Appalachian Cultural Competency Susan Emley Keefe, 2005 Health and human service practitioners who work in Appalachia know that the typical textbook methods for dealing with clients often have little relevance in the context of Appalachian culture. Despite confronting behavior and values different from those of mainstream America, these professionals may be instructed to follow organizational mandates that are ineffective in mountain communities, subsequently drawing criticism from their clients for practices that are deemed insensitive or controversial. In *Appalachian Cultural Competency*, Susan E. Keefe has assembled fifteen essays by a multidisciplinary set of scholars and professionals, many nationally renowned for their work in the field of Appalachian studies. Together, these authors argue for the development of a cultural model of practice based on respect for local knowledge, the value of community diversity, and collaboration between professionals and local communities, groups, and individuals. The essays address issues of both practical and theoretical interest, from understanding rural mountain speech to tailoring mental health therapies for Appalachian clients. Other topics include employee assistance programs for Appalachian working-class women, ways of promoting wellness among the Eastern Cherokees, and understanding Appalachian death practices. Keefe advocates an approach to delivering health and social services that both acknowledges and responds to regional differences without casting judgments or creating damaging stereotypes and hierarchies. Often, she observes, the reflexive approach she advocates runs counter to formal professional training that is more suited to urban and non-Appalachian contexts. Health care professionals, mental health therapists, social workers, ministers, and others in social services will benefit from the specific cultural knowledge offered by contributors illustrated by case studies in a myriad of fields and situations. Grounded in real-tested strategies and illustrated clearly through the authors' experiences, *Appalachian Cultural Competency* is an invaluable sourcebook stressing the importance of cultural understanding between professionals and the Appalachian people they serve. [They Say in Harlan County](#)

Alessandro Portelli, 2012-09-13 This book is a historical and cultural interpretation of a symbolic place in the United States: Harlan County, Kentucky, from pioneer times to the beginning of the third millennium, based on a painstaking and creative montage of more than 150 oral narratives and a wide array of secondary and archival matter.

The New Encyclopedia of Southern Culture Michael B. Montgomery, Ellen Johnson, 2014-02-01 The fifth volume of *The New Encyclopedia of Southern Culture* explores language and dialect in the South, including English and its numerous regional variants, Native American languages, and other non-English languages spoken over time by the region's immigrant communities. Among the more than sixty entries are eleven on indigenous languages and major essays on French, Spanish, and German. Each of these provides both historical and contemporary perspectives, identifying the language's location, number of speakers, vitality, and sample distinctive features. The book acknowledges the role of immigration in spreading features of Southern English to other regions and countries and in bringing linguistic influences from Europe and Africa to Southern English. The fascinating

patchwork of English dialects is also fully presented from African American English Gullah and Cajun English to the English spoken in Appalachia the Ozarks the Outer Banks the Chesapeake Bay Islands Charleston and elsewhere Topical entries discuss ongoing changes in the pronunciation vocabulary and grammar of English in the increasingly mobile South as well as naming patterns storytelling preaching styles and politeness all of which deal with ways language is woven into southern culture

Linguistic Diversity in the South Margaret Clelland Bender, 2004 This volume brings together work by linguists and linguistic anthropologists not only on southern varieties of English but also on other languages spoken in the region The contributors who often draw from their own involvement in language maintenance or linguistic heritage movements engage several of the fields most pressing issues as they relate to the southern speech communities tension between linguistic scholarship and linguistic activism discourse genres language contact language ideology and the relationship between language shift language maintenance and cultural reproduction Acknowledging the role of immigration and settlement in shaping southern linguistic and cultural diversity the volume covers a range of Native American African American and Euro American speech communities One essay explores the implementation of dialect awareness programs and the ethics of the relationship between researchers and North Carolina s Lumbee and Ocracoke communities Another essay focuses on a single Appalachian community to explore the interplay between linguistic variables commonly associated with Appalachian speech and others commonly associated with African American speech Other essay topics include Creek language preservation efforts by the Seminole Tribe of Florida the history of language contact and linguistic diversity in the Carolinas and the changing relationship between English and Muskogean in Oklahoma Also covered are the stereotypes varied realities and language ideologies associated with Appalachian speech communities the mobilization of dialect by Cajun English speakers for creating humor expressing solidarity and setting boundaries and the creative use of academic and religious discursive models in the construction of Melungeon and Appalachian Scotch Irish discourses and identities

gender at home and in the workplace At a time when the Appalachian region continues to dominate discussion of mining culture this book provides a very different and unexpected view of how miners live and work together and of how their lives and work reconfigure ideas of gender and kinship
