Sinclair, 2007-09-15 The book traces how Hildegart's conception, life and early death can be mapped in uncanny manner onto the rise, organization and decline of the Sexual Reform movement in Spain. Conceived deliberately in 1914 as a eugenic child at a date when writing on eugenics was well under way in both England and Spain, Hildegart received her early education from her mother who in her turn had received her own from her father's library rich in works of utopian socialism. Subsequently and formally Hildegart's education through the 1920s coincided with a period in Spain when writing on eugenics and sex reform became particularly intense. It encompassed both law and medicine, favoured disciplines for those involved in the sex reform movement and her teens provided a social education within the meetings and publications of the *Campa a Sanitaria* of Navarro Fernández in the 1920s. Hildegart's own rise to a position of prominence in the world of eugenics and sex reform undoubtedly relates to her concentrated and impressive publishing activity from 1930 onwards at a time when writings of others involved in sex reform equally reached heightened activity. The coming of the Second Republic in 1931 further facilitated this publishing activity and made possible the organization of the Spanish chapter of the WLSR in Spain, the *Liga Mundial Para la Reforma Sexual* in March 1932 with Gregorio Marañón as its President and the youthful Hildegart, age 17, as its Secretary. The *Liga* gathered together the groupings of hygienists, eugenicists, lawyers and educational reformers who were already part of a wider international scene and who had been promoting ideas of eugenics and sexual reform in Spain for some time and particularly through the 1920s. Little more than a year after the *Liga* was founded Hildegart was killed by her mother, Aurora Rodríguez. It is hard to assert that this shocking event caused the death of the *Liga*. Nonetheless, the movement in Spain seems not to have survived in coherent manner beyond 1933, although individual members continued to be active in various ways. More widely through Europe, the WLSR lasted through the 1930s, although its continuity through other organizations until a later date is still insufficiently researched. In the background to the activity leading up to the founding of the *Liga*, there is Hildegart's correspondence with Havelock Ellis. She wrote to him to seek his advice on setting it up. The correspondence was far more than a simple request for advice and it lasted until Hildegart's death. It includes her record of the foundation meeting of the *Liga* with details of discussion of the ten planks of belief of the WLSR and reveals the inbuilt power struggles between professional factions in the organisation. Both the foundation document and the letters require careful interpretation. The foundation document reveals dissension within the *Liga* at the same time as it shows Hildegart's energetic efforts to assert her own position within it. The letters themselves tell us much about Spanish sexual politics. But at the same time and even more strikingly, they are full of Hildegart's character: her style moves between business-like discussion and an endearing and ingenuous, flirtatious manner, distress and even paranoia. Above all, the letters

reveal a side of this youthful sexual reformer never documented elsewhere and their extraordinary discursive nature encapsulates the paradoxes and conflicts in Spain at the time relating to thoughts on sexuality and reform The correspondence with Ellis is moreover a text with a dramatic subtext in that it allows us to glimpse in poignant and dramatic detail the personal tensions and anxieties in the life of this young woman who was to be murdered by her mother The letters also testify to Hildegart's strong and touching attachment to Ellis as mentor in the setting up of the Liga and more personally as a father figure The correspondence thus provides a unique window onto a movement and an individual both full of complexity and provide pointers the links between ideas and sexuality in England and the way such ideas were explored in Spain

Criminalising the Purchase of Sex Jay Levy, 2014-09-15 In an attempt to abolish prostitution Sweden criminalised the purchase of sex in 1999 while simultaneously decriminalising its sale In so doing it set itself apart from other European states promoting itself as the pioneer of a radical approach to prostitution What has come to be referred to as the Swedish model has been enormously influential and has since been adopted and proposed by other countries This book establishes the outcomes of this law and the law's justifying narratives for the dynamics of Swedish sex work and upon the lives of sex workers Drawing on recent fieldwork undertaken in Sweden over several years including qualitative interviewing and participant observation Jay Levy argues that far from being a law to be emulated the Swedish model has had many detrimental impacts and has failed to demonstrably decrease levels of prostitution *Criminalising the Purchase of Sex* Lessons from Sweden utilises a wealth of respondent testimony and secondary research to redress the current lack of primary academic research and to contribute to academic discussion on this politically charged and internationally relevant topic This original and timely work will be of interest to sex worker rights organisations policy makers and politicians as well as researchers academics and students across a number of related disciplines including law sociology criminology human geography and gender studies
