Islam and Higher Education

Marodsilton Muborakshoeva,2013 This book explores the different concepts of a university and the way they shape practice in Muslim contexts with a particular focus on the Islamic republic of Pakistan Higher education in Muslim contexts is often criticised for being incapable either of contributing to the socio cultural and civilisational developments of society or of doing research and producing knowledge of a high standard While the international organisations accuse universities of not helping the societies to become knowledge based and to compete at the global level some Muslim scholars call for the creation of authentic Islamic educational structures that would as they think solve the problems of higher education

Zuckert,2009-08-01 Faced with the difficult task of discerning Plato s true ideas from the contradictory voices he used to express them scholars have never fully made sense of the many incompatibilities within and between the dialogues In the magisterial Plato s Philosophers Catherine Zuckert explains for the first time how these prose dramas cohere to reveal a comprehensive Platonic understanding of philosophy To expose this coherence Zuckert examines the dialogues not in their supposed order of composition but according to the dramatic order in which Plato indicates they took place This unconventional arrangement lays bare a narrative of the rise development and limitations of Socratic philosophy In the drama s earliest dialogues for example non Socratic philosophers introduce the political and philosophical problems to which Socrates tries to respond A second dramatic group shows how Socrates develops his distinctive philosophical style And finally the later dialogues feature interlocutors who reveal his philosophy s limitations Despite these limitations Zuckert concludes Plato made Socrates the dialogues central figure because Socrates raises the fundamental human question what is the best way to live Plato s dramatization of Socratic imperfections suggests moreover that he recognized the apparently unbridgeable gap between our understandings of human life and the nonhuman world At a time when this gap continues to raise questions about the division between sciences and the humanities and the potentially dehumanizing effects of scientific progress Zuckert s brilliant interpretation of the entire Platonic corpus offers genuinely new insights into worlds past and present
