spirituality and self improvement *21 Rituals to Change Your Life* Theresa Cheung, 2017-03-14 Aristotle said you are what you repeatedly do Most of us have no idea that what we repeatedly do creates our lives we think our future is shaped by big events the decisions we make the thoughts we have but this book will show you that it is your daily actions that are the key Over the last few decades neuroscientists and psychologists have discovered that there is more power in I do than I think However if an action is repeated enough times it becomes habit but habits lack thought consideration and presence To effect long lasting meaningful change our actions need to be filled with a sense of personal meaning and power they need to be ritualized Creating personal ritual in our lives allows us to bring the presence of the sacred into the everyday The rituals in this book have been designed as symbolic acts providing a framework for anyone to use to create positive change in their lives The 7 morning rituals are designed to help you wake with determination the 7 afternoon rituals focus on living on purpose and the 7 evening rituals are about retiring with satisfaction **I Don't Need an Acting Class** Milton

Justice, 2021-11-01 *I Don't Need an Acting Class* explores critical aspects of the technique of acting utilizing conversations via email with countless actors Some are aspiring students others are seasoned professionals The conversations document the challenges these diverse actors face as they digest what they have learned in a class or rehearsal while exploring in practical terms how to use their growing technique Milton Justice first began receiving emails from actors in 2008 In this book Justice brings together email conversations between teacher and student along with observations and commentary about acting technique and craft Not all of the emails in the book are overly thought out or complete Quite the contrary they are meant to capture the feeling of a living breathing process as it happens When an actor sends a teacher or director an email with a problem be it a simple comment or confusion it is evidence of a creative artist exploring new ground Many years ago Stella Adler sent Justice a letter in response to a panicked note he had written to her while lost in the weeds during rehearsals for a new play She set a tone for him as she succinctly defined the problem and reminded him of its elegant solution He was overwhelmed by the care she had given him That letter still hangs over his desk perfectly demonstrating the power of a written exchange between a teacher and a student
