscious the nihilistic the classical and the postmodern There are detailed analyses of certain videos and Kaplan focuses particularly on gender issues in videos by both male and female stars The final chapter explores the wider implications of MTV What does the channel tell us about the state of youth culture at the time *Questions of Travel* Caren Kaplan,1996-08-21 On travel in literature Knowing Nukes
