Dalla, Lynda M. Baker, John Defrain, Celia Williamson, 2011-04-01 This book is part of a two volume set that examines prostitution and sex trafficking on a global scale with each chapter devoted to a particular country in one of seven geo cultural areas of the world The 16 chapters in this volume Volume II are devoted to examination of the commercial sex industry CSI in countries within Africa Asia Middle East and Oceania while the 18 chapters comprising Volume I focus exclusively on Europe Latin America and North America This volume also includes a global section which includes chapters that are globally relevant rather than those devoted to a particular country or geographic location The content of each Volume as well as each chapter reflects great diversity diversity in focus writing style and personal position regarding the commercial sex industry Diversity extends to the contributors who are comprised of international scholars service providers and policy advocates representing a variety of fields and disciplines with distinct and varied frames of reference and theoretical underpinnings with regard to the commercial sex industry In addition to addressing aspects of the CSI across the globe as impacted by geography and culture authors have also provided a spectrum of implications of their work implications ranging from continued scholarship and research to legislative maneuvers and policy change to suggestions for collaboration across NGOS fieldworkers clinicians and service providers Together the 34 expertly crafted chapters provide a wealth of knowledge from which to more deeply appreciate and contemplate the global commercial sex industry By uniting contributors from around the world this book aims to build a relatively common knowledge base on global prostitution and sex trafficking Viewed from a unified global perspective it is hoped that this common understanding will lead to a grounded theory and integrated view with applicable suggestions for international efforts aimed at intervention *Linguistic Genocide in Education--or Worldwide Diversity and Human Rights?* Tove Skutnabb-Kangas, 2013-05-13 In this powerful multidisciplinary book Tove Skutnabb Kangas shows how most indigenous and minority education contributes to linguistic genocide according to United Nations definitions Theory is combined with a wealth of factual encyclopedic information and with many examples and vignettes The examples come from all parts of the
